IRISH LAND BILL.

Great Uncertainty as to its Fate—Two Hundred and Fifty Amendments Proposed.

Chamberlain, the Government Leader—Further Armenian Massacres—Crucifixion by the Khalifa.

LONDON, July 16.—The interest of the political world continues to centre upon the Irish land bill. The only result of yesterday's progress in the discussion of the measure is to leave much uncertainty as to its fate. A despatch from Shanghai asserts that rumors are current there that Russian visit of Li Hung Chang to the United States is concerned, is practically settled. The weekly statement of the Bank of England, issued to-day, shows the following changes as compared with the previous account: Total reserve, increase £522,000; circulation, decrease, £227,000; bullion, increase, £204,499; other securities, decrease, £273,000; public deposits, increase, £870,000; notes reserve, £551,000; government securities, decrease, £23,000. The proportion of the Bank of England's reserve to the liabilities, which last week was 68.56 per cent., is now 50.16 per cent. The Chronicle publishes a despatch from Constantinople which asserts that a massacre was perpetrated at Egin in the district of Armenia, in which 400 persons were killed and the city was pillaged. The Turkish authorities are trying to keep the report of the massacre secret, according to the Chronicle correspondent. He also reports that in the Bitlis district almost every village has been raided and that a massacre is imminent at Aintab, the beginning being deferred until an order is received from the Sultan's palace. A despatch to the Times from Peru, says that Semario, the leader of the rebels at Yquitos, in the Loreto district, has fled, leaving the treasury empty. The rebellion in that district is now ended. An editorial in the Chronicle (Liberal), predicts that Mr. Chamberlain will speedily become the Tory leader in the House of Commons. "Already," says the Chronicle, "he has pushed Michael Hicks-Beach and Mr. Goschen out of the way. It is evident that Mr. Arthur Balfour's health and mismanagement will soon lead him to retire to the House of Lords, and the Radical Joseph Chamberlain as leader of the landlords and church party will be one of the dramatic events in history, and a wonderful example of the whirlwind of time." The Times in an editorial on the political outlook says: "Wednesday's proceedings in parliament do not specially rebound to the credit of the government. It is to be hoped that when Mr. Arthur Balfour reappears in parliament to-day he will take a clear and decided line. It would be an unpardonable blunder to persist in the delusion that important and difficult work, which could not be done in the months, can be squeezed into a single month." The Times correspondent in parliament predicts that the opposition of the landlords to the Irish land bill and the disagreement between the Heavilys and the Dilloites on the subject will compel the withdrawal of the bill by the government. An important revelation of the government's policy in regard to the Venezuelan question was made in the public utterance of the home secretary, Sir Michael Hicks-Beach, last night at a dinner given by the Unionist Conservative association, the practical wire-pullers of the Conservative party. Referring to the foreign policy of the government, Sir Michael after extolling the Imperial policy of the present ministry, said that when the papers are laid on the table it would be seen that they had handled the difficult ques-

BOSTOCK AT OTTAWA.

Believed to Aspire to Cabinet Post—The Globe's Cold Comfort for This Province.

OTTAWA, July 16.—Joe Martin is expected here daily to push his claims to the vacant portfolio of the interior. It is an open secret, however, that Laurier wants none of him, and the portfolio will probably be left open until after a commencement has been made of the inquiry into the Manitoba school case. Then it may be found useful in settling the difficulty, either Sifton or Greenway being taken into the Dominion cabinet. It is learned that Greenway only got as far East as Chicago on his way here when he got the tip to go back, and accordingly returned to Winnipeg. Mr. Metcalf, Boston member-elect for Yale-Cariboo, arrived here to-day. He reported that he will strike for the portfolio of the interior on the ground of his alleged services in the interest of immigration. The murmurings of the Pacific Coast Liberals are not without foundation in the new cabinet are destined to-day in the Ottawa correspondence of the Globe, but the only comfort offered them is the unofficial declaration that Mr. Laurier is not likely to be surprised if he seizes the first opportunity to give a British Columbia member a seat in the cabinet.

