## LIGHTNING DELAYS BLOSSOMING IN APPLE TREE.

Ye editor's usual Monday morning "blues" did not materialize this week. It was developing well along to maturity, however, but was promptly nipped in the bud, so to speak, when into our sanctum walked Mike Bent, fairly staggering under the weight of a huge bouquet which, when he laid it down, completely covered our massive desk. The floral offering was nothing less than an armful of beautiful pink and white apple blossoms, such as are common enough around the latter part of May or the beginning of June, but rarely seen in September. The mystery was explained when Mike imparted the information that one of his promising young apple trees had been struck by lightning early in the spring. The tree, in consequence, had produced no fruit this season, but during the last few days, as though to atone for its delinquency had blossomed forth into a profusion of exquisite bloom.—Berwick Register.

## GATE RECEIPTS OF CAMP MEETING LARGEST IN HISTORY.

The Executive Committee of the Berwick Camp Meeting Association was in session here last Thursday. Those present from outside the town were Rev. A. B. Higgins, Hantsport; President; Rev. B. J. Porter, Truro, first Vice-Pres.; W. K. Sterling, Hantsport, second Vice-Pres.; and Rev. W. Harry Rackham, Lawrenceton, Secretary-Treasurer. The local members were B. H. Lee, third Vice-Pres.; R. S. Spicer and Rev. A. R. Reynolds, Supt. of Public Worship.

The Secretary-Treasurer reported the financial results of the Camp Meeting of this year as being most satisfactory. The gate receipts were the largest in the history of the association. The condition of the property was given careful consideration and provision made for necessary improvements. Plans were also made for the Camp Meeting of August, 1925.—Berwick Register.

# New Telephone Directory

A new issue of the Telephone Directory for the Western District is in course of preparation and lists will be closed on October 10th.

The Directory serves our subscribers in "The Valley" (including Brooklyn, Clarksville, Hantsport and Windsor in Hants County) and in Digby, Lunenburg, Shelburne, Queens and Yarmouth Counties.

Persons who wish to become Telephone Subscribers at this time and Telephone Subscribers who want changes made in their listings are urged to send in their Orders to their Exchange Managers at once, and at all events not later than October 10th.

We cannot undertake to give effect in the new issue to Orders received after that date.

Advertisers who wish to avail themselves of the opportunities for effective, yet low priced, publicity, afforded by use of space in the new issue are requested to call our nearest Business Office and a representative will be sent to attend to their wants.

Maritime Telegraph & Telephone Co., Ltd.

# Master Cut and Plug Mason Smoking Tobacco

Very mild and free from Nicotine  
The best Burley Tobacco made in Canada.

## LITTLE ESKIMOS GOBBLE CLAMS FROM WALES' STOMACH EAGERLY AS WHITES CALL FOR ICE CREAM

Among the Polar Eskimos there is an entire absence of those ferocious crimes which often bring the southern natives into collision with the Canadian law and the Northwest Mounted Police, according to Dr. MacMillan.

Owing to the normal surplus of men in the tribes, the women are frequently 'swapped' as wives and in some cases two men enter into a partnership to support one wife. But strange to say, this condition seems to cause very little trouble. MacMillan says he has known of but one case where death resulted and this was a young man who tried to make himself the Don Juan of a whole tribe. The men shot him and turned him adrift in his kayak.

He attributes the ferocious crimes of the southern Eskimo to their contact with civilization, and the peacefulness of the Polar tribe to their remoteness from white men. About the only modern vice the Polar people have is a fondness for tobacco. They also like coffee which was introduced by the Danes.

They possess firearms, but of the oldest breech-loading type.

Before coming home, the explorers presented their Eskimo guides and drivers with flour, biscuit coffee and other supplies, including tents, and also gave each man a modern Mauser rifle and 1,000 rounds of ammunition apiece.

Dr. MacMillan is chock full of amusing anecdotes about the Eskimos. For instance, although they roam, they roam only within certain limits and to certain settlements of their people. For hears, they go to Cape York; for deer and walrus to Etah; for ducks eggs to Littleton Island; and various other Polar delicacies are obtained at other points.

One of the strangest sights, however, is to see them surprise and kill a walrus which has been digging clams. The mouth of the animal is so built that he shells the clams just as we do peanuts, spitting out the shells and swallowing the clams.

When the natives think he is full, they kill him, take out the stomach, split it open and then sit round a circle dipping out the fresh clams from the stomach to the children, who eat them as greedily as little whites gobble up ice cream.

Dr. MacMillan says his party obtained some clams in this way and they made an excellent chowder.

## EVERY INDUSTRY IS PROSPERING

Brilliant Economic Revival Which Began in France in 1922 Continues.

London.—Striking details of the brilliant economic revival in France, which began in 1922, are given in an official report by Mr. J. R. Cahill, commercial counsellor to the British Embassy in Paris, which is issued by the Department of Overseas Trade.

"The entire population of France continues in full employment," says Mr. Cahill, "and her production has been consistently retarded by the death of Labor."

