BASEBALL. Brown Still in Game. Bloomington, Ind., March 27.—Mordecai Brown, five years star pitcher of the Chicago Club, admits the old "rip" isn't quite there in his twirling, but believes his pitching arm still is strong enough to hold off the batters in the Three-I League the coming season.

EVERYBODY AFTER G. CARPENTIER Champion of Europe Likely to Be Very Popular in America. New York, March 26.—Georges Carpentier's popularity as a celebrity of the sporting world is increasing with every appearance. The is evidenced by the flock of telegrams that have recently flooded the office of John Curley, the boxing promoter who will manage Carpentier's tour of the country.

To Have Sparring Partner. Carpentier's exhibitions will undoubtedly be of three rounds duration with a French middleweight who will be exported for the express purpose. All who take more than a friendly interest in the fighter's welfare, namely, Tex Rickard, Jack Curley, Francois Descamps, his manager, and the European champions himself, will not take any chances with an American fighter who might prove too ambitious and knock Lil' Georges for a row of Peruvian ganglows. This, of course, would have the effect of ruining a half million dollar proposition inasmuch as Georges will cease to be a drawing card if he were knocked flat and frigid by one of our lambs-eaters.

While the entire country is yelling for an eye for Georges, he continues to hold the centre of the stage. He and his charming young bride have been literally swamped with invitations to all manner of functions. These honors he takes with modesty, entirely lacking the gusto of our commonly known "big game" boys.

At present Carpentier is working on a moving picture at Fort Lee, N. J. The work called for in this contract will have been completed by May 1. He will then leave for his tour, under the management of Curley, which opens at Newark on May 3. He will then embark on the regular swing around the

Walks Quarter Mile With Javelin Through His Neck. Morgantown, W. Va., March 27.—Director of Athletics Harry A. Stansbury had a remarkable escape from death here late this afternoon on the West Virginia University athletic field, when a javelin hurled more than 100 feet by a member of the track squad struck him in the neck. The shaft pierced the neck on the right side and came out directly beneath the chin, almost half of the javelin passing through. Only the fact that the arrow point passed between the jugular vein and the carotid artery saved his life.
