WEBSTER'S UNABRIDGED ANCIENT EDITION.

A so-called "Webster's Unabridged Dictionary" is being offered to the public at a very low price. The body of the book, from A to Z, is a cheap reprint, page for page, of the edition of 1847, which was in its day, a valuable book, but in the progress of language for over FORTY YEARS, has been completely superseded. It is now reproduced, broken type, errors and all, by photo-lithograph process, is printed on cheap paper and flimsily bound. A brief comparison, page by page, between the reprint and the latest and enlarged edition, will show the great superiority of the latter. These reprints are as out of date as a last year's almanac. No honorable dealer will allow the buyer of such to suppose that he is getting the Webster which to-day is accepted as the Standard and THE BEST,—every copy of which bears our imprint as given below.

If persons who have been induced to purchase the "Ancient Edition" by any misrepresentations will advise us of the facts, we will undertake to see that the seller is punished as he deserves.

OUR BOOK TABLE.

REPORTS.

Annual Report of the State Board of Horticulture of the State of California for 1889, with the compliments of B. M. Lelong. Secretary State Board of Horticulture.

A most admirable report, being a full treatise on propagation, varieties, grafting and budding of the olive; fig culture and propagation; Walnut budding and grafting; Orange packing; classification of lemons; Injurious insects, etc., and the whole freely illustrated.

Fifteenth Annual Report of the Ontario Agricultural College and Experimental Farm, 1889. Jas. Mills, President.

First Annual Report of the British Columbia Fruit Growers' Association, 1890. Secretary, A. H. B. McGowan, Vancouver, B.C.

From this report it is evident that our friends in British Columbia are fully awake to the importance of the fruit industry, and have formed a vigorous organization. In its formation they attribute much to the inspiring visit of Mr. A. McD. Allan, our ex-president, who addressed them on the possibilities of fruit culture, and the importance of this industry in Ontario. It is on the basis of the Ontario Association that this new society has been formed, and it is pleasing to note, that while they hope soon to have a journal of their own, they have so high an appreciation of our CANADIAN HORTICULTURIST that the whole membership have en masse united with our Association for the purpose of securing it.
