found the school houses in a very satconnection with many buildings are not at all satisfactory or properly cared for. Many are very objectionable simply through carelessness of the teacher. As these outbuildings are quite as much under the teacher's charge as any of the other school property, they should see that they are properly kept. A box of dry dirt or sand or ashes kept handy and a little thrown daily into the vault would greatly improve these from a sanitary standpoint.

I trust that a word to the wise may be sufficient and that in the near future we may find these outbuildings future we may find these outbuildings ectable and clean as those

This loathsome disease is caused by germs that invade the air passages of the head, throat and lungs, and can be cured only by inhalation of medicated air. Stomach medicines, atoicated air. Stomach medicines, atomizers, snuffs are ineffectual, because they fail to reach the cause of the trouble. Catarrhozone is successful because it is inhaled to every part of the breathing organs, and has power to kill the germ, heals the inflamed tissues and prevents droppings in the throat. Catarrhozone treats more than one thousand square feet of the mucous surface with every breath taken through the inhaler, and affords instant relief. It perfectly cures Catarrh. ALL CASES OF DEAFNESS OR HARD HEARING ARE NOW CURABLE

Gentlemen:— Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion.

About five years ago my right ear began to sing, and this kept on getting worse, until I lost my hearing in this ear entirely.

I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent car specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever. I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noise ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain Very truly yours,

MUSIC HAD IT'S CHARMS. The solemn exercises at the funeral of Mr. Black, a wealthy Brooklynite, recently were marred by a most untoward occurrence, says the New York Tribune. He was a man of fads, but the one consuming fad of his existence was for musical instruments—not the ordinary piano and organ but mechanical devices whereby harmonies were sounded by unseen forces. For instance, as one entered the house some secret connection with the door

to the reception room. Clocks of every sort sounded fitting music to the passing hours; in short, every piece of furniture in the house seemed to be connected with a hidden or-chestra.

Mr. Black's death was untimely; a hand organ with a new and wonder-

scure corner. Silently the late comer tiptoed to the chair and quietly sank into its depths.

Instantly there pealed forth a loud chord, and then, without interruption there came forth the loud strident notes of "There'll Be a Hot Time in the Old Town Tonight." All efforts to silence the music were futile Is. Collections solicited.

A MIXED SENTRY.

A negro recruit and the officer of he day figured in the following little story from the Philippines, home by a Kentucky voluntee A negro recruit on outpost duty, who had been filled with stories of the who had been filled with stories of the Fillpinos' torture of captured American soldiers, had let his mind run on them until his terror caused him to get his orders for the day into a pretty bad mess. At midnight the officer of the day went the rounds. When he struck the 'rocky' he was challenged by a scared negro: 'Halt, dah; who's dat?'

The answer was: 'Officer of the day.' 'Halt, dah; who's dat?'

The answer was: 'Officer of the day.'
Again the sentry sung out: 'Halt,
