THE EMPIRE A SOLID UNIT

Principal Patrick of Manitoba College Says the Boer War Brought About Unity.

TWO STUDENTS WELCOMED HOME

After Having Fought With the Strathcona Horse in the South African Campaign.

Winnipeg, April 11.—(Special.)—A hearty Manitoba welcome was extended to Messrs. Irwin and Heron, members of the Strathcona Horse, and students of Manitoba College, when they arrived from the east this morning. Principal Patrick, recently arrived from Scotland, in the course of an address, said: "I do not wish to say much in connection with the war in South Africa, but would only say that everyone must be constrained to admit that it has been of measureless benefit in welding together all the parts of the globe that go to the making up of the British Empire and making them one solid unit. Nothing could have taken place which would have done more to make them one. The nation was made before the colonies were made, but the Empire has been largely made thru this war. Unity now prevails in the whole Empire."

Dr. Patrick then congratulated the students on the manner in which they had conducted themselves.

A FOOLHARDY SWIM.

Young Englishman Took Big Chances Rather Than Be Bluffed on a Wager.

A swim across the Bow River is hardly to the liking of most people at this time of the year, observes The Calgary Albertan, yet this feat was accomplished on a recent Saturday morning by an intrepid Englishman. The affair was the outcome of a wager for $150, and the swimmer won by a good stroke.

About 6 o'clock a.m. Mr. Taylor, a recent arrival proceeded to the vicinity of the C. & E. bridge, in company with a few friends, and, divesting himself of all clothing other than an ordinary bathing suit, broke the ice for about twenty feet from the edge, and took to the icy waters, which would chill even in midsummer.

The river is very wide at this point, and had not Taylor been a powerful swimmer he must surely have failed. The spectators held their breath as the brave man swirled around the ice floes, dodging to avoid being crushed, and it was not until he fought his way thru to the shore and landed that they felt relieved.

Taylor was received in a warm clothing, and was driven back to town, having earned good wages, altho it is said that he didn't need the money, but would not take a bluff.

THE ONTARIO POWER CANAL.

General Electric Company Will Supply Plant for the Great Electrical Concern.

Niagara Falls, Ont., April 11.—It was learned upon authentic authority to-day that the Ontario Power Company, which has a charter to construct their power canal from Chippewa to empty into the gorge below the Falls, have made and signed the contract for all their electrical machinery to be installed in their plant, to be delivered by the General Electric Co. in two years. The company also, it is announced, have come to an amicable agreement with the Park Commission to have all their power houses located below the bank, and the work of construction will begin within a few weeks. As the construction will be on a large scale, it will take at least nearly two years to complete it.

They Are Carefully Prepared.—Pills which dissipate themselves in the stomach cannot be expected to have much effect upon the intestines, and to overcome costiveness the medicine administered must influence the action of these canals. Parmelee's Vegetable Pills are so made, under the supervision of experts, that the substances in them intended to operate on the intestines are retarded in action until they pass through the stomach to the bowels.

Harbord Old Girls.

The Easter meeting of the Harbord Alumni, held in St. George's Hall last night, was a brilliant affair, and one of the most successful in the history of this "Old Girls'" Association. The meeting took the form of a social, and was enjoyed by 50 members and their friends. Miss Wastedo, the president, occupied the chair, and delivered an interesting address. A pleasing program was rendered by Miss Somerville, Miss Creighton, Miss Kitchen, Miss Miller, Miss Cameron, Miss McCulloch and Miss Jeffrey. During the evening various forms of amusement were indulged in and refreshments served.

"My Physicians Told Me I Must Die, but South American Kidney Cure cured me of that awful Bright's Disease." This is a sentence from a letter of a well-known business man in a western town who through overwork and worry had contracted this kidney pestilence. It will relieve instantly and cure all kidney diseases. —102.

MR. TARTE'S DISCOURTESY

The Member for Kent Was Indignant Because His Telegrams Were Ignored.

MINISTER WAS ALWAYS TOO BUSY.

Mr. Stephens Threatened to Resign His Seat if Such Treatment Was Continued.