"Reconstruction of the devastated areas, for the purpose of industrial output, may be said to be terminated. The damaged or destroyed mines, which yielded 1,500 tons in January 1919, yielded last May more than 1,260,000 tons, and the total output of the area will soon exceed the pre-war figure."

The same tale of prosperity is told of nearly every other industry—woolens, cotton, jute, metallurgical, engineering, ore mining, potash, chemicals, silk, lace, motor-cars, dye, etc.

## WHERE WORLD PRICES DO NOT COUNT.

Bread made from wheat grown with in seven miles of Dawson is on sale at all restaurants in Dawson, Y. T. Dawson, at 65 degrees latitude is thus the most northerly wheat producing point in the Empire. Last season's yield at the Government Experimental Farm at Swede Creek was 20 bushels to the acre, and the wheat commands a ready sale at \$10 per 100 pounds.

## FOR JOY OF GOOD HEALTH

Manitoba Woman Thanks Lydia E. Pinkham's Vegetable Compound

Crandall, Manitoba.—"When I was a young girl at home and working I had terrible pains, almost more than I could bear, and I was not regular. These troubles kept me so tired all the time that I had no strength and no ambition to join in with my friends and have a good time. I was just tired and miserable always and life just seemed as if it was not worth living. I saw so much in the papers about Lydia E. Pinkham's Vegetable Compound, and then I had a friend who had taken it and told me about it, so I got some. Every month after taking it I got stronger and I soon did not suffer every month. It stopped the pains and helped me in other ways. Then when my babies were coming I was tired and worn out the first three months and ached badly. I took the Vegetable Compound and right away it made a new woman of me and able to do my work, and it helped me through confinement. You see I am a farmer's wife with a big house to look after, and three babies now. I have told ever so many women about your medicine. Just last week I got a letter from my old chum in the East. Her baby was born fifteen days before mine and she told me she was not feeling very well, her back aches so much, and that she is going to take the same medicine I took. You can use my letter and I hope some one will be helped by it."—Mrs. Jos. H. Kidd, Box 56, Crandall, Manitoba. C

## LAW SUIT POSSIBILITIES.

(From Canadian Forest and Outdoors Magazine.)

Recently a firm of lumber manufacturers in British Columbia was mulcted to the extent of several hundred thousand dollars for damages caused by a forest fire which, starting outside their boundaries, passed across their limits and destroyed a soldiers' settlement. The defence claimed they were not responsible as the fire originated off their property and every effort to block it proved unavailing. The court held otherwise.

Now comes a news despatch from Duncan, B. C., intimating that settlers plan to take action claiming damages for forest fires originating in the burning of logging debris.

This introduces a new problem, which, however, contains possibilities not altogether favorable to the settler, camper, cottage owner, or other small property holder. Only a few weeks ago a California court delivered a judgment, imposing the entire costs of fire fighting, amounting to \$2,500, on a pair of amateur fishermen whose negligence had caused a difficult conflagration. If the assessing of costs on lumber companies is adjudded good law and in the public interest, the logical development surely is to apply the same medicine in liberal doses to those who, by their settlers, campers, fishermen, or other property of the industrial corporations. It is to be feared that the total damages listed against the settler, for example, will far outmatch in any season the billet d'oux handed to the lumberman. A few seasons ago a settler, clearing land by fire in order to grow five dollars worth of potatoes, let loose destructive forces that swept away a half million dollars worth of white and red pine. Three years ago in New Brunswick, fishermen accounted for almost half the timber loss. What about damage suits in these instances? What about a joint suit of provincial government and limit holders against, say, two hundred fishing parties to recover three million dollars worth of ruined resources?

## TIDAL FORCE FOR POWER.

The possibility of using the tidal force of the Bay of Fundy for the generation of electric power has long been mooted, although it has hardly reached the experimental stage as yet. But in the Old Country, owing to the increasing cost of coal and lack of big rivers and mountains to furnish water-power, the Government is considering the possibility of utilizing tidal power as a means of generating electricity. The harnessing of the Severn, proposed by Sir Eric Geddes, is being investigated as to its practicability under Philip Snowden, the Chancellor of the Exchequer.

The Severn is the greatest tidal estuary in Great Britain. A barrage below Bristol, only 115 miles from London, would develop 500,000 horsepower, create a lock basin of twenty-seven square miles for shipping, save a fifty mile detour for a heavy road traffic and permit the laying of valuable railroad trackage.

The Snowden committee will report only upon the geological formations which underlie the dam site. The cost of the project, even before the war, was guessed at as \$150,000,000. The Severn project is in vastness second only to the proposed power and ship development of the St. Lawrence River by Canada and the United States. The creation of a great hydro-electric development probably would encompass an industrial revolution in the British Isles.—Morning Chronicle

AGED TOWN CLERK OF WINDSOR DEAD.  
Windsor—The death occurred at his residence here Tuesday of James C. Geldert, town clerk of Windsor for the last 33 years. Mr. Geldert tendered his resignation to the town council recently, to take effect on October 1st. He was taken ill last week. Mr. Geldert who was about 78 years of age, is survived by his wife and one daughter Mrs. Wilson, residing at home.

