NOTES.

- (a) Well played. (b) Will win a pawn and get a winning position.

A match by telegraph was played between the Toronto and Quebec Chess Clubs on Thursday the 22nd inst., and continued on Saturday the 24th. Six games were played, six players on each side taking part in the contest; three of the games were finished, each side winning one, the other game was drawn. The remaining games are to be finished on the 28th inst. Toronto has the best position in each game, and should easily win two of them. The Toronto Chess Club is greatly indebted to Mr. Dwight, of the G. N. W. Telegraph Company, for the free use of the wires, this being only one of the many favours received from this gentleman.

MILK heated to much above one hundred degrees Fahrenheit loses for a time a degree of its sweetness and density. No one who, fatigued by over-exertion of body or mind, has ever experienced the reviving influence of a tumbler of this beverage, heated as hot as it can be sipped, will willingly forego a resort to it because of its being rendered somewhat less acceptable to the palate. The promptness with which its cordial influence is felt is indeed surprising. Some portion of it seems to be digested and appropriated almost immediately, and many who now fancy they need alcoholic stimulants when exhausted by fatigue, will find in this simple draught an equivalent that will be abundantly satisfying and far more enduring in its effects. "There is many an ignorant, overworked woman who fancies she could not keep up without her beer; she mistakes its momentary exhilaration for strength, and applies the whip instead of nourishment to her poor, exhausted frame. Any honest, intelligent physician will tell her that there is more real strength and nourishment in a slice of bread than in a quart of beer; but if she loves stimulants it would be a very useless piece of information. It is claimed that some of the lady clerks in our own city, and those, too, who are employed in respectable business houses, are in the habit of ordering ale or beer at the restaurants. They probably claim that they are 'tired,' and no one who sees their faithful devotion to customers all day will doubt their assertions. But they should not mistake beer for a blessing or a stimulus for strength. A careful examination of statistics will prove that men and women who do not drink can endure more hardship and do more work and live longer than those less temperate." - New York Medical Record.
