

Botany

Governors

May 14th, 1923.

Dr. T.J.W. Burgess,
P. O. Box 2280,
Montreal.

My dear Dr. Burgess:-

Professor F. E. Lloyd has informed me that you have presented to the Department of Botany a very valuable collection of Canadian plants completely mounted and labelled, together with well-constructed cases, and with a number of books on taxonomic botany.

I shall have great pleasure in notifying the Board of Governors of this splendid gift and I know that they will accept it with gratitude.

Will you please accept my warm personal thanks for this evidence of your great interest in the University and in the Department of Botany.

With all good wishes, I am,

Yours faithfully,
