#### SHRUBB AND LONGBOAT AT THE NICKEL TODAY

With the great 15-mile race between Shrub and Longboat at Montreal May 8 in magnificent motion pictures; a new and sprightly appearance and rich vocal powers; a programme of exceptionally good motion-picture dramas and comedies and now high-class singing numbers by the Sillier Duo, the Nickel will afford amusement on a grand scale today and tomorrow. The Shrub-Longboat race shows all the details of this record-breaking dash of 15 miles and there being but two competitors the struggle is keen from the start with no leaping to confuse watchers. The other pictures are to be: A Wartime Tale and Eddie is a Real Live One. Miss Evans, of Portland, will commence engagement in the ballet, The Red Red Rose, and The Silbers are to sing (a) Glory for the Hero (Wagner), (b) Caravan (Penn), in duet, Marguerite (White) The Wagnerian number will be sung in German. The Silbers made a dash hit in the programme of the latter part of last week.

#### THE HUSTLER TONIGHT AT THE OPERA HOUSE

Morris Tealy the author of "The Hustler" which comes to the Opera House, May 17, has never been known to do anything by halves, whatever he does or attempts to do he invariably goes after his object with the sincerest efforts possible. In "The Hustler" his originality of character conceptions is said to be wonderful. Judge Hulse, "The Hustler," the man of unadorned nerve possesses such a colossal amount of it that he succeeds in working everyone he comes in contact with to his own ends. The play and production of a Rochester, N. Y. paper says: "and in fact it would be difficult to find any advertiser more honest and steady than the Hustler." The play is the most enjoyable of the present theatrical season.

#### "SHANGHAIED" AT THE STAR TONIGHT

The story of a man who was "shanghaied" and taken to sea against his will, is the chief feature of the picture at the Star in North End tonight and tomorrow and its most stirring marine drama - something like a Sherlock Holmes detective story. Across the Border is another fine dramatic number, whilst, The Dare-Devil Motorist is a screaming farce. There will be three other films and a new illustrated song by Frank Austin, who is so very popular. Orchestra Tuesday night.

#### THROAT SWELLED

Voices Disappeared - Terrible Cough - Agonizing Headache

The Trying Experience of a Woodstock Man who Nearly Died with Grippe

People that allow "grippe" to run unchecked often find themselves in the perilous predicament that nearly cost Mr. M. Melanson his life. It was a long time through the rain that started my cold. I didn't pay much attention to it; thinking it would pass away. I soon experienced a steady increase in my chest and throat. This grew quite intense and my throat swelled before the ears and it hurt to turn my head. A terrible dry, red, itching cough kept me sleepless and miserably sick, and my head felt like burning. A neighbor bought me a bottle of Dr. Williams' Pink Pills for Pale People and I took it in conjunction with my throat and chest, and advised me to use it as a gargle and take it in hot water every four hours. I did this and in a few days my throat and chest were well and on my feet again. Such remarkable power for breaking a cold I never thought of being found in one remedy. Nervine saved my life and I consider it should be in every home.

#### HARBOR COMMITTEE INSPECTS THE LAND WHICH C. P. R. WANTS

The harbor committee visited the west side on Saturday afternoon at low tide and inspected the property which it is proposed to transfer to the C. P. R. for the purpose of making additional yard space for the wharves. The committee was accompanied by Mr. J. H. McGoldrick, Baxter, Codner, Likely and Belyea with Engineers Murdoch and Peters.

The limits of the property to be transferred had been marked out with stakes and the committee was able to see the area readily. On consulting the plan it was found that the property was forty-nine acres in extent, which is larger than the area of the wharves. The property is bounded by the water on the west and south and by the wharves on the east and north. It is understood the company is desirous of having these lots included in the transfer.

The committee also inspected the C. P. R. wharf and the 1,000 foot strip which it is proposed to give in exchange for the additional yard accommodation. It was found that the wharf could be greatly improved by taking out a jetty and would make a good berth for steamers. Some dredging would be necessary as there is not more than eighteen feet of water at the berth and the bottom of the crib would have to be rebuilt. The committee informally discussed the situation and a meeting will probably be called in the near future when the matter will be more fully taken up.

#### FAVORS HYPNOTISM IN MEDICAL PRACTICE

New Haven, Conn., Thursday. The American Therapeutic Society began its first annual session today. Dr. Hadley, of Yale, making a short address of welcome to the visitors on behalf of the city and the university. The session closed with an address by Dr. Frederick H. Gerrish, president of the society, on "The Therapeutic Value of Hypnotic Suggestion."

Dr. Gerrish described the method of hypnotic suggestion as practiced by reputable medical men and told of various instances where it was beneficial. He said it was important that therapeutic hypnosis should be conducted with other hypnotic means, and that all persons are amenable to suggestion in varying degrees. He said that hypnosis is a natural state, and older children are influenced by suggestion, but adults are less susceptible.

On every last night of the session, Dr. Gerrish described the method of hypnotic suggestion as practiced by reputable medical men and told of various instances where it was beneficial. He said it was important that therapeutic hypnosis should be conducted with other hypnotic means, and that all persons are amenable to suggestion in varying degrees. He said that hypnosis is a natural state, and older children are influenced by suggestion, but adults are less susceptible.

#### THE MAN BEHIND THE BLAST

(From "Alcohol.") At the head of the rock drilling and blasting gangs in the New York Central yards is a little Irishman who knows the science of breaking up granite cliffs from the inside. He knows rock as well as a Southern epicure knows "possum."

It is a rare pleasure to see him go about his work. He picks out unerringly the weak spots in the rocky wall before him, probes them deep with cunningly slanted drills and then breaks the solid bluff into tiny fragments.

All the time 7,000 workmen are toiling in the yards about him, and the trains are coming and going every four minutes. His position is onerous, yet his responsibility rests but lightly on his shoulders. He is as quiet and unassuming as a boy, and his laugh is as merry and jovial as though he had not a care in the world.
