Our Montreal Letter
(From Our Own Correspondent)

"RAILROAD DAY" BY THE ROTARIANS.

Sir Henry Thornton, president of the Canadian National Railways, Grant Hall, Vice-President of the Canadian Pacific, and a score of other employees of both railroads were guests of honor at the "Railroad Day" luncheon of the Rotary Club at the Windsor Hotel, Tuesday, Sept. 29th.

Sir Henry Thornton introduced nine employees whose aggregate service for the Grand Trunk and the Canadian National totals 414 years. He said that the long service of these men, and their loyalty, was a lesson that had helped establish principles and traditions that will last long after they have gone. Sir Henry also complimented the Rotary Club in this marking the 100th anniversary of the application of steam to railroading and said that it was characteristic of the organization to thus set aside a day for the commemoration of such an event.

Grant Hall also introduced a large group of veteran employees, of necessity younger in point of service due to the comparative youth of the Canadian Pacific. Mr. Hall said that the story of the hundred years that have intervened since the first locomotive with its thirty miles of tracks to the present with the huge engine and cars and 500,000 miles of rails reads like a fairy story.

A. D. MacTier, Vice-President of eastern lines of the Canadian Pacific and W. D. Robb, Vice-President of the Canadian National Railways were other speakers. Mr. MacTier praised the Rotary Club for making a specialty of boys, saying that it was an investment of the dividends of which would never cease. Mr. Robb entertained with a number of reminiscences of the days when he was a boy freeman on an old wood-burner 54 years ago.

John Anderson was chairman. An appeal for ten dozen Rotarians to aid in a theatre party for crippled children at the Capitol about two weeks hence was answered by over fifty volunteers.

MOUNT ROYAL ARENA TO BE REBUILT.

In order to compete with the "Forum," Montreal's greatest and grandest hockey rink, the directors of Mount Royal Arena have decided to pull down the present building and to build a more modern one that will be able to accommodate 12,000 spectators at a hockey match. The work will begin next spring. The Forum, where conflict between hockeyists and

boxers and elaborate carnivals have been enjoyed by many, is being altered to accommodate concert audiences this fall. Jeritza's appearance on Oct. 8, Gigli's on the 22nd, and that of the Boston Symphony Orchestra on Nov. 2nd, will be witnessed by Montreal's lovers of these artists in the arena. A stage has been erected with a special interior. Accommodation for the production of grand opera, proposed to be constructed next spring is now under consideration of the management.

THE TOLL OF ACCIDENTS STILL GREAT.

Accidents and death to young children, from autos, trucks and other vehicles, are continually growing. Children from 2 years to 7 seem to be the principal victims. The youngsters, playing or crossing the streets in different places in this growing city, are maimed or sent to a swift death in a few seconds. It is not unusual now to have ten to twelve children injured, and four to five fatally, in a week. The toll of accidents is appalling, and "Safety First," in many cases, is disregarded.

SAFETY LEAGUE ISSUES APPEAL.

"Slowly" means eight miles an hour, and it is this that the Province of Quebec Safety League wishes to impress upon the motorist who hurries at an excessive rate of speed through school zones for the protection of school children. To this end they are sending letters to one hundred drivers who have not observed this fact, with a view to gaining their co-operation regarding the child on the streets. The appeal is accompanied by an assertion on a form that indicates the rate, register number and school zone concerned, which facts have been reported by a vigilance committee of the League.

FIRE BUG GETS FIVE YEARS IN JAIL.

Convicted on a charge of arson in connection with the burning of a barn and its contents, the property of his wife, a man was sentenced to five years in the Penitentiary by Judge Cusson in the Court of Special Sessions. The fire occurred last August, at St. Brasils Grand.

SOME USEFUL KNOWLEDGE ABOUT CANADA.

She occupies second place among the world's greatest per capita exporters. With only one-twelfth the population of the United States, she does nearly one-fourth as much world trade. She is the world's greatest wheat exporter, yet she has available five times as much arable land as she has under cultivation.

Her total agricultural investment amount to over six billions, seven hundred and seventy-five millions of dollars.

Her dairy products yield over two hundred and forty million dollars annually.

Her live stock has averaged over one hundred and forty million dollars annually in the past five years.

Her field crops yield over nine hundred million dollars annually. Her population of, roughly ten million people have over two billion dollars on deposit in banks and loan companies.

She has the largest per capita railway mileage in the world and the

Before you turn in—

every night, use your Propyl-lactic Tooth Brush. Scrub every part of every tooth. Get rid of dangerous germs. Germs don't keep union hours. The long night gives them just the chance they want to dig through the precious, beautiful, white enamel of your teeth.

The minute you roll out—

every morning, reach for your Propyl-lactic Tooth Brush the first thing. Wake up your mouth with a thorough brushing. Thorough! That requires a Propyl-lactic. Brush gums, tongue and teeth. You'll like the clean and breezy feeling the Propyl-lactic gives your mouth.

"A Clean Tooth Never Decays"

THE ELECTION BATTLE WAGES FIERCELY.

