

## FAIRBANKS VALVES

Will appeal to the discerning buyer. They are widely known and popular among all Engineers and deservedly so. In design they are simple, in construction and composition only the finest workmanship and best grade bronze have been used. They are heavily built and well proportioned, being fully capable of standing rough treatment and any pressure up to that specified for each valve.

Limited, Halifax, N. S.

## Bearings in Line.

In sizes up to 135 horse power, the outboard bearing of our side crank engines is connected to the frame by a wing, keeping the bearings perfectly in line.

These engines are built on the interchangeable system and duplicate parts are kept in stock, ready for shipment on receipt of order.

They have our latest improved governor and oiling system and are strictly high class in every respect.
