When I left school I became a book-keeper in an important office. Probably due to the confinement I began to suffer from indigestion and loss of strength. I became pale and seemingly bloodless, and was often seized with palpitation of the heart and violent headaches. I tried several remedies, but they did not do me a fift of good. I was advised to try Dr. Williams' Pink Pills and did so, and the use of eight boxes brought the back to perfect health and trength. I have since enjoyed the best of health and cannot say too much in praise of this valuable medicineer.

Free-Edward Freeland and the Wm. Free-iand estate, represented by the To-ronto General Trust, were desirous of finding a purchaser. Assessment Com-missioner Forman says that at this time the city might have obtained an option subject to approval by the leg-islature. This course was not, how-ever taken, but as the commissioner acted under instructions, the blame appears to rest upon the board. He was asked to make a valuation, and estimated the property was worth \$255,000. When tenders were advertised for, it was too late to secure an op-tion, but Mr. Forman acquainted the owners with the fact that the city
