MORE MILLIONS FOR THE WAR VOTED BY THE HOUSE OF COMMONS

An Embittered Discussion Over the Method of Buying Horses for Transports and Remounts—Charges of Boasting—An Inquiry Promised—News From Pretoria.

London, June 6.—After a long and somewhat embittered discussion of the policy of the War Office in buying horses for use in South Africa, the House of Commons today voted by a vote of 159 to 93, against the sum of £18,750,000 for transports and remounts.

Sir Blundell Maple, Conservative, asserted that British officers who had been sent to Hungary and Austria had purchased and sent down animals at extravagant prices, and divided with the sellers the price charged the British Government above the actual cost. He demanded the appointment of a Committee of Inquiry. Lord Stanley, Financial Secretary of the War Office, said an inquiry would be made into the matter.

SIR ALFRED HICKMAN PERSISTS ON THE LOCOMOTIVE QUESTION

Another Letter to Lord George Hamilton in Defence of English- Made Locomotives—American Locomotives Burn More Fuel as Shown by Reports—A Challenge.

London, June 6.—Sir Alfred Hickman, president of the British Iron Trade Association, has written another letter to Lord George Hamilton, the Indian Secretary, concerning American locomotives, citing the reply of Lord Cromer, the British agent in Egypt, relative to the consumption of coal by British and foreign engines in Egypt. Lord Cromer said a definite report could not be given for two months, but Major Johnston thinks the American major 10 per cent more than the other types.

Sir Alfred comments as follows: "This, so far, confirms the reports from Burma and Assam, and if correct would make American engines dear as a gift."

"With reference to your claim that American engines are superior in chemical research, I venture to point out that the achievements in metallurgy of Cort, Hall, Neil-

"PUSS" O'BRIEN GOES TO CHICAGO TO MEET HIS WOMEN FRIENDS

Man Shot By Constable Stewart Breathed His Last at 8 o'Clock Yesterday Morning— Police Expect Solution of Rescue Problem From Mysterious Viper or Another of Quartet Now in the City.

Chicago, Wednesday, June 6.—Col. Wilson, with 240 of Kitchener's Scouts, has captured and routed 400 Boers, belonging to Beyer's commando, 84 miles west of Warm Batha. The Boers resisted stubbornly, but finally broke and fled, leaving 37 dead, 100 prisoners and all their weapons and supplies, including 800 cattle, in the hands of the British. The loss of the latter was three men killed and 15 wounded. Beyer's main commando arrived on the scene soon after the engagement, but failed in an attempt to reorganize the supplies. Beyer was thus left practically without any transport or supplies.

A MOST DEPLORABLE TRAGEDY STARTLED TOWN OF BRAMPTON

Benjamin Parsons, a Well-Known and Popular Citizen, Killed His Wife and Then Suicided—They Had Been Devoed to Each Other—Man's Mind Became Deranged.

Brampton, Ont., June 6.—Benjamin Parsons, 31-year-old child of six days, was shot dead by his wife and a baby girl of three years, ran crying across the road to the house of Patrick Kenney, a man employed in the soda water works here, and told him their father and mother were dead. Kenney ran to a neighbor's house a short distance away and wakened him and said: "Get up; Ben Parsons has killed his wife and himself." Together they went to the house. The bedroom is situated on the east side. The Parsons were in the habit of rising about 5 o'clock and it is supposed that at that hour near it his wife was killed.

SNOWSTORM BUT NO FROST MAJOR MUNROE WAS KILLED

Richardson, Pettee and Other Opponents of the Railway Deal
Banqueted by Citizens.

Winipeg, June 6.—(Special.)—To-day Archbishop Vincent and George Vincent, M.P., and the delegation opposing the Manitoba Railway deal at Ottawa, were banqueted to-night at the Hotel by the Citizens' Committee. There was much criticism of the indifference displayed at Ottawa on the merits of questions coming up for discussion. Aid. Fry presided.