Ottawa, April 11.—(Special.)—Mr. Stephens, the Liberal member for Kent, created a mild sensation in the House to-day by threatening to resign on account of discourtesy shown to him and his constituents by the Government. The member for Kent was flushed with indignation when he arose to put his case before the House. He said that while in Chatham during Easter holidays he wired to the Minister of Public Works that the steam barge Ireland was ashore on the bar between Chatham and the mouth of the Thames, and as there was only seven feet of water on the bar the entire fleet was tied up at Chatham. His telegram asked the Minister of Public Works to order a dredge, which was ready on the spot, to go to work and dredge the bar so vessels could get thru. The dredge could be had at the usual rate of $8 per working hour. To that telegram he could get no reply. Since his return to Ottawa he had received several messages from prominent people in Chatham about the matter. Lumber had to be brought by rail at an additional cost of $2 to $3 per 1000 feet; stone for building could not be had, and business generally was suffering, all because Mr. Tarte would not order the dredge to open the channel. But he couldn't get Mr. Tarte to attend to the matter at all. Twice he had tried to approach him on the subject, but Mr. Tarte was too busy to talk, so he didn't know what reply to make to his constituents. He wasn't going to submit to such treatment, and if it was persisted in he would resign his seat.

If Mr. Tarte was too busy to attend to his matters, he ought to get help; if not, he ought to show more courtesy when such matters were brought to his attention. [Hear, hear.]

Mr. Clancy quite agreed with what the hon. member had said about the importance of this work being done without delay. There was a capital dredging plant on the spot, and all the Minister of Public Works had to do was to order it to be put at work immediately.

Mr. Tarte's Explanation.

Mr. Tarte's reply was that his Department had nothing to do with floating barges that got ashore. That was a matter for the Marine Department to deal with. The reason he didn't order dredging to be started at once was that he hadn't a dollar available for the purpose. Parliament would have to vote the money first. As for not answering the hon. member's telegram, the fact was that at the moment he received it he had to leave for Montreal, having learned that his youngest daughter was ill of typhoid fever.

Mr. Stephens replied that he had not asked Mr. Tarte to have the barge floated. What he asked was to have the bar dredged at once so vessels could get thru. [Hear, hear.]

"If these boats at Chatham have to be laid up all year, because there was no money to open the bar, this Canada of ours is a poorer country than I ever thought it was," said Mr. Stephens, resuming his seat.

This closed the incident and the House proceeded to the business of the day.

SALT AND SAWDUST

Before Oom Paul left home for his European tour, he is said to have accumulated as much gold as he could lay hands on at the time. Just now, according to the Boer representative in New York, "he is taking the rest which he needs so badly."

The sub-committee of the Fire and Light Committee has referred to the Solicitor for report the matter of merit badges, with extra pay, for deserving firemen. Chances are they will wind up by telling the fire-fighters to go to blazes.

If the City Council, instead of wrangling so much about the "control" of the city streets, would just go to work and patch some of them up in decent shape, it would confer a very great favor upon a patient but long-suffering populace.

The wife of a Boston tailor committed suicide after reading a novel of the day. It must have been "Love Letters of a Woman With a Weak Mind."

An epidemic of smallpox has broken out in a village in West Virginia. A school teacher, not knowing she had the disease, embraced 65 pupils. They all have it now. The O.E.A. is commended to consider the matter of kissing pupils.

A St. Louis man was killed yesterday by eating four hard-boiled eggs. He bought them at a railroad lunch counter. The cemeteries are filled with similar victims.

The Government of Canada has put a ban on dynamite fishing. This is rather hard on those persons in Woodstock who have been secreting four tons of the explosive for the mudcat season.

LETTERS RETURNED FROM AFRICA.

Mr. John Gilmour of Ottawa, Whose Son Was With the Strathconas, is Mystified.

Ottawa, April 11.—Mr. John Gilmour of Maria-street is at a loss to know why the letters written to his son, Private Felton Gilmour of Strathcona's Horse, have been all returned to him from South Africa. Private Gilmour did not leave Cape Town until Feb. 13, but, altho upwards of 40 letters were written to him from October until the time of his departure, he had never received any of them. A quantity of tobacco and a number of money orders were also returned. Mr. Gilmour naturally concluded that his son had been killed until he was located by Mr. J. M. Courtenay. Mr. Gilmour is inclined to think that there must have been considerable negligence on the part of the delivery department, or else his son would have got some of the letters. Private Gilmour is now in London.

