## NICKEL

The stirring drama "Aida" a marvelous Edison production adapted from the opera created a real sensation at the Nickel yesterday. It is without doubt the finest example of beautiful photography, hand some settings and dignified acting this company has yet produced. Today will be the last opportunity to see this picture, and to enjoy the original music from this opera, played by the Nickel orchestra.

The Bangor Fire, which so nearly destroyed that city recently, is an interesting film. A novelty in monograph is "Over Lucerne" (Switzerland) in an airship, and furnishes the sensation of a flight through the air. "When a Man's Married His Troubles Begin," a breezy comedy by the Vitagraph Company, concludes the picture bill. The Dolce Sisters will be heard in the charming songs "Carita" and "Dixie Grey," which made such an immense hit yesterday. Marie Hogan in another picture song success and a treat in latest sections by the orchestra.

## THE LYRIC

The Lyric Theatre announces a rare opportunity for today and tomorrow to enjoy a real heavy laugh, as the comedians Bird and Vance held yesterday's audience in convulsions with the funny songs and novelty songs. It is surely a treat to listen to such capable laugh-makers, and if one is possessed with a fit of the blues, the management guarantee a cure in this attraction. The picture showing of the work at the Panama Canal is also worthy of much praise, but it is not a very pleasing subject but is educative as well.

Children often scrape the skin from their shins, knees or elbows. The wounds should be washed very gently with lint and tepid water until all dirt or grit has been removed. Then apply a piece of lint dipped in tepid water, with a piece of oiled silk a little larger than the wet lint bound over it, or, if more convenient, apply vasoline spread on lint.

When filling oil lamps place a small lump of camphor in the oil vessel. It will greatly improve the light and make the flame clearer and brighter. If you have no camphor add a few drops of vinegar occasionally.

## LANCASTER LANDS

FOR WORKING MEN

Some Suggestions Made by W. F. Hatheway, M. P. P., in Connection With Them

To the Editor "Daily Times,"

Sir—Enclosed I send you a plan of the Lancaster Lands owned by the city of St. John. You will notice there are many unleased lots. Some of the leases on lease lots expire during the year.

Total revenue from these lands along the Manawagonish Road towards South Bay, crossing the railway track, would be \$800 lots 50x200, which would be excellent lots for homes. Some months ago it was suggested in one of the council sessions, that all these lands should be sold by public auction to the highest bidder. I trust your journal and the public generally will point out to the common council the danger of offering these lots on bid at auction. Much of the land now owned by St. John is held by estates and companies, which do not care to sell, but are glad to rent at from 50c. to 60c. per foot front. Thus, a lot 40x100 at 50c equals \$20 a year rent, which means a valuation of about \$200 a lot. It is difficult for workmen to pay \$20 a year for a small lot, and also raise the money to build their house and begin house-keeping. I think the city should, by a liberal policy in connection with the Lancaster Lands, encourage workmen around Fairville, South Bay and Strait Shore to settle on these lands. Therefore, I beg leave to suggest:

1st.—Unleased Lancaster lands and those others which leases will expire shortly to be surveyed into lots 50x200.

2nd.—Lots which front on Manawagonish Road and also on 47th Street, Road be fixed at a price of \$100; those on the reserved roads (not yet built) to be fixed at \$50 each.

3rd.—Payment for such lots to be made in 10 years, payable one-tenth each year.

4th.—Persons applying for lots, to be married, and a resident of the city or county of St. John for at least one year.

5th.—Most agree to expend at least \$200 during first year in building houses, and, must occupy such house before the end of five years from date of the purchase.

6th.—To expend at least \$300 more in improvements, fencing, buildings, etc., before the end of five years from date of the purchase.

7th.—At the end of ten years, if the above agreements have been kept, and if
