Your Manly Strength "Nature" Book Free

My Free Offer to My Men and Young Men Readers.

My free offer is as follows: There are in existence today numerous creditable books relating to the much discussed sex science, and they range in price from \$2 to \$5, while my offer as given below is a free one.

I publish a little private compendium of 72 pages, pocket size, containing 8,000 words and 80 half-tone photo reproductions, which thoroughly covers the subject of sex, but only in its relation to manhood or vital manly strength, its legitimate uses, its wanton abuses, its loss and the causes thereof, its possible self-restoration and its permanent preservation. These are the vital phases of the sex subject which I find to be of most interest to all men, young or elderly, single or married, and I have therefore put into this little self help book the very best that I can offer relating to that particular personal and private advice and information, which my 80 years' practical experience in this field has taught me men most seek, and through which they can get the most real benefit in respect to their own vigor and vital health. This, reader, is the book, and my offer to send it by mail, absolutely free of charge, in a perfectly plain, sealed envelope, to any man or young man anywhere who writes for it (see coupon below), and there is not a particle of obligation of any kind whatsoever involved in making this gift offer to you. Over a million of these books have been thus sent to men all over the world who wrote for them.

The reason why I can offer this illustrated sex book free is that in one part I include a description of a little mechanical vibrator of my own invention, which is for use by those of my readers who need some outside aid in the restoration of their manly vigor. However, that is a matter for each person to decide for himself. The book is complete and entirely independent of anything it says with respect to the vibrator. Therefore please use free coupon, and get the book by return mail. You will find it a valuable adviser in many respects.

SANDEN, Author.
Vital manhood and an abundant manly vigor is the greatest human asset of our day. Every man is entitled to be perfectly strong, vigorous and capable, just as nature intended he should, and it through the medium of my book I can show you how you yourself may become as vital, manly and forceful as the best man of your acquaintance, then I have merely given you a clear understanding of what nature is herself constantly endeavoring to tell and show you.

As to my vibrator, it may or may not be necessary in your own case, but if you want to use it after reading the description, I will gladly make some liberal proposition so you may get one to try. This vibrator, weighing only several ounces, is worn all night. It generates a soft, easy flowing FORCE which I call vitality. This FORCE enters your system at the small of the back, flowing thence through the kidneys, liver, stomach, bladder and organs, and diffusing itself to every part of the body. Over 200,000 Sanden vibrators are now in use or have recently been used. It keeps up its gentle action while you sleep. Men everywhere have said it makes them feel better and stronger almost at once, that it often takes pain out of the back in a few hours, and 60 to 80 days' time is sufficient to restore normal vigor. With special attachments my vibrator is used by women as well as men for rheumatism, kidney, liver, stomach, bladder disorders, etc.

If you live in or near this city, would be pleased to have you call. Hours, 9 to 6.

However, whether or not you ever use the vibrator, at least you want the free book, so kindly fill in the coupon and the book will go to you, sealed, by return mail.

ICE PATROL NEEDED FOR HUDSON BAY
Chief Hydrographer Suggests That Food Depots Be Established

Ottawa, Dec. 22—The annual report of the Department of Naval Service for the fiscal year ended March 31 is issued.

The loss of the steamers Carrazz and Albat in Hudson Bay is referred to in the report of F. Anderson, in charge of the Hudson Bay survey. He speaks of extremely and unusually adverse ice conditions, and says that "if the naviga-
