ATHLETIC

Officers Elected. The annual meeting of the Rockland Athletic Club was held last night and the officers for the year elected as follows: John A. Kingella, president; William Donnelly, vice-president; L. T. Owan, secretary; and Fred Shannon, treasurer.

BASEBALL

Mack Beats Them Out. Philadelphia, Jan. 9.—Connie Mack has stolen a march on the other American League managers. Already his three star pitchers, Chief Bender, Jack Coombs, and Eddie Plank, have begun light exercises at San Antonio, Tex., where the Athletics will train in March. Mack ordered Bender, Coombs and Plank to San Antonio last week. He instructed them to first take long walks and road runs to reduce weight. After ten days of this kind of exercise Mack will have the men do some fielding and batting to gradually get the kinks out of their legs and arms.

Philadelphia, Jan. 9.—The Philadelphia American League Baseball Club announces the release of Roger Salomon, pitcher, to the Louisville Club, on an optional agreement by which he can be returned to the local team.

THE MAN WHO DEFEATED PALZER

This is Luther McCarty, the new heavyweight champion boxer. He is only 21 years of age and weighs just over the 200 mark when in real hard shape. He sprung into fame a few months ago when he stopped Carl Morris, and climbed to the top of the ladder by beating Jim Flynn and Al. Palzer on the coast.

of their legs and arms. Early in February the trio will begin easy jacking increasing the daily grind in the box until their salary wings become steered for top speed, when the permanent race begins on April 10.

The appearance of Bender, Plank and Coombs on Texas soil this early beats all records. No major league players ever have received orders to begin training so soon. But Mack has set his heart on winning a world's championship next fall, and he admits that in order to accomplish that feat he must have Bender and Plank—absolutely fit condition from the outset.

If the Big Three are right when the song rings on April 10, Mack believes that the Athletics will get away to a flying start; and that nothing can head them there. The veteran manager has two excellent young pitchers in Brown and Hoek, but he is not banking on them. It is the resignation of Bender, who has promised to be a model young red skin, Coombs, the typical iron man, and Plank, one of the best southpaws in the game, upon which the success of the Athletics largely must depend this year. Mack is sending his star boxmen to San Antonio, evidently wants to find out as soon as possible how much he can expect from them.

Incidentally Mack has planned to pit the Athletics against the Giants during their stay in Texas and would greatly relish a victory or two. Meanwhile the other American League managers are just beginning to realize that Mack is putting on war paint about six weeks earlier than usual.

BASKETBALL
The St. Paul's church basket-ball team defeated the St. Andrew's Church quintette 17 to 10 in St. Andrew's Sunday school last night.

THE RING
Jeffries' Views.
Los Angeles, Jan. 9.—"Sam Langford is one of the greatest heavyweights in the world," declares Jim Jeffries, former heavyweight champion of the world. "He would be able to defeat Luther McCarty with ease. He would just name the round in which he would knock out the big 'white hope.' As for myself, I am through with the boxing game for all time and will never consent to meet McCarty or any other boxer."

HOCKEY
Halifax Baten.
The Sydney hockey team defeated the Halifax Socials 7 to 6 in the M. H. L. game last night. Scott played for the winners, but will in future be with the Halifax Crescents.

OTTAWA WANTED

THE SINGLE TAX TWENTY YEARS AGO

Reasons For Lower Valuation of Buildings Than of Land

(Ottawa Journal).
Apart from the question of the common sense of municipalities being given local option in the matter of taxation, the Ottawa Journal, in the principle of a lower valuation of buildings than of land for many reasons. One is that we think it better to tax a dead thing if you can than a live one. Another is that where the plan has been tried, and it lately has been tried much and widely, the results seem satisfactory. The third is that the best qualified man in Ottawa to speak on the subject, recommended it twenty years ago, and that the trend of things has been since in accordance with his idea. This was Mr. Pratt, then and for many years assessment commissioner. Mr. Pratt's position not only gave unique advantage to speak on the subject, but he has always been a man of essentially conservative and cool temperament. At a meeting of the Ottawa Board of Trade on Jan. 10, 1888, Mr. Pratt moved, seconded by ex-Mayor Frank McDougall—one of the most level-headed Scotsmen Ottawa has known—a resolution in favor of the straight single tax. It read:

"That the present system of taxation discourages industry and capital, the principal elements that go to build up our country; that all improvements upon land and active capital should be exempt from taxation; that land values alone should be the basis of all taxation for municipal purposes; that the Ontario Legislature be petitioned by this Board of Trade to empower such an municipalities by law to exempt the whole or any percentage of improvements on land or the whole or any percentage of active capital from taxation."

