
The Dye that never disappoints!

Have you had bad luck with your home dyeing? Sunset Soap Dyes will *never* disappoint. The element of "luck" is eliminated.

Sunset is scientifically perfect—the "Know How" of the professional dyer is in the cake—it cleans while it dyes—dyes *all* fabrics evenly—retains the 'sheen' on Silk and 'finish' on Cotton and Wool—is fast—is easy to use—is vastly different from anything else you may have used or may be tempted to use for Home Dyeing—vastly *different* and vastly *superior.*

Silk, Wool, Cotton, Linen, Mixed Goods—From the heaviest to the most fragile of fabrics, may be safely dyed any color in the same dye bath with SUNSET in 30 minutes—and—it won't wash out!

Consider its usefulness possibilities—for frocks, underwear, waists, ribbons, ties, stockings—for draperies—for Khaki outing apparel—for rugs and gowns.

'Crocking' A Dye is said to 'crock' when it rubs off on other materials. SUNSET will NOT 'crock,' fade or wash out.

CROUP.

Mrs. W. Furniss,
Hillside, Sask., writes:—
"I have used Dr. Chase's Linseed & Turpentine with great benefit for my little boy, age three years. He was very sick with croup, so I sent for a large bottle of Dr. Chase's Linseed & Turpentine. The first few doses greatly eased the choking feeling, so I continued to give it to him, and before the first bottle was finished he was quite well again. I also have three other boys, all of them subject to croup, and I never give them anything except Dr. Chase's Linseed & Turpentine. I always keep a bottle in the house and would not be without it as we live so far from town and croup or cold come on so suddenly.

A Leaky Roof Means a Leaky Purse

PATCHING a leaky roof is just like trying to block up the weak spots with dollar bills—and as expensive.

It's almost as cheap—cheaper in the end—to apply NONOLEAK is applied fifteen years' freedom from trouble LEAK right off as it is to temporarily repair, for once worry results.

The strongest reason that we can set forth is:—

Check up what you have spent in roof repairs during the past year, then figure how much NOLEAK you could have bought and how many years of money, worry and time-saving you could have effected.

Better call in for prices and first hand information. No obligation at all.
