GOOD THINGS COMING TO THEATRES OF ST. JOHN

ALL CHANGED AT GEM TOMORROW; BIG PICTURES TONIGHT

Tonight the Gem will show only twice more its glorious Alice Brady picture, "The Maid of Belgium," a vivid war portrayal in part and a delightful American sequel—a motherly touch to it all that is very pleasing. Tomorrow comes another new rich treat in vaudeville and pictures. The acts are Fisher and Hartwell, a clever man and girl team of entertainers; Galvin, Levee and Galvin, man and two women, in chipper specialty, "The Messengerette"; and "The Nippon Duo," two men, in singing, dialogue, piano and juggling variety—big time acts.

DISCUSS STATEMENT OF LIEUT. COL. MACHIN

Montreal, June 25.—Commanding officers in this military district and the registrar under the military service act advanced different views this morning in reference to the statement made yesterday by Lieut.-Colonel Machin of the justice department, Ottawa, that enough recruits were being secured in Quebec in proportion to the number available.

Lieut.-Colonel Piche, second in command of the military district, agreed with his superior officer, Gen. Wilson, that more soldiers could have been handled if the men had been called.

Registrar Godin said that probably the depot for the English battalion came in slowly at first, but he has taken more men than were sent. He said that because the English recruits came in slowly at first, he is getting exhausted. The French battalion asked if he had anything further to add to his statement yesterday in which it was contended that a cabal existed at Ottawa to injure Hon. C. J. Doherty, minister of justice, Lieut.-Colonel Machin said: "I have successfully fired myself. I have no additional statement to make except to say that I was not misinformed. Some sacrifice had to be made in order that right and justice should be known, if not done."

DANIEL ORAM KILLED IN WAR

Mrs. Daniel E. Oram of 40 Millidge avenue received from Ottawa today the sad news that her husband had been killed in action on June 18.

MAKING WOOL IN ENGLAND FROM THE HAIR OF DOGS

From Women's Section, Office of Director of Public Information.

War is responsible for many new and unexpected industries not the least of which is the manufacture of knitting wool from the hair of dogs. A few ladies conceived the idea from utilizing the combings in this way and after long and patient experimenting the process of spinning was perfected. Scientists have become interested in the discovery and a small room in the Victoria and Albert Museum has been set aside for an exhibit of the wool. It is reported that the wool which was quick to see the possibilities of this new industry, but while the war lasts there is no commercial sale to the undertaking.

Lung-hair dogs furnish the material used, and wool of unusual silkiness and softness is spun from their combings. A pale, gold sock light as silk but whose warmth is instantly realized when the sock is held to the cheek or against the hand was knitted from the combings of a Pekingese. The whitest and softest of socks for the wounded come from the combings of a white poodle. Cardigans or hand-wearing socks of soft grey are furnished by the old English sheep dog. Black as jet, stainless and glossy is the wool given by the curly retriever.

Collies, cocker, Chows and Pomeranians, Beards and Yorkshire, perky or dignified all yield the most delightful wool. Lightness and softness and warmth are truly admirable qualities in wool but this new kind possesses unheard of wearing qualities. Absolute proof of this is given in a grey cardigan which has been worn in the front line continuously since last autumn and washed repeatedly without showing the least sign of wear.

Lady Algernon Gordon Lennox and Lady Goddard conceived the idea and have been able to put it into practical use by the help of Lord Algernon Gordon Lennox who is treasurer of the British Woollen Goods Association, as these workers style themselves. Other helpers are Lady Blundell-Sutton, Lady Lewis, Mrs. Scaramanga, Mrs. Le Gros, Mrs. MacKenzie Owen, E. W. Jaquet, secretary of the Kennel Club, and Miss L. Smithe, hon. secretary.

EATS DIRTY GILLET'S LYE

HOW MANY BONES HAVE YOU IN YOUR FEET?

Most likely you do not know, few people do, and it is usually a surprise to learn that there are so many, and that the foot is about the most complicated and delicately constructed part of the body.

In order that you may get full information as to the many foot troubles which the people of today are suffering, there is to be a free lecture given to the public on Thursday evening in the main Street Institute, corner of German and Queen streets, at 8 p. m.

Waterbury & Rising have here during this week a foot specialist who has very high qualifications in his profession, being the right hand man of Dr. Scholl, the world's greatest authority on foot troubles, and who, it is claimed, has relieved more people from suffering than any other man alive. This lecture is entirely free and will be illustrated by over 100 slides of a most interesting nature, and no doubt it will be a great privilege for the people of this city to get such direct information of just how to take care of their feet and avoid the intense suffering which many have gone through in the past.

The three things which you do not want to forget are, the place, German Street Institute; the time, Thursday night at 8 p. m.; the fact that admission is entirely free to the public. 6-28

CORN AND OATS

Chicago, June 25.—Beneficial rains over a wide territory eased the corn market a little at the outset but the realness with which offerings were absorbed led soon to a decided upturn. Smallness of receipts here attracted some notice from the bulk. Trade was for the most part local. Opening prices which ranged from 1 cent decline to 1/4 cent advance with July at \$1.40 1/8 to \$1.41 1/2, and August at 1/4 to 6/8, the market scored a material advance.

Oats swayed with corn. Selling was of a scattered sort. After opening unchanged to 1/2 cent lower, with August at 7/14 to 6/8, the market scored a material advance.

Strength in the hog market sent provisions up a grade. Activity was chiefly in lard and ribs.

