Rich and Poor,

Prince and Peasant, the Millionaire and

Day Laborer, by their common use of this remedy, attest the world-wide rep-

utation of Ayer's Pills. Leading physicians recommend these pills for Stomach and Liver Troubles, Costive-

ness, Biliousness, and Sick Headache also, for Rheumatism, Jaundice, and

Neuralgia. They are sugar-coated; contain no calomel; are prompt, but mild,

in operation; and, therefore, the very best medicine for Family Use, as well as

"I have derived great relief from Ayer's Pills. Five years ago I was taken so ill with

Rheumatism

that I was unable to do any work. I took three boxes of Ayer's Pills and was entirely cured. Since that time I am never without a box of these pills." Peter Christensen, Sherwood, Wis.

"Two boxes of Ayer's Pills cured me

Headache,

from which I was long a sufferer. — Emma Keyes, Hubbardston, Mass.

"Whenever I am troubled with constipation, or suffer from loss of appetite, Ayer's Pills set me right again."—A. J. Kiser, Jr., Rock House, Va.

"Ayer's Pills are in general demand among our customers. Our sales of them exceed those of all other pills combined. We have never known them fail to give entire satisfaction."—Wright & Hannelly, San Diego, Texas.

its corporeal form also. Drying off Cows.

In drying cows in the fall or early winter, when the milk is rich and thick and the cows, perhaps, a little feverish from change of feed or exposure to change of weather, there is more need of watchfulness than at some other season of the year when or catarrhal inflammation would not debar one from a moderate use of this sorbed away. On no account should of plants are continually being made.
One of the latest is that celery is a cure for rheumatism; indeed it is asmilk at each milking. This is the most effective way to diminish secretion. By this means the oldest milk in the bag will be drawn out and the tuents are concerned, beef is three times as valuable as bread, and cheese to the formation of more. This present to the formation of more. This practice will dry a cow of her milk at any time, though the flow may be very large. Should the bag show any indication of fever by its increased warmth, the exhaustion of milk should be nearer complete, or perhaps all of it had better be milked out for a while till the fever is abated and the bag be-comes soft and limp. Cows which are not in good health are more liable ter very much as a man's does. Vice to give trouble in drying them than is shown in the mouth and eyes; inwhen they are well and vigorous. telligence is shown in the eyes and the breadth between the ears and becarefully looked after. Some dairytween the eyes; spirit in the eyes and men are in the babit of reducing the in the nose, in the mobile nostril, and feed when they wish to stop the milk. in the active ears. The size of the If the animals were in high flesh and eye, the thinness of skin, making the highly feed this might do, but it is face bony, the large open, thin edged seldom advisable. Cows that have nostril, the fine eur, and the thin, fine been milked a whole season usually mane and fore-tep, are indications of become thin, and need an increase infine breeding, and accompany a high stead of a decrease of feed in the fall. It is much better to let the milking insures a considerable degree of speed than to pinch a cow. Excitement, in the animal. The stupid, lazy horse worrying by dogs, the barrying by that drivers call a "lunk-head," has a noisy boys, kicking and pounding above described. The writer makes dull eye usually, a narrow forehead, of an angry milker, or any similar

BEANS.

Among the various matters of special interest to the farmer disclosed during the past year, says an American paper, has been the heavy importation of beans from Europe. It can Vegetable Discovery and Dyspeptic of the animal be contemplates purin fifty has ever given the subject a thought, but why is not very clear. There are no secrets about the cultivation of beans, nor is there any need for skilled or expensive labor in connection with their cultivation, gathering and assorting, and it is singular that Canada and Europe can ship profitably and pay a duty of ten cents per bushel on them in addition to
