MIRACLES OF FATHER IGNATIUS

English Preacher Declares He Has Several Times Raised the Dead.

London, Dec. 21.-The assertions in the recently-published life of "Father" Ignatius, founder of the Protestant monastery at Llanchony, that he claimed the power of raising the dead to life, led a correspondent to call upon "Father" Ignatius and ask him about the matter.

"When quite a young man," he said, "the great Dr. Pusey, my confessor, knew even then that the spirit of God had taken possession of me and ordered me to heal the sick and raise the dead in his name. I claim I have performed no miracles myself, but have been chosen for God's instrument in their perform. Asked to describe specific cases, "Father" Ignatius said: "In 1862, when I was with my fellow-worker, Mr. Redman, was with my fellow-worker, Mr. Redman, a woman earnestly besought me to come and save her daughter, was was dying of typhoid. Suddenly feeling God's command upon me, I rose up, charged my friend to bring a relic of the true cross with him, and we both set forth on our errand of mercy. On reaching the house we found the girl had been dead two hours, and the body was already disposed for burial.

Young Porta was no backward lover of a mercenary age. He neither stopped to consider whether his salary would be enough to meet the requirements of the rent, the gas bills and other incidents of life in this age of modernity. He never worried about what Papa Rovina would think of him as a sonlin-law. Nay, Nay! as a true lover, fit for burial.

'Actuated by an involuntary impulse, I took the relic and laid it on the heart of the corpse, exclaiming: 'In the name of Jesus Christ, I say unto thee arise.' Slowly and stiffly the corpse arose, Red. man cried out: 'What have you done'
'I have done nothing,' I answered; 'the
Lord hath done all.' I believe Redman's glory of God that I should be believed.
"I remember, too, at Plymouth, an evil mother refused to allow her daughter to be baptized. I warned her that God's curse would fall on her if she persisted. She was obdurate. Suddenly, without warning, her 14-year-old daughter was curse would fall on her. If she persisted. She was obdurate. Suddenly, without warning, her 14-year-old daughter was stricken with idiocy. "When Llanthony Abbey was being built a great block of masonry crushed to death one workman. The brothers ran to tell me of the accident. I grasped a little flask of Lourdes water and reached the spot where the man lay, nothing but bruised pulp, and his fellows standing horrified around the dead body. I felt the divine commend upon me. I commanded him to use in the name of the Lord. The man walked home to his lodgings without even a mark upon him. There is certainly one witness to that event living."

Chicago, Dec. 15.—The cry that ronance, exciting, stirring romance, with ong and earnest courting, angry and earnest courting, angry fathers' opposition, stern laws and mag-istrates, and the other things that go to make the way of true love run unsmoothly has died out must be stilled and put to shame by the examples of Cupid's work in the last week or two. Love and romance are not dead in this country. Young people fall in love, angry parents vent their opposition, and Cupid eventually triumphs or does not according to the circumstances, just as was ever the case. Hash Heated Over Failed to Free English From the Wife Who Cooked It.

New York, Dec. 22.—Despite his plaintive protests that his beautiful young wife furnished him with food which had lost the bloom and virility of youth, the suit of Eugene Montgomery English, the candy manufacturer, for separation from Clara English was dismissed by Justice Giegerich yesterday, after the fair defendant had made tart comments on her husband's nature, and marital troubles of h bizarre pattern had been aired.

Mrs. English told her side of the tale to a reporter last night, and painted a vivid picture of connubial cacophony. He deposed that in violation of ar ante-marital compact, Mrs. English declined to bear her share of the expenses—looked with frigid hauteur upon gasman, milkman, grocer, and others-although she enjoys an income of \$3,000 annually.

He declared that hash-unsavory hoary hash-into which renewed life had been infused by a gas stove, was offered to him. He said that life with Mrs. English was a gastronomic nightmare, and begged for separation. Then came the series of rebuttals, from Mrs. English, and the series of charges that awoke interest. When one item-which lent piquancy to the quaint case-was introduced, she told her story. This item read:

The children and I would orepare the food for ourselves, and suddenly Mr. English would drop into the house and, of course, find no food ready; whereupon he raised an unwarranted storm."

All this time, she says, he had large income. Mrs. English is a really handsome woman. She entered the court yesterday wearing a big picture hat with hopelessly intricate trimmings, long fur stole, and an elaborate gown. She caused a pleasing commotion as she swept down the aisle and took the
