COVENANT OF NATIONS
FOR SECURING OF PEACE

(Continued From Page 1).

five of each of the five great powers
and one each of four other powers as
selected from time to time by the
assembly.

"The number of powers of each
class represented on the council may
be increased by the unanimous con-
sent of the council and a majority of
the assembly. Other powers have the
right to sit as members of the coun-
cil during the decision of matters in
which they are especially interested.

One Vote for Each State
"In the council, as in the assembly,
each state will have only one vote.
Both these bodies are to meet at least
once a year, and at other times if
required; both can deal with any
matter that is of international interest
or that threatens the peace of the
world; the decision of both must be
unanimous, except in certain speci-
fied cases, matters of procedure for
instance, being decided by a majority
vote.

"The league will have a permanent
secretariat, under a secretary-general.
The secretariat and all other bodies
under the league may include women,
equally with men. A permanent coun-
cil of international justice and various
permanent commissions and bureaus
are also to be included.

Reduction of Armaments.
(3) "The member states agree to
(a) to reduce their armaments, plans
for such reduction being suggested by
the council, but only adopted with the
consent of the states themselves, and
thereafter not to increase them with-
out the concurrence of the council;
(b) to exchange full information of
their existing armaments and their naval
and military programs; (c) to respect
each other's territory and personal in-
dependence, and to refrain from using
force against foreign aggression; (d) to
submit all international disputes
either to arbitration or to inquiry by
the council, which, however, may
not pronounce an opinion on any
dispute whose subject matter falls
solely within a state's domestic juris-
diction; (e) in no case to go to war
until three months after an award, or an
unanimous recommendation has been
made, and even then not to go to war
with a state which accepts the award
or recommendation; (f) to regard a
state which has broken the covenant
as having committed an act of war
against the league, to break off all
economic and other relations with it
and to allow free passage thru their
territories to the troops of those
states which are contributing arms to
the league on behalf of the league;
The council is to recommend what amount
of force, if any, should be supplied by
the several governments concerned,
but the approval of the league is
necessary. (States not members of the
league will be invited to accept the
obligations of the league for the pur-
pose of particular disputes and if they
fail to comply with the league's re-
quests, to publish all Treaties.

(1) Not to consider any treaty bind-
ing till it has been communicated to
the league, which will then publish it
and admit the right of the league
assembly to advise the reconsidera-
tion of treaties and international com-
pacts which do not conform with the
present needs and to be bound by no
obligations inconsistent with the cov-
enant.

"A state which breaks its agree-
ments may be expelled from the league
by the council.

(4) "The covenant does not affect
the validity of international engage-
ments, such as armistices, or regional
agreements, or understandings like the
Monroe Doctrine, for securing the
maintenance of peace.

(5) "The former German colonies and
the territory of the Ottoman
Empire are to be administered in the
interests of civilization by states
which are willing to be mandatories
of the league, and will exercise a
general supervision.

(6) "The member states accept
certain responsibilities with regard to
labor conditions, the treatment of
the natives, the white slave traffic,
the arms traffic, the arms traffic with
uncivilized and semi-civilized coun-
tries, transit and trade condi-
tions, public health and other social
conditions, and the league is to be
the central body interested in co-
ordinating and assisting international
activities generally.

(8) "Amendments to the covenant
require the approval of all the states
on the council and a simple majority
of those in the assembly. States
which signify their dissent from
bound by them, but, in this case,
cease to be members of the league."

Soldiers Charged With
Stealing a Motor Car

ach, soldiers at Stanley Barracks,

alleged that the soldiers drove it from
in front of the west end of
St. C. M. A. and left it standing on
a side street in the west end of the
city.

Help Solve Problems of Accumula-
tion of Several Hundred Gallons.

Windsor, Ont., April 13.—Several
hundred gallons of contraband liquor
have accumulated here. The license
inspector is in a quandary what to do
with it. He cannot sell it because
it is away and storage room is

offered to assume responsibility of
the liquor, "even going so far as to
offer to store the liquor in their
cellars, but so far the inspector
has not accepted any of the offers.

London, April 1.—The ballot of the
Welsh miners concluded Saturday,
giving a majority of 123,127 in favor of
accepting the report of the commission
headed by Justice Sankey, which re-
commended a number of improve-
ments in the working conditions of
the miners. The vote was:
For acceptance, 142,556; against,

that the coal owners have agreed to
increase miners' wages 25 per cent.
The commonwealth government simul-

ment, points out that it would cost
New South Wales a hundred thousand

of New South Wales may result in the
most serious dislocation of the indus-
try that has ever occurred in Australia.

Ottawa, April 12.—Various griev-
ances have been dealt with by the
executive of the Dominion Postal
Clerks' Association, which has been
in consultation with the government
and officers of the postoffice depart-
ment during the week. The members
will leave Ottawa today. Mr. W. J.
Canswell, Ottawa, president of the
association, is leaving for Toronto,
where he will address the Toronto
branch. He expressed himself as well
pleased with the negotiations that
have taken place.

The chief cause for dissatisfaction,
so far as eastern clerks are concerned,
was the fact that the western clerks
were receiving \$130 more remuneration
than their eastern confederates.
The eastern clerks state that they
are prepared to go on strike to com-
pel the government to grant them the
outstanding \$130.