Politics hold sway all over Canada at present. The political pot is boiling over with slander, abuse, deceit, and many policies. The Independents are booming large, and together with the Progressives may have something to say as to the turn of the wheel at the next Parliament. Hon. E. L. Patenaude, who claims to be an Independent, will take many votes from the Liberals in this Province. He is a man of honor and integrity, true to his word and, at present, is worrying the Liberals. Many claim his policy is a "bread and butter one," and he's carrying the crowd. He doesn't believe in abuse and says that it leads to the sewer.

Hon. Bourassa, the silver-tongued orator, is back in politics once again, also as an Independent, for the County of Labelle. He says that party politics is dead within his breast. His election is sure as he is the fil of the French Canadians.

Mr. R. E. Calder, K.C., the great criminal lawyer and former Crown Prosecutor is also anxious for political honor and stands as an Independent. He considers neither King nor Meighen to be fit as leaders of a Government. In that respect he is not far astray. In opening his campaign he condemned Meighen for his sins of commission and King for his sins of omission.

"We have serious problems to solve," he said. "We must look forward and not backward." The greatest danger in Canada to-day is political diaphanous. Men of force and independent mind and courage to act for the country as a whole are needed after four years of inaction and non-government. I ask you to send me to Ottawa as an Independent member.

"No party headed by Mr. Meighen will ever be a good party," continued Mr. Calder. "He committed two of the most disastrous mistakes that the country has ever known, which tended

to encourage the racial cleavage of Canada and the interests of himself and party and brought the country to the verge of ruin by his railway proposition. Mr. Meighen's action was perverse. Mr. King's inaction almost as bad. I am against Mr. King in his feeble tariff tinkering and against him on Senate Reform, the Senate being one of the landmarks in the act of Confederation which makes for unity. In fact if the Commons had studied national problems with half the attention the Senate does they would be doing well."

Mr. Calder said if elected he would press for certain amendments in the Canadian Criminal Code, "the finest book ever written for the criminal." Under its provisions and with the assistance of ingenious lawyers arrest and trial are often separated by two years where prompt and swift justice should prevail. "Criminals should be made to know that when arrested they are only two weeks off from the prison, penitentiary, the rope or deportation." He also believed that with certain changes in police methods by which known criminals could be arrested for vagrancy they could be saved from execution and Montreal made one of the cleanest cities on the continent. Mr. Calder believed that all Canadian citizens feeling themselves aggrieved by the Government should have the means of halting the official responsible into court; he would therefore favor the abolition of the Petition of Rights. He was against the export of power and would like to see export taxes placed upon such Canadian products as asbestos, mica and nickel.

Mr. Vincent Massey, in accepting appointment to the Mackenzie King Cabinet, said: "I believe this election to be one of the most crucial in the history of Canada; crucial because the very unity of the country is at stake."

Meanwhile the President of the Liberal-Conservative party at Quebec, in his presidential address this week, said: "If we want Confederation to live and Canada to remain a free country, we must range ourselves round Mr. Meighen's flag."

The women are working hard on both sides with good pay for their services. Politics is a wonderful game. Collier's Weekly, under the heading of "Get In Politics," says editorially: "I am disgusted with politics: You hear this phrase everywhere at election time."

Year after year those who are too busy to vote or to take any active part in the business of government stand aloof and shout their disgust. They think they prove their own superiority by expressing contempt for the methods and words of those running for office.

There was never a greater fallacy. If politics is bad, make better. If the bosses are unworthy, supplant them. If candidates do not represent the sound citizenship, bring out better men and women.

Politics is nothing but public business. We must have politics if we are going to have popular government. In this land of universal suffrage no man or woman has the right to stand aloof and complain.

Government, good and bad, is the product of politics and in the long run we get the kind of government we deserve. Inefficiency and corruption in office are reflections of the apathy or the ineffectiveness of the voters.

So if you don't like the way politicians are conducting your affairs step right into the ring and get the feel of the fight.

Good men and women battled and sacrificed during long generations to give you this right. Half the wars in history were fought for no other end. If we show half the zeal in using the vote which our predecessors evinced in winning it for us, there will be small ground for complaint on the part of any man.

Get into the struggle or else save your disgust for yourself. The politician doesn't deserve it and he would not mind it if he did.

Buy Diamond Dyes—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

Cummins Made British Consul
STORM CENTRE OF TROUBLE IN MEXICO GOES TO BRAZIL.
LONDON, Oct. 3.—(A.P.)—H. H. Cunard Cummins, formerly in charge of the archives at the British Legation in Mexico City, has been appointed consul at Pernambuco, Brazil.

Mr. Cummins was the storm center of a controversy between British and Mexican Governments in 1924, leading to his recall and turning over of British interests in Mexico to the American Embassy. Besides Pernambuco, where he resides, he will represent Great Britain at Alagoas, Paraupeba, Rio Grande and Ceara.

Mr. Cummins, acting as British agent in Mexico, incurred the displeasure of the Mexican Government when he interceded in behalf of Rosalie Evans, after the seizure of some of her property. The British agent was charged with sending courteous notes to the Mexican Government. He was ordered deported and was a prisoner within the Legation at Mexico City for nine months. He was later released upon condition that he should not be permitted to return to Mexico. He subsequently crossed the border into the United States and sailed for England.