The announcement from Washington that Judge King has been appointed commissioner re the Behring Sea claims is premature. It appears that the late Canadian government recommended Judge King, but his appointment has not been made by the Imperial government. It is probable, however, that he will be the British commissioner. There is every probability that camps of military instruction will be held this summer in the interests of British Columbia, and he will stretch a point to have the funds provided. It is learned that Sir Oliver Mowat has decided to revise the list of Q.C.'s nominated by the outgoing government. It is just possible that it will be issued for good. The state department has not been instructed to prepare any commissions. Sir Oliver Mowat left for Toronto to-day; Sir Richard Cartwright leaves tomorrow, and next week there will hardly be a corporal's guard of the new government in town, the ministers being busy arranging for their re-election. Mr. Richard Cartwright has been expected to be reviewing the tenders for the fast Atlantic service. The government's policy on the Pacific cable will be made known in a few days.

HEAVY GOLD SHIPMENTS.

New York, July 16.—Lazard Freres shipped to France to-day \$600,000 of gold, and L. Von Hoffman & Co. \$800,000 to Germany. The drains on the gold reserve in the sub-treasury continue, although the amounts withdrawn lately are comparatively insignificant. Several of the largest gold-shipping banking houses are at present preparing to send heavy gold shipments. The rate of exchange advanced to a point near where gold shipments will be profitable, and in addition the report that the gold standard is to be a new \$200,000,000 loan of gold, Russia in going on a gold basis is thought to be an indication that other large shipments on special contract would be made. The amount of gold which it is still being withheld from the sub-treasury for shipment this week is estimated at from \$1,500,000 to \$3,000,000. Predictions are made that by the first of August the gold reserve will be close to \$90,000,000. There has as yet been no probable issue of bonds in case the reserve falls to a dangerously low figure, but well known bankers say there need be no alarm on that score, for President Cleveland will undoubtedly issue bonds at any time he may deem it necessary.

WANDERING WILLE PATERSON.

WINNIPEG, July 16.—(Special)—Premier Greenway returned from the South this afternoon. His visit only extended to Chicago; not to Ottawa or Toronto. The report in Lisgar ended to-day, Richardson's majority being increased by 11 votes, making 64. A Prince Albert despatch to-day to the Free Press says: "A meeting of the Liberals of Saskatchewan was held last night for the purpose of deciding whether or not the party managers would accede to Mr. Laurier's request to accept Wm. Paterson, the defeated candidate of Brant, as their candidate at the bye-election. The meeting was well attended, and the decision was arrived at. There is a strong feeling among the Liberals here that Mr. Laurier's action is not altogether fair to the local party, who after electing one outsider are now asked to elect another. H. W. Newlands and T. O. Davis are prospective local names to come before the convention."

HE "SMELLS TO HEAVEN."

MONTREAL, July 16.—(Special)—Antipathy to Tarte is becoming more manifest every day among old Liberals, and the Minister of Public Works is meeting with an amount of difficulty in getting a constituency. It appears that Mr. Laverge, the member for St. Johns and Beriville, has notified Mr. Laurier that he is going away for Tarte, and it is stated Mr. Laverge, who is Mr. Laurier's law partner, is being pressed to resign his seat in Drummond and Arthabaska to make way for Tarte, while Mr. Stenson, of Richmond and Wolfe, has likewise been approached with the same object.

ROOFING COMBINE PROPOSED.

CLEVELAND, July 16.—Nearly all the leading manufacturers of iron and steel roofing are in session here with the object of making prices rule higher. Many of the manufacturers favor the formation of a pool and it is probable that the outcome of the meeting will be a combination of some sort.

SITUATION CRITICAL.

British Politics Perplexing—Irish Land Bill the Bone of Contention.