June 6.—(Special.)—The province enjoyed to-day something that has not been seen for several months, a snowstorm. Reports from the C.P.R. show that it was not confined to the city, but that it extended all over the province, with a plentiful down-pour of rain. The cold did not do any damage on the vast territory lying east of Manitoba. The population is largely composed of Indians, but in addition there are a number of whites, employed at the Hudson Bay Company's trading points, and missionaries in connection with the Anglican and Roman Catholic Churches. The work will take months.

THINGS TO THINK ABOUT. JURORS DEPRECATE A HACK Recommend the County Authorities to Provide a Suitable Conveyance for Prisoners.

INQUEST INTO THE DEATH OF JONES.

Detective Greer Thinks a Cab is All Right—Evidence Given in Detail.

"That at the City of Toronto, on the 6th of June, from shock and collapse, the death of a young man, Thomas L. Jones, occurred, and a tragedy occurred, two constables armed to the teeth watched over the dying Jones in a locked ward in an upper floor of the hospital."

The administration of justice in Toronto, in so far as the county and provincial officials are concerned, has not been of the best in the past, and the attempted escape of the three Chicago desperadoes and the murder of Constable Boyd is one thing which goes to prove this statement. There have been enough rumors in the air for some time back regarding the way in which the three desperadoes were taken to the jail, and the way in which they were treated, to give the ordinary citizen an uncomfortable feeling. Everybody remembers the Hyams trial, and while apparently the greatest credit is due to the police, it is more than certain now that American methods of dealing with ends of justice were employed, and large sums of money spent. And there is a suspicion that at the first trial the Chicago robbers' company managed to get near enough to the jury to suggest a disagreement. The administration of justice is the most sacred thing we have left, and if it is tampered with or put in the hands of unscrupulous and unscrupulous men, it is bound to degenerate and become rather a laughing stock to the people. The people ought to ponder over these things every day.

TELEGRAM MIGHT THING. The Ontario Government Has Created and Approved Criminals by Transferring Responsibility for their Acts to the Police.

Ontario Citizens: Considering the warning the Ontario government has given in connection with the plot to rescue the Aurora bank robbers, the precautions taken were very impressive.

The police sent her to the hospital, and she will come into court again next Wednesday.

She is standing her confinement in jail well, and will come into court again next Wednesday.

HAVE THEY GOT A CLUE? The police were very active early yesterday morning, presumably in connection with the case of the three desperadoes, and the vicinity of York, King and Adelaide-streets was conspicuous for the number of uniformed plain clothes policemen who were patrolling during the small hours of the night.

One of the suspected persons is a lame man with his left leg cut off at the knee, and he was frequently seen around the vicinity of the Aurora bank robbery. His companions were a couple of fellows who were dropped in from Chicago.

There was another man with them, but he was not seen by the authorities. These suspects all arrived in Toronto just a short time previous to the killing of Constable Boyd. Shortly after midnight they were seen in the vicinity of the Aurora bank robbery. They were looking for a meal of some kind, but they were not seen by the police.

PORT HOPE NOT STARTLED. Port Hope, June 6.—(Special.)—Port Hope was not at all startled when it was learned that Vina Seavey, whose real name is Levia Hudson, was arrested in this town last night. She is charged with the murder of Constable Boyd.

AUSTRALIA AND HER MONEY. Committee to Report as to Colingale and the Adoption of the Decree System.

Melbourne, Victoria, June 6.—The House of Representatives today appointed a committee to report on the loss means for the Commonwealth undertaking its own coinage and adopting the decimal system. The Imperial government favors the plan.

Edwards and Hart-Smith, Chartered Accountants, office, Commercial Bank of Ottawa building, Toronto.

NO RELATION OF DYMENT. N. Dymont, the well-known Barrie barber and horse-owner, is enjoying the rest of his vacation in the city. He was surprised on reading in the World yesterday morning that his name was connected with that of Vina Seavey. The woman was certainly not his wife, and he is not a relative of hers. He has never heard her name, and he is glad to hear that she is in jail.

VINA STILL IN JAIL. Vina Seavey, alias White, alias Hudson, the lady who is in love with Rice, still remains in police custody, as no one has yet come forward to go her bail. Thus, it seems, that all the available cash re- sources of the syndicate have been for the time exhausted in the expense of the trial, and that there is nothing more for- tunately.
