**BEDRIDDEN AND CURED.**

W. E. HUESTIS, of Emporia, Kansas, says that his wife had been sick nearly seven years, and for the last four months bed-ridden. She has been treated by a number of physicians, and only grew worse. Her attention was called to Dr. Pierce's "Golden Medical Discovery" and "Favorite Prescription," which she commenced using. In one week she could sit up, and in three weeks could walk about. By druggists.

The reasons why the surgeons of the International Throat and Lung Institute, 173 Church street, Toronto, are making so many wonderful cures of catarrh, catarrhal deafness, bronchitis, asthma and consumption are: They have none but skilled and qualified medical men connected with the institute. They adhere strictly to their specialty, and they use the spirometer invented by M. Souvielle, ex-aide surgeon of the French army, an instrument which conveys the medicines in the form of cold inhalations to the parts diseased, which is the only way these diseases can be cured. They are treating hundreds of patients every month, having twelve surgeons engaged in their work in Canada alone. Send a three cent stamp for a copy of their International News, published monthly at 173 Church street, Toronto.