LONDON, July 15.—The political situation growing out of the critical status of the Irish Land Bill, continues to absorb a large share of public attention, and the relative influence of the various government leaders as it is affected by the disposition of this bill is studied with keen interest. In anticipation of an interesting debate the benches of the House of Commons were more than ordinarily filled to-day. Rt. Hon. Gerald Balfour, chief secretary for Ireland, replying to a question by John Dillon, leader of the home rule party, said it was the intention of the government to withdraw entirely those clauses of the bill numbered 13, 14 and 15, fixing fair rents, and inserting in place of them the amendments proposed by Mr. T. M. Healy. It was the intention, Mr. Balfour said, to drop the government amendments now on the paper applying to clause 4. A Linambrian, secretary of state for the colonies, said the attitude of the ministry had been consistent from the outset. The government had said the bill could only be passed if it should be accepted as a non-contentious measure. If Mr. Dillon considered the bill a bad measure, there would be no use in wasting time in its discussion and the bill will have to be withdrawn. Replying to Mr. Labouchere, Mr. Balfour said he saw no reason why the bill should be abandoned. The change which the government proposed would, he said, render it necessary for the movers of the amendments to reconsider their positions. Sir William Vernon Harcourt moved the adjournment of the house and Mr. John Dillon seconded the motion. The latter complained of the vacillation of the Government and demanded that the bill be carried forward and passed by the house.

SHY OF ONTARIO.

WINNIPEG, July 15.—(Special)—Reports that the Hon. Wm. Paterson, the new controller of customs, may contest Saskatchewan, where Mr. Laurier was elected, are confirmed by the following despatch to the Free Press this afternoon, from West Prince Albert, dated July 15: "Hon. Mr. Laurier has asked the Liberals of Saskatchewan to accept Hon. Wm. Paterson as their candidate at the bye-election which is to take place owing to the Premier resigning here. Local Liberals would have preferred a local man, but say that the request of Mr. Laurier will no doubt be complied with. A meeting of the local Liberals takes place in Prince Albert to-night to decide the matter. The reason for Lisgar opening to-day at Morien before Judge Locke. Thirty-seven ballot boxes gave Richardson, Liberal, a net gain of 16. It is reported here that Hon. T. M. Daly is returning from England with the intention of contesting Brandon constituency in the event that Mr. McCarthy decides to sit for North Simcoe.

LOOKING TO FRANCE.

TORONTO, July 15.—(Special)—The World's Montreal correspondent says: "Not a day passes that does not bring to light some new detail as to the almost unaccountable action of the Roman Catholic prelates in this province during the late campaign. The correspondent learns that Mr. Begun of Quebec and Mr. Blais of Rimonski both wrote letters to Poullet, the Liberal candidate in Temiscouata, declaring that gentleman to be the most acceptable candidate. This course resulted in the defeat of Dr. Grandbois, the old member." July 15.—(Special)—La Patrie, one of the leading French Liberal papers, publishes a strong article headed "Vive la France," in which it declares that the French-Canadians look to France. "We would be without heart," it says, "if we forgot our origin and the memory of our fathers to please those who would assimilate us. Besides, our loyalty to England is not so strong as to prevent us allowing our hearts to speak."

EX-GOV'NOR OF MASSACHUSETTS

LITTLE PABOS, Que., July 16.—Ex-Governor Russell, of Massachusetts, who is here on a fishing excursion, was found dead in his tent this morning. The supposed cause was heart disease. MANCHESTER-BY-THE-SEA, July 16.—The family of ex-Governor Russell, and the three children, who are spending the summer in a quiet cottage overlooking the bay, were in ignorance of the cloud of sadness overhanging them until 2:30 o'clock this afternoon, when a telegram was received announcing the death of the husband and father. Profound grief at the news is expressed on every side here, where the ex-governor was one of the most popular and active of the many summer residents.

AFRAID OF PARLIAMENT.

TORONTO, July 16.—(Special)—The Ottawa correspondent of the Mail and Empire says Sir Oliver Mowat suggested that the coming session should be adjourned till January instead of opening next month. This would save, he urged, from \$300,000 to \$350,000 in sessional indemnity and mileage. The correspondent says the plan was promptly opposed by Tarte, but it had several ministerial adherents.