THE FESTIVITIES AT TOULON

President Loubet Lunched With the Duke of Genoa on the Italian Flagship.

CORDIAL EXCHANGE OF TOASTS.

Decorations Distributed by Both the President and the Duke, With Warm Words.

Toulon, April 11.—In behalf of the King of Italy, the Duke of Genoa this morning distributed a number of decorations to the French Ministers and military, naval and civil officials.

President Loubet distributed medals to workmen who had been 30 years in the same employ.

At noon President Loubet boarded the Lepanto, the Italian flagship, and lunched with the Duke of Genoa.

The latter, in toasting the chief executive of France, said:

"Permit me, Mr. President, to express to you my acknowledgment of the very cordial and sympathetic welcome accorded by France to myself and to the squadron under my command. I shall retain an unalterably happy recollection of the magnificent reception. I drink to France and to her armies on land and sea, and I also desire to express my high regard for yourself personally."

Before he resumed his seat, the Duke touched glasses with President Loubet, and the two warmly clasped hands.

President Loubet's Response.

President Loubet replied: "Monseigneur, I am profoundly moved by the friendship you have just expressed for the French Republic and its President, and by the sympathy which you show for its army and navy. It is unnecessary to repeat to you what are the feelings of the French nation towards Italy. You already know them, and I have described them to you. But I wish once more to assure you that we are profoundly touched by the evidence of friendship which His Majesty the King of Italy has given to France by sending your grand squadron here. I drink to the health of King Victor Emmanuel, to the royal family, to their prosperity and to the Italian fleet. I drink also to your personal health, Monseigneur. Just now, I notice in your cabin the pictures of those dear to you. Permit me to associate them with yourself in the good wishes I am now expressing, and to drink to the health of your entire family."

Political Side of It.

Paris, April 11.—At the conclusion of the festivities at Toulon to-night, President Loubet will proceed to his home at Montelimas, in the department of the Drome, to visit his aged mother and take a few days' repose after the fatigues of the many functions of the week, which have kept him occupied from early morning until late at night.

As to the political side of the Franco-Italian demonstration, The Temps to-night says:

"The words pronounced by M. Loubet and the Duke of Genoa and especially the telegrams exchanged between M. Loubet and the King of Italy stamp the proceedings at Toulon with their true diplomatic significance. France and Italy yesterday gave one another officially the title of friends, which accords so well with the fraternity of their regions and blood. This is an event which must not be distorted nor wrongly interpreted. But, there is little risk of exaggeration of its importance, which, taking everything into consideration, is considerable. Both Italy and France have greatly changed since the time of Bismarck and Crispi. We cannot yet say what fruits yesterday will bring forth, but we augur much therefrom."

MUCH IN LITTLE.

John Albert Skoog, a noted counterfeiter, has been arrested in New York. His specialty was $20 bills.

King Otto of Bavaria is suffering from severe hemorrhages of the kidneys and violent spasms.

Ten thousand deaths from plague have occurred at Canton within the past six weeks, and there are 13 cases of smallpox on the United States monitor Monterey.

A sub-contractor, Michael Hohenstein, working on the Government buildings at the Pan-American, fell from the dome and was instantly killed. He fell 160 feet.

Work in the coal districts of Indiana is at a standstill. Over 3000 union miners are idle because of a row over the powder question.

At the annual meeting of the shareholders of the Cunard Line Steamship Company, a 5 per cent. dividend and a 3 per cent. bonus were recommended and passed.

The new dry goods combination in the United States will build a twelve-storey building in New York, to cost $3,000,000 and be used as the eastern headquarters of the business.

The United States Court of Appeal, sitting in Chicago, decides that vessels cannot be held liable for the loss of life on account of negligence.

An Alexandria firm of cotton brokers has failed for £250,000, with assets £30,000.

The Turkish Government has raised a loan of £200,000 to settle claims of the Cramps and the Krupps.
