

Headache

Horsford's Acid Phosphate

This preparation by its action in promoting digestion, and as a nerve food, tends to prevent and alleviate the headache arising from a disordered stomach, or that of a nervous origin.

Dr. F. A. Roberts, Waterville, Me., says: "Have found it of great benefit in nervous headache, nervous dyspepsia and neuralgia; and think it is giving great satisfaction when it is thoroughly tried."

To the April Review of Reviews Albert Shaw contributes a sketch of "Murat Halstead, Journalist," which all newspaper men will appreciate and enjoy. While no longer in harness in the same full sense as his brother editors, Dana, Medill, and Watterson, Mr. Halstead is still active in the preparation of copy and in the latest forms of journalistic enterprise as is shown by his article on "Cuba" in this number of the Review. There is an interesting account of the industrial relief work now being done among the Armenians of Van under the supervision of Dr. Grace Kimball, an American medical missionary, who has profitably expended more than \$12,000 for this purpose, much of which has been contributed in the United States. Under the head of "English Response to the Appeal for International Arbitration," about thirty letters are published, from such representative Englishmen as Lord Rosebery, A. J. Balfour, Mr. Gladstone, James Bryce, Herbert Spencer, William Watson, George Meredith, Prof. Norman Lockyer, the Archbishop of Canterbury, the Bishop of Durham, Cardinal Vaughan, John E. Millais, G. F. Watts, Alma Tadema, Wilson Barrett, H. M. Stanley, and Henry Norman. These letters were read at the great Anglo-American demonstration held in London, on March 3rd, and gave expression to a remarkable unanimity of opinion on the desirability of arbitration as a means of settling international disputes.

Since the publication of the witty book for young people, entitled "Tommy Toddlers," the publishers have been somewhat beset with inquiries in regard to its authorship. Valued correspondents have taken for granted that it was the work of John Kendrick Bangs, and that "Albert Lee," on the title-page, was a pen-name; and the question has been asked: "What reason had Mr. Bangs for not claiming it?" It may therefore be stated, as a matter of interest to the many kind readers of the book in question, that Albert Lee is as certainly a real person as Master Toddlers and his adventures among the animals of a Noah's Ark are certainly imaginary.

READY NEW WORK

Sir J. Wm. Dawson, LL.D.

Eden Lost and Won.

Studies of the Early History and Final Destiny of Man, as taught in Nature and Revelation. By Sir J. Wm. Dawson, LL.D., F.R.S.C., etc., author of "The Meeting Place of Geology and History," "Modern Ideas of Evolution," etc. 12mo, cloth, \$1.50.

In this work President Dawson points out that the latest developments of archaeology, geology and other branches of the Science of the Earth and Man show conclusively the substantial accuracy of the early books of the Hebrew Scriptures. The work is in two sections. Part I. considers the physical and historical probabilities respecting the authorship and authority of the Mosaic books. Part II. treats of man and nature fallen and restored.
