WEEKLY COLONIST AND CHRONICLE.

AND CHRONICLE.

Tuesday, September 10, 1867

The Governor and his "Gentlemen of Position."

When the Governor made his recent pilgrimage to William Creek he was agreeably surprised to find the Grouse Creek jumpers a jolly set of fellows; and when he returned to this city he lost no time in expressing his wonder at the good treatment he had received and in pronouncing them in the Govthis wonder of his Excellency was indicated a dim suspicion that the Canadian Company, unused to getting hold of a man of his mettle and position, would come together and dine on him as a toothsome morsel not every day met with, like cannibal Scythians, in the expectation that they would be endowed with the great qualities of him they ate. Whatever his thoughts were, it remains on record that Mr Seymour was so exceedingly surprised at the civil and decent treatment he received at Richfield, and so favorably impressed with the character of the "gentlemen" whose distinguished acquaintance he had formed, that he took their reputations into his own care and keeping and obstinately refused to place any reliance in a report, which reached here soon after his return from his pilgrim. age, that his moral wards, so soon as his back was turned, had forgotten the dignity due to their social position as "gentlemen," and in direct violation of the acknowledged laws of meum tuum had again laid their "itching aiming at a reduction of the gas rates that is palms" upon the property of their going on here, the following item is of inthe information was pronounced a Commercial Auterise, has an arrived the information was pronounced a Petroleo-calcium gas.' sorely puzzled to guess the meaning of his hasty flight, but his friends account for it by saying that it was necessary for him to return to Victoria, convene the Council, and devise some means by which the Grouse Creek dispute may be settled.

THE CANADIAN COMPANY. On the 9th, nine of the principal men of the above company, through the Governor's rdvice, were requested, (this is the only term which can be used) by Commissioner Ball to meet him at the Court-house, for what purpose they were not informed. On their arrival they were arraigned for disobeying an order of Court, made on the 14th July last, found guilty and sentenced to three months' imprisonment each. The first sentenced, Mr Grant, went peaceably to jail with the constable, but the remaining eight positively refused in open Court, and defied the Judge to carry out the sentence. In this dilemma, Mr Ball found himself unable to accomplish anything with the force at his command, and retired to consult again with the Governor, requesting the rebels to remain in Court until his return, which, to use the words of some of them, they consented to do, providing he would not keep them too long waiting. The Governor sent a messenger for Mr Booth, and, it is said, that gentleman was asked to request the boys to go to jail was asked to request the boys to go to jail until Sunday the 11th, when they would be pardoned by His Excellency. It was only to unhold the law and not have iridiated in the horizontal to unhold the law and not have iridiated. until Sunday the 11th, when they would only to uphold the law, and not have it ridi- try the cause of the Grouse Creek difficulty, culed in this manner that these proceedings were taken at all. The Governor's wish was watch the interests of the Flume Co, and made known to them, Mr Booth using his appointed Mr. Dewdney, the jailor, as influence to have them comply. At first they stubbornly declined and not until a large number of friends and outsiders pressed and time, and as the case proceeded it became remonstrated with them, did they bring evident he was totally unfit to remain themselves to humble even to the represent longer upon the bench. He was found tative of royalty. During this state of things it was evident she Governor was sorely perplexed, as he kept pacing back and forth in securely ironed and locked in one of the the square adjoining the Court-house, and no cells, where, after a few bours refreshing doubt this incident hastened his departure, sleep, he awoke to find everything in perfect he perhaps imagining the whole Grouse order and the Canadian Co the guardians of Creek difficulty at an end, or it may be he his post. He has since been discharged for came to the conclusion a further stay here allowing a prisoner to escape, who was comwould not mend matters, believing as he mitted to take his trial before Judge Begbie must believe the boys to be an ungovernable for grand larceny, and for an account of set. He left an order for their release from | which see Sentinel of this date. custody on Sunday, and it is said a rehearing

orders, but of course this is an assertion for the truth of which I cannot vouch. Thus matters stand in " Peaceful-Lawabiding Cariboo," to the disgrace of British people and British institutions, from which you must perceive we have a Government only in name, a thing in fact, to be laughed at and scorned; an old rusty machine whose engineers are incapable of keeping it in order. Governor Seymour last visit to this place had better never been made; some pity, but the great majority blame him, and ridicule his pretensions as the Governor of a Colony groaning with the weight of a lion is pretty equally divided as to their re-heavy debt, labouring under great and spective merits, and but few light wagers grievious difficulties, and whose population is made up from people of almost every

country. THE BED-ROCK DRAIN.

is progressing slowly under the management the new directors. Few claims will benefit by it the present season, although hopes and winter.

Cañon have proved almost hopeless failures, although their owners at the commencement of last spring entertained the most sanguine expectations, and very lew can be said to be paying over expenses on the average. The miners above Richfield are having their reward for their summer's ground sluteing. The Cornish, McLaren, Brouse, Dutch Bill, Six-Toed-Pete and other companies are paying handsome dividends to their owners. is useless, however, to deay the fact that the mines on this creek are fast becoming drained of their wealth and the sooner people realizethe truth the better for the country and themselves. Their attention must be diverted to prospecting in other localities, where there is more ikelihood of the success always attending the efforts of the determined, bonest miner. A great deal of time is thrown away here by men lounging around bar-rooms, waiting for something to turn up, swearing at bad times and worse fortune, damning the country and those who found it, which if directed to useful pursuits might be of much benefit to the Colony at large and themselves in particular. True, most of those men are without the means to purchase an outfit. The traders will not trust, and Government has made no provision in the 'Estimates' for the fitting out of prospecting expeditions. It is to be regretted the Governor did not give this mat; ter his serious attention during his flying visit to this place. It would have encouraged those who have spent all their available means to still further persevere, and allay much of the ill feeling and discontent in the minds of our people.

