

- April 7. Kildeer Plover—well distributed in pairs throughout their accustomed haunts.
 Red-shouldered Hawk—commonly seen and heard.
 Sharp-shinned Hawk—one seen in erratic flight.
 Crow—flocks disbanded, commencing nesting operations.
 Red-winged Blackbird—commonly noted.
 Cowbird—two seen following flock of Grackles, four others noted later.
 Meadowlark—common, about 15 seen and heard.
 Prairie Horned Lark—commonly in song, five nests noted.
 Phoebe Flycatcher—well distributed in pairs, about ten noted.
 Snowbird—one mixed flock of Lapland Longspurs and Snowbirds watched for ten minutes in a continuous and almost circular flight, at length alighting in a ploughed field, the occasional tremulo of the Snowbird contrasting with the single note of the Longspur.
 Lapland Longspur—seen with Snowbirds.
 Redpoll—many large flocks noted.
 Song Sparrow—abundant, singing constantly during sunshine and rain.
 Savanna Sparrow—one in song, about 20 noted in small flocks.
 Vesper Sparrow—commonly noted, several singing from tops of hedge-row trees.
 Tree Sparrow—two heard singing, apparently the bulk has not yet arrived.
 Slate Colored Junco—common, numbers singing.
 Migrant Shrike—one seen in flight.
 White-bellied Swallow—two seen in flight about a boggy willow swamp, marked by a few dead ash stubs, probably their selected nesting-site.
 House Wren—one pair noted in woodpile near farmhouse.
 Robin—fairly common, a few in song.
 Bluebird—numerous.