Minard's Liniment for Aches and Pains.

## CANADIAN GOVT FINANCING.

Ninety Million Treasury Gold Notes Sold to New York Firm.

Ottawa—The Canadian Government is announced, has sold to the Chase Securities Corporation and Bayer and Company, of New York City, \$90,000,000 one year four per cent. treasury gold notes due September 15th, 1925, the proceeds of which are to be used in connection with the retirement of maturing treasury bills exceeding the amount of the new issue.

The treasury bills were, it is understood, taken over at par. They form part of the \$200,000,000, approximately, of obligations coming due this year. These consist of Victory Bonds, amounting to \$107,000,000, which fall due on November 1st, and \$93,000,000 of treasury bills.

The balance between the ninety million dollars sold today and the ninety one million dollars of treasury bills maturing will be met out of cash.

A domestic loan will, it is expected, be floated to meet the maturing \$100,000,000 victory loan. Final decision in this regard has, however, not been reached.

The maturing treasury bills bore interest at the rate of 5 1/2 per cent. In today's sale, therefore, the Dominion Government will gain in interest rate to the extent of one and one quarter per cent. Maturing bonds bear an interest rate of 5 1/2 per cent.

"NORTHLAND" CARRIED 25,000 PASSENGERS.

Yarmouth.—With the departure Wednesday the steamer "Northland" which had been on the Boston-Yarmouth route for the summer months took her last trip for the season. She will be replaced on Thursday by the Prince Arthur, under Captain A. L. McKinnon. The North Land has made a marked success of the season's traffic and has been popular with all the traveling public. Nearly 25,000 passengers have been carried by her since she came on for the summer season. She also had extensive space for carrying automobiles which has been a further inducement for tourist trade as heretofore difficulty has been experienced in obtaining accommodation for cars.

## FARM HELP

The Nova Scotia Employment Service operated under the Provincial Department of Industries and Immigration, is endeavouring to aid the Fruit Growers in the Annapolis Valley this fall in obtaining sufficient help in handling the fruit crop.

With this end in view, and also of assisting farmers generally who require additional help at this time of year, the Service is listing men and women unemployed in the larger centres who are suitable for this work.

Farmers needing help would do well to make their requirements known early. Fill in the coupon below and mail to the Superintendent, Employment Service of Canada, P.O. Box 1171, Halifax, N. S.

This service is entirely without charge to employer and worker. Every effort will be made to meet the requirements in accordance with details.

## BENEFITS FROM TANLAC LASTING, HE ASSERTS

Ontario Man Says It Put Him in Such Fine Condition 2 Years Ago, He Hasn't Needed Any Medicine Since.

"Well, sir, it looked like I was going to have to give up my job, but Tanlac kept me on the payroll and, of course, I'm strong for it," is the striking statement of Wm. Cranker, 84 Louis St., Brockville, Ont., who for 30 years past has been employed by the Canadian National railroad.

"My stomach went wrong 10 years ago and then I gradually got out of fix in lots of ways. I couldn't eat or sleep to do any good for nervousness and indigestion and had got to where I simply had to drag myself to the railroad yards in the mornings.

"I could feel the good effects of my very first few doses of Tanlac clean to my finger-tips. This was two years ago and three bottles put me in such good shape that I have not had to spend a cent for medicine since. I eat and sleep fine, never miss a day's work any more and feel fine. You just can't beat Tanlac."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 Million bottles sold.

Tanlac Vegetable Pills, for constipation made and recommended by the manufacturers of TANLAC.

Mr. and Mrs. Grant Messenger spent the week-end at Falkland Ridge. Miss Jean MacDougall returned from Glace Bay on Monday last. She was accompanied by her brother Andrew, who will remain here for a few weeks.

Miss Carrie Johnston was a visitor for a few days last week at the home of Mr. and Mrs. Fred Johnston.

Mr. James White who has been employed at Centreville, Kings Co., for the past few weeks, spent Sunday with his family here.

Mrs. J. W. Sprout and young daughter, Marguerite, leave for Boston this week for a visit with relatives.

Mr. Wm. Creelman had the misfortune to lose his horse last week. Miss Hogan attended the Teacher's Institute held at Bridgetown, Monday, Sept. 15th.

The Paradise W. M. A. S. met with the Society at Clarence on Tuesday afternoon last. The meeting was held at the church and a large number of ladies were present. The visiting society furnished a very interesting program, consisting of readings, recitations and music, also a report of the Convention held at St. John, given by our pastors wife. At the close of the session tea was served in the vestry. A public meeting was held in the evening at which Mrs. R. E. Gullison was the speaker. She gave a fine address, telling of her work in India. Collection amounted to \$20.00.

The death of Doris Marshall, eldest daughter of Mr. and Mrs. S. B. Marshall took place at her home on Sunday morning, Sept. 14th. She had only been seriously ill a few days, although having been in poor health for some time. Her sudden death came as a great shock to her family and friends. Funeral will be held on Tuesday at 2:30 p.m. from her late home. Much sympathy is extended to the bereaved ones. An obituary will appear in another issue.
