

Schumacher Feed

EVER TRY IT ?

If not you are passing by one of the greatest opportunities of using the highest grade economical feed on the market anywhere. The results obtained from using this feed are simply marvelous. For the Dairy Herd, it increases the flow and improves the quality of the milk. It also has a very beneficial effect on the herd itself. It keeps them in good condition and at a very small outlay to yourself.

This feed is also being used equally as successfully feeding horses and hogs. This is the season for young pigs and you cannot secure a better or more satisfactory feed at nearly as low a figure. After a trial we know you will be a continual user of SCHUMACHER Feed.

It is composed of the best feeding parts of Corn, Oats and Barley, White Middlings, Cotton-seed Meal and Feed Flour.

If your dealer does not handle it we will be pleased to hear from you direct.

Corn, Oats and Barley

Replenishing the Soil

In the ordinary process of cropping, the soil becomes depleted of certain essential Plant Foods, and unless means are taken to restore these, the soil will become wholly unproductive.

Fortunately the progressive farmer is now turning his attention to the use of fertilizers which will build up and maintain the fertility of the soil.

During recent years, a number of educative, illustrated Bulletins on the use of fertilizers in Canada have been prepared by agricultural experts in Canada. Amongst these are:—

"Artificial Fertilizers; Their Nature and Use."

"The Potato Crop in Canada."

"Fertilizing Fodder Crops."

"Farmer's Companion," etc., etc.

FREE copies of these, as well as special expert advice, may be obtained from
