

We made our first Piano in 1876.

We made it in small quarters and with primitive tools, but we worked on for *Quality*.

That purpose, that motive, is repeated every day in the making of the Mason & Risch Piano of 1914, for the spirit of quality still prevails, and as earnestly as it did in the old-time shop.

The Mason & Risch Piano of 1914 stands solid as a rock in the esteem of the musical world.