MOSQUITO GULCH, eight miles down William Creek from Barkerville, is likely to give employment to a great mady men for years to come. The miners, nearly all, are doing well, some companies making as much as an ounce and pretty high figures. The highly satisfactory results from this gulch may be attributed to the caving of the bed-rock drain, as the chief men of the place are those who were thrown out of employment by the stopping of that worthless institution. If now some unforseen circumstance, the freshet for instance, should sweep that other great humbug, the Bed-rock flume, completely out of existence, William Creek would yet look up somewhat, and at least two hundred men would find profitable employment for many seasons to come.

CONKLIN'S GULCH

so far this year has disappointed everyone. again at 5 o'clock the morning of the 10th | The United Company have spent over \$8000 looking for the lost lead, and as yet with but was only once away from Richfield during poor chances of success. Considerable prospecting is being carried on in the Read, Hood, Home Stake and other claims. Some TOGRAPHS, you must call on Bradley & Hospital and Bedrock drain, the latter a of these claims could now be had cheap, for Rulorson, 429 Montgomery street, San public work in which he seemed to manifest which large amounts were offered and repany a new trial if they would pretend and ordered the prisoner to be discharged. considerable interest. The people had not fused in the spring,

takes the lead in good claims and is likely to maintain it. The Floyd Co. are waiting for the fall freshet before they can commence

operations, when they hope to be able to clear off the liabilities of the company. An interest in this company changed hands a few days since, Mr Michael Conolly being the purchaser at \$3100.

LEGH HARNETT.

by invitation, will lecture on the mineral resources of Cariboo on Sunday evening next, that being the day most likely to secure the attendance of a respectable and appreciative audience. It is said he has great faith in the future wealth of this district. He has been to most all the outside creeks and gulches since his arrival amongst us, and expresses himself much pleased at the courtesy shown him by all classes in this community. He deserves the respect and gratitude of our people, being the only stranger we know of who has taken an interest in our welfare, defraying the expenses of his journey from his own private means.

A GOOD JOKE.

During the 48 hours voluntary imprisonment of the Canadian boys they made themselves as comfortable as circumstances would admit. Their friends supplied them assigning the most able of their number to 'Special Commissioner.' This gentleman was staggering under a heavy load at the guilty of contempt of court and for once the law was vindicated, the mock judge being

JOE EDEN

had a benefit on the 10th, preparatory to his going into training for the coming fight with Wilson. The affair passed off pleasantly, the wind-up being between the old contestants. Eden and Baker, who seem to have forgotten their old fends. After the performance another \$100 a-side was deposited at Alex. Hardie's saloon, Camerontown, making in all \$1200 now in the hands of the stakeholder. The fight will come off on the 24th Sept, within five miles of William Creek, if nothing happens before that time to cause the absence of either one of the parties. Opinspective merits, and but few light wagers have as yet been made. That your Victoria admirers of pugilism may be acquainted with both men. I will, with your permission, here introduce

GEO. WILSON.

He was born in London, and according to the family register is 41 years of age. He is are entertained that the ground between the almost 6 feet high and weighed before his Caledonia company and the upper end of deperture for his training quarters at Else more's sanch 1973/4. He is round shouldered double fisted, crosseyed and bow legged Many of the claims on the creek below the and says he will never look his friends straight in the face if he does not whip Eden in thirty minutes, and Baker in the same ring on the same day He is withal a good-natured jolly fellow, whose inclinations are opposed to prizefighting, one who never makes a quarrel or takes advantage of the weak, and on this account has often borne with the sneers and insults of inferiors; but when roused he is an ugly customer, that gives his returns with right good will, and one whom, if I mistake not, the Victoria favorite will wish he never met.

Late last evening an infuriated individual attempted to stab the proprietress of the 'Cariboo Exchange Hotel," and was only prevented by the presence of mind of the lady herself. Jealousy is said to be the cause of the rash attempt.

The Aurora Co. cleaned up at noon to-day 426 ounces for 24 hours work. Shares in this claim were sold as low as \$150, the present summer, the owners believing it entirely worked out. Such are the ups and downs of mining. CHING FOO.

DIAMONDS IN BRAZIL.-We have been gratified by a visit from A. M. Lane, Esq., the agent for Ayer's Pills, Sarsaparilla and Cherry Pectoral, in SouthAmerica, who has just visited the mines with his medicines. and described to us the process of taking gems from the earth. A driver place his gaug of slaves in a mud hole, where the gems are found, and pans out the earth in the water, like gold washers. The negroes are paked, to prevent their secrecting the dias monds in their clothes. They are required to work facing their overseer, and forbidden to raise a hand to the face, lest they should swallow the jewels when found. Yet they \$20 a day to the hand, while those who have do carry them away, by becoming so expert not yet found bed-rock hold their claims at that they can snap them with their fingers from the pan to their mouth, without detect tion. Ayer's medicines are the talismans for their diseases, and it was not difficult to exchange, with the negroes, Ayer's Pills in about even weight, for the rough stones in which the brilliants are holden,-Boston

> WHEN you are depressed by the gaunt, sickly feeling of a disordered system, which needs to be cleansed and stimulated into healthy action, take a dose or two of AYER'S PILLS and see how quick you can be restored for a shilling.
