BUY MUNITIONS

Sir Thomas Shaughnessy Said to Accept Post Under Government.

LOYD GEORGE'S MAN
Attempt to Settle Difficulties Between Morgans and Manufacturers.

LONDON, June 17.—The Globe says that it understands that Sir Thomas Shaughnessy, president of the Canadian Pacific Railway Company, has consented, at the request of the imperial government, to take up a responsible position in connection with the purchase of munitions from Canada.

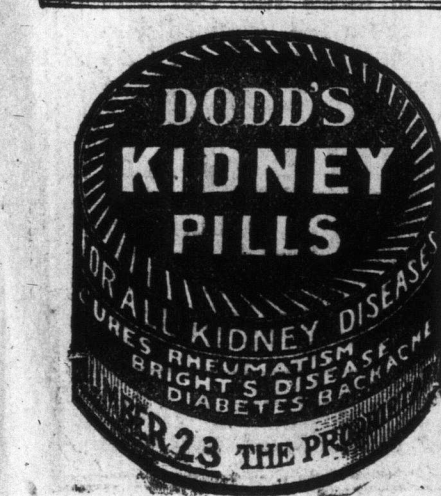

The Globe connects Sir Thomas Shaughnessy with David Lloyd George's announcement in the house of commons this afternoon, that he was sending a business man to the United States and Canada to deal with this question.

Question Re Morgans.
In the house of commons tonight, Ronald McNeill asked whether any Canadian firm able and willing to supply large quantities of munitions had refused to transact business thru a United States agency, and whether it was intended to adhere to the conditions recently presented by manufacturers of British nationality which hamper and limit the supply of munitions.

To Send Out Big Man.
Lloyd George, replying to this question, said: "This appears to refer to a proposal made by a Canadian manufacturer whose firm is supplying munitions under orders from the shell committee organized for the production of shells in the United States. He declined to negotiate with Morgan & Co., and, in view of the risk of interference with contracts already placed, the war office considered that it would be unwise to adopt this scheme, except with the co-operation of the Morgans. I see no reason for dissenting from that view. I may say that I am arranging to send a big business man to the United States to discuss the whole position of American and Canadian contracts."

Walter Runciman, president of the board of trade, stated in the commons in reference to the mission to Canada to find unemployed skilled workmen for war service here, that the mission was only beginning. Reports already received stated that it was likely to meet with considerable success. Workmen from Canada will come on an understanding that they will accept the rate of wages also paid to English workmen, including the customary war bonuses. Fares would be paid. No official steps had been taken to obtain workmen from other British dominions or the United States.

Asked whether, in view of the great number of skilled mechanics in the States it would not be advisable to try to induce some of them to come here to assist in making war material, Mr. Runciman replied that he was not sure that the U. S. authorities would welcome such a mission but he said

Not Offered Officially.
In an interview Sir Thomas Shaughnessy denied that he had been offered officially a position by the British War Office as a contractor for munitions.

"Such report," said Sir Thomas, "is premature. My business in London is merely to negotiate with the war office to see what assistance the Canadian Government can offer in the way of supplying food and other material for the equipment of the British army. In this connection the Canadian Pacific Railway could, of course, facilitate the provision for and the conveyance of food to the allied armies."

Today's Matinee.

This afternoon the usual afternoon matinee is to be given at 3.30 with a quarter admission to all parts of the house. The evening performance of last night, which was much larger in point of receipts than on the preceding evening, promises to be altogether eclipsed by this evening's attendance, as there has already been a heavy demand for reserved seats, and Friday night is known in Toronto as one of the regular times in the week for taking in events of this kind.

The pictures are also to be shown twice on Saturday, matinee and evening.

The playing of the Russian Juvenile Band at both performances yesterday won extraordinary tributes of applause from the crowds. In bringing this organization of young lads to such a height of musical efficiency M. Ignatz Glass has done what no other bandmaster has ever attempted in Canada, and his organization promises to make a name for itself throughout the Dominion.

chy and in the forest of La Folle, and dispersing contingents which were in process of being formed up.

Notable Deeds in Alsace.
In their advance towards the Rhine the French infantry also did notable work, capturing Altenhof, a suburb of Metzrail, then capturing Steinbruck, and continuing their advance on both banks of the Fecht River. Preparatory to leaving Metzrail the Germans commenced to fire to it. Five hundred Germans were taken prisoner, including ten officers and 28 non-commissioned officers. They also captured three bomb throwers, three machine guns, some field telephones and some chemical apparatus for the manufacturing of asphyxiating gas.

A French aeroplane brought down a German machine in Alsace. The two occupants were killed.

Villers-Cotterets was bombarded by a long-range German hospital and two shots and wounded one person today.