Mr. Pratt accompanied this with a detailed analysis of what would be the effect in Ottawa, and showed that if all taxes here were abolished except on land, the ordinary tax rate of about two cents on the dollar on all real estate and industry, would have to be replaced by a tax of five per cent on land; and that practically this would not work out as a hardship on anybody except the speculative holder of real estate, who would receive all building and industry from a depressing burden. The resolution was adopted by the board of trade. That is nearly twenty years ago. The only difference at that time turned upon the bearing of the resolution upon capital. Nobody objected to the land part. Nobody in this City we know of objects now. Sir James Whitney, quiet assessment of the Ottawa Board of Trade, as proposed to a change on the ground that "it is better to hold what we have than to experiment with academic questions that have not been tried out."

Well, they can never be tried out if nobody is allowed to try. This principle would have kept us all the Homebats and our forefathers were in the dawn of life. What's the sense of talking so about an experiment that can do no damage at worst? Let the Whitney government allow municipalities an option. Some of them will try. If they were to attempt an experiment that can do no damage, but which would be the better for the city and the world, would the best of them? One would imagine Sir James, and Mr. Forman, that single taxers were proposing to try the experiment of cutting somebody's head off. How much would it matter some municipality, even the biggest—Toronto or Ottawa—tried an experiment with low building taxation, and it seemed to work badly? It could be remedied in a year. The old thing could be restored.

NEW YEAR'S ADVICE

Improve By Mentally Weighing Yourself Frequently and Carefully
"It's not what people say about you—it's what you are that counts," says a writer in the American Magazine. "The only person in all this world whom you should aim to satisfy is yourself."
"Are you satisfied with yourself? It is your own fact if you are not. Are you satisfied that you are doing the best you can, in your work, that you are making the most of your time? Are you confident that your conduct toward your family, your friends, your neighbors, your employer, cannot be improved?"

"Remember this, too. Other people's opinion of you is based on your own opinion of yourself. Are you self-respecting? Other people will respect you. Are you truthful? The world will believe you. Are you honest? Every one will trust you.
"But weigh yourself frequently. Weigh yourself carefully. Be certain that your own opinion of yourself is justified. Be satisfied with yourself."

AFTER COUGHING MONTHS

Brooklyn N. Y. Woman Found Relief in Vinol
Did you ever cough for weeks? Then just think how distressing it must be to have a cough hang on for three months. Mrs. Maria Primrose of 87 Newell street, Brooklyn, N. Y., says: "I had a very heavy cold which settled into a chronic cough which kept me awake nights for fully three months, and felt tired all the time because my rest was broken. The effect of taking your cod liver and iron remedy Vinol is that my cough is gone. I can now get a good night's rest and I feel much stronger in every way."

It is the combined action of the medicinal elements cod's liver aided by the blood-making and strength-creating properties of tonic iron which make Vinol so efficient for chronic coughs, colds and bronchitis—at the same time building up the weakened, run-down system. Try a bottle of Vinol with the understanding that your money will be returned if it does not help you. Watson's 3 Rexall Stores, King street, Main street and Haymarket Square.

Our Factory and Wholesale Departments Contribute Wonderful Bargains to Our Mid-Winter Sale

Bad weather and other unfavorable conditions caused the cancellation of many orders, and our Factory found itself with a large excess of stock on hand where it should have had little or nothing left. There was only one thing to do—sacrifice the merchandise—and so a great collection of Men's Overcoats comes to us for selling at the lowest prices we've ever known, at this time of year, for such goods.

But it isn't the saving alone that should make the strongest appeal to you, it's the clothing itself that should be the chief attraction. It's the best for the price that can be made.

Men's Single Breasted, Convertible Collar, Overcoats, brown fancy stripe and bronze tweed, regular price \$8.00 Clearing Price \$4.40

Men's Convertible Collar Overcoats in rough Scotch tweed effects, in brown fancy overcheck and stripes, regular price \$10.00 Clearing Price \$6.20