CHANGED CONDITIONS.

The Pacific Cable Conference Postponed to Await Developments at Ottawa.

New York, July 15.—The London cable to the Evening Post says that in view of the change of government in Canada, Right Hon. Mr. Chamberlain feels that it is unwise to proceed with the new Imperial projects until the intentions of the new Canadian government are known, and he has postponed the Pacific cable conference until October. Sir Donald A. Smith, Sir Mackenzie Bowell and Mr. Sandford Fleming, Canadian delegates, will return to Canada by the Lucania on Thursday. This sudden break up of the conference, just when it was expected to announce the completion of the scheme, is disappointing to the Imperialists, and makes it improbable, even if the new Canadian policy of economy permits the necessarily large Canadian grant, that this great state project can be admitted to the Imperial, Canadian and Australian legislatures at their next session, as intended. Fears are expressed lest a private cable line from San Francisco via Honolulu and New Caledonia should get first into the field. Secretary Chamberlain has also informed the Governor-General of Canada that he must await the views of Hon. Mr. Laurier before granting to the Allan line the contract for the last steamship service between Canada and England, which the Canadians hope will, with the aid of British and Canadian subsidies of \$235,000, make the St. Lawrence instead of New York the British mail and passenger route to Chicago, the Western States, and possibly also the Eastern States. NEWS OF THE DOMINION. (Special to the Colonist.) ST. THOMAS, July 16.—James Shain, of North Dorchester, has been killed by being struck by a G.P.R. train. TORONTO, July 16.—It is reported that Col. Englede, of England, representing a wealthy syndicate, has about completed negotiations for the purchase of the Eagle's Nest gold mine on Kokoogaming lake. TORONTO, July 16.—Superior J. Joachim Murray, of the Loreto convent, Bond street, died yesterday, aged 67. MONTREAL, July 16.—Local yachtmen are more than proud of the victory achieved by G. H. Duggan and his half-rater Glencairn, and a big reception will be tendered to Glencairn as he arrives with the international championship cup. ST. CATHERINES, July 16.—Rev. C. H. Shutt, of St. Catharines, is suing certain members of his church for \$20,000 for defamation, the outcome of a recent church scandal in which he was charged with tampering with letters belonging to his parishioners. KINGSTON, July 16.—The Ibbits cadets of Troy, N.Y., under command of Captain Lloyd, arrived here to-day. Col. Vidal, acting adjutant-general, gave the cadets permission to visit Fort Frontenac, the barracks and the Royal Military school. The cadets are a fine looking set of men, well drilled, and present a smart military appearance. SARNIA, July 16.—Mrs. Wm. Stillington, an old and respected resident of Sarnia, who has been totally blind for over twelve years, was engaged in stirring some potatoes before boiling on the cooking stove when her clothing caught fire, and before assistance reached her she was burned so badly that she only lived a few hours. HAMILTON, July 16.—Frank Wilson, of Buffalo, came to the city last night to get his five year old daughter from his wife, who is known to the police as Verdia Russell, the keeper of a questionable house. He demanded his child, but the mother said it was being well cared for and declined to say where it was. Wilson consulted the police and his daughter was located in a house on McNaught street. He returned the child and bore her off, and returned to Buffalo with her to-day. The mother threatens to take steps to regain possession of the child. TORONTO, July 16.—A very sad drowning accident occurred at the River Don to-day. Arthur and Herbert Moody, the ten-year-old twin sons of Geo. C. Moody, were playing on the steep bank when one of them slipped and fell into the water. The other at once jumped to the rescue, but was grasped around the waist, and both sank and were drowned. HAMILTON, July 16.—At a meeting of the Irish societies to-night the following delegates were appointed to attend the national convention to be held in Dublin in September: Bishop Dowling, Rev. Dr. Burns, Rev. Father O'Reilly, Dr. Balfour, James Shea, James O'Brien and John Ronan.
