OILS, PAINTS AND GLASS.—Business in these lines may be called pretty active, and most houses are well employed shipping out goods. As regards prices, there is little change in any department. Dry lead is cabled ten shillings advanced in England, but prices of ground white are unaltered locally. Castor oil, though firmer in the east, is selling at former quotations, there being considerable in stock here. We quote:—Turpentine, 45 to 46 c. per gal. for single barrels; two to four barrels, 44 to 45 c. Linseed oil, raw, 54 c. per gal.; boiled, 57 c.; 5-barrel lots, 1 c. less; olive oil, machinery, 90 c.; castor, in lots, 6 1/2 c.; single cases, 6 1/2 to 6 3/4 c.; tins, 7 c.; Nfld. cod, 38 to 40 c. per gal.; Gaspe oil, 38 c. per gal.; steam refined seal, 39 to 40 c., in small lots. Leads (chemically pure and first-class brands only), \$4.50 to 5.00; No. 1, \$4.50; No. 2, \$4.25; No. 3, \$4.00; dry white lead, 5 c.; genuine red do., 4 1/2 c.; No. 1 red lead, 4 c.; putty, 2 c. in bladders per brl.; London washed whiting, 40 to 45 c.; Paris white, 90 c.; Venetian red, \$1.50 to 1.75; yellow ochre, \$1.50 to 1.75; spruce ochre, \$2.25 to 2.50; window glass, \$1.20 per 50 feet for first break; \$1.30 for second break; third break, \$2.80.

TORONTO MARKETS.

TORONTO, Sept. 13th, 1894.
DRUGS.—Numerous small orders make up a fairly large total, and the business of the last few weeks is generally considered satisfactory. The *N. Y. Journal and Bulletin of Commerce* says: Opium continues to weaken. Quinine shows a slightly easier tendency from second hands. Clove oil is slightly higher. Shellac is strong and advancing. Reports received from Aden state that owing to the prevailing low prices the crop of gum is not being gathered this season.

DRY GOODS.—The city warehouses are filled with country merchants, and even a larger

number of visitors are in the city than were here during the millinery opening. Some orders have been placed, but as a rule the parcels taken are small, and buyers are pursuing a very cautious policy. Dress goods, of course, attract most interest. Serges in blacks, navies and browns are leaders. Covert cloths are finding favor, while German plaids and fancy weaves are being sold.

GRAIN.—The market is dull and unchanged. The movement of wheat is mainly to millers. A quantity of wheat is, however, going into consumption for feeding purposes. Wheat is cheaper than peas, and in the United States is on much the same basis of values as corn.