GERMANS BOMB ANOTHER OF OUR HOSPITALS

Ottawa, June 25.—An article by Roland Hill, correspondent at Canadian army headquarters in France, says:—

"Following the bombing of the Canadian hospitals near the coast, the Huns have taken toll from another Canadian hospital whose walls during the March fighting sheltered thousands of wounded Canadian nurses, doctors and other patients were among the number of those who were killed or seriously wounded. The Canadians have occupied the site for more than eighteen months. The roofs were shelled by the enemy and the buildings have never been used for military purposes since the war began. German squadrons which have often flown over it in daylight raids have hitherto dropped no bombs near the buildings."

SHORTAGE OF LABOR DELAYS THE WORK ON PROVINCE HIGHWAYS

Fredericton, N. B., June 25.—Shortage of labor in all parts of New Brunswick is seriously interfering with the work upon the highways. Hon. T. J. Crotty said today that last week in Gloucester a granite quarry engaged on a sub-contract for granite for a permanent structure being built by the department of public works, was forced to suspend operations on account of the drifting, for military service, of men employed in the quarry.

Owing to the scarcity of labor, the ordinary repairs to the highways, which should have been begun early in May, have not yet commenced until after seeding had been completed by the farmers.

The steel for the Armstrong bridge in Restigouche county, which was ordered more than a year ago, but which was delayed on account of the rush of orders, has arrived.

Tomorrow Hon. Mr. Veniot will go to St. John to inspect the Spruce Lake road and the permanent work on the Marsh road. From St. John he will work his way toward Moncton, inspecting highways on the way.

NO BUMPER CROP IN WEST; REASONABLE HOPE OF FAIR ONE

Winnipeg, June 25.—In a summary of crop conditions in western Canada, the Winnipeg Free Press today says it is fairly evident that the Canadian west is not having a bumper crop this year, but with good weather, some now on the driver could pull it up, bumpered into the approaching car. The front wheels of the truck were somewhat damaged.

HALIFAX WANTS HELP

Mayor Hayes has received from the reconstruction committee of Halifax a communication asking if bids could be secured here for pitch and gravel roads in the presence of leading businessmen, assured each other solemnly that they would not only gladly abide by the existing alliance, but that they also tended to strengthen, widen and deepen it in political, military and economic directions.

"Furnish me to the expression of the will of these two august personages, responsible statements forthwith entered into corresponding negotiations. During his visit to Berlin, Baron Burian discussed the fundamental questions thoroughly in conferences with the chancellor, the exchange of views being carried on further in writing. They probably will be concluded on the occasion of the chancellor's return visit to Vienna.

"With Bulgaria, too," continued the foreign secretary, "recent events, especially the peace negotiations, have facilitated the drawing closer of many personal and political ties. It is a matter of regret, which the German public shares, that Premier Radoslavoff, who has been a pillar of our alliance, recently resigned for internal political reasons. The explicit assurances of his successor and the excellent personality of the great statesman who also wears the Bulgarian crown are a guarantee to us that there will be no change in the policy hitherto followed. Liberty bonds were steady.

Dr. von Kuehlmann again went over the question of the Dobruja, which is the subject of negotiations between Turkey and Bulgaria, and added:—"But there does not exist any conflict in interests between Germany and Turkey." He announced that within the next few days a conference would be held in Constantinople, where the questions that had arisen between the quadruple alliance and the "Caucasian people" would find a settlement.

Dealing with the question of Poland, von Kuehlmann said that not only was the Polish question inherently a difficult one but the almost inseparable connection between it and the solution of the economic questions existing between Austria-Hungary and Germany had so far prevented the attainment of a definite result.

"I believe, however," said the foreign minister, "that before there are general peace negotiations in Europe the zealous efforts of the statesmen concerned will be in use as it will obviate the need for delay in passing.

NOW PUT BLAME ON THE WAR ON RUSSIA

(Continued from page 1)

Von Kuehlmann went into some questions of imperial policy, referring first to Germany's relations with her allies. "The Austria-Hungary," he said, "that brilliant representative of her foreign policy, Count Cernin, retired because of internal political reasons. His successor, Baron Burian, is a well tried diplomat, whose loyalty, friendship and devotion to the alliance were assured from the outset of the personal and cordial collaboration which existed in the case of Count Cernin, and which contributed to the final settlement and solution of all questions.

"It is also to be reckoned among Baron Burian's services," he went on, "that an interview between the two emperors occurred at main headquarters which history will record as momentous in shaping the relations between Germany and Austria-Hungary. Both the emperors, in the presence of leading statesmen, assured each other solemnly that they would not only gladly abide by the existing alliance, but that they also tended to strengthen, widen and deepen it in political, military and economic directions.

"Furnish me to the expression of the will of these two august personages, responsible statements forthwith entered into corresponding negotiations. KLINGLING'S "NAULAKKA" AT THE STAR THEATRE

A rare treat was in store for the large number who attended the Star Theatre last night to see "The Naulakka."

In presenting this production to the public, the Star is offering a superb picturization of one of the greatest books in the English language, by one of the greatest writers of the last hundred years, Rudyard Kipling, produced on a scale that has seldom been attempted.

The cast of characters in the picture is an attraction in itself. The leads are taken by Antonio Moreno and Dorinda, the great Spanish dancer, supported by Helene Chadwick, Warner Oland, H. Gilman and Mary Alden, all well known to North End theatre-goers. This special six-part production was produced at great cost. It is a fascinating, exciting and beautiful picture which will surprise every audience by its fidelity to life and its superb artistry. The dazzling pomp, the weird mysticism, the haunting charm, the fiery passion and deadly hate of the East are in this mammoth feature play.

In addition to the "Naulakka," the Star is showing the sixth story of "The Price of Frank," featuring Ruth Roland and Frank Mayo. This week's installment is entitled "The Rebound."

In all, this programme is a magnificent one of extra length. "The Naulakka" runs one hour and a half alone, making a two-hour show altogether. The first show tonight will commence at seven o'clock sharp, and the last show at 8.55.
