

RECENT WEDDINGS

Hall-Connors.
A wedding of unusual interest took place at the Roman Catholic church, St. George (N. B.) when Gertrude Irene, daughter of Mr. and Mrs. P. W. Connors of Black's Harbor (N. B.) was united in the bonds of matrimony to William Joseph Hall, son of Mr. and Mrs. M. Hall, Newcastle (N. B.) with nuptial mass, celebrated by Rev. W. J. Holland. The bride, who was given away by her father, entered the church to the strains of Mendelssohn's wedding march, and was charmingly gowned in white duchess satin with veil and orange blossoms and carried a bridal bouquet of orange blossoms. Misses Alma and Gertrude Connors, sisters of the bride made charming bridesmaids in pink and blue georgette with picture hats to match and carrying American beauty roses. The groom was supported by Les Bonnell, of St. Stephen (N. B.). Miss Alice Bennett, niece of the bride, was a dainty little flower girl in maize crepe de chene. Norbert Foley and William Power of St. John acted as ushers.

After the ceremony, about seventy-five guests motored to the home of the bride's parents where a dainty wedding breakfast was served. The brides traveling suit was of brown silver tone with tulle hat to match and she wore a beautiful squirrel scarf.

Amid showers of confetti and good wishes of friends, Mr. and Mrs. Hall motored to St. John, where they left a the evening train on a honeymoon trip to Boston and New York. Numerous gifts testified to the popularity in which both are held, among which was a beautiful silver service presented to the bride by her girl friends on the eve of her departure from Black's Harbor.

AUTOS IN TROUBLE.
Four disabled or wrecked automobiles were noticed by a driver between the city and Rothesay last night. A Ford truck, which rolled over an embankment near the Three-Mile House, was badly wrecked, but the driver Harry Pitt of Gondola Point, escaped without injury. The engine of the car, which was owned by Charles Peters, was badly damaged. Near Torriburn a Chevrolet car was ditched, and one of the wheels torn off. A little farther along the road a Ford coupe had been driven into the woods skirting the road. It was said that this was due to a flat tire and that the driver had put his car there while awaiting repairs. The fourth car, a Ford, which had been wrecked in a collision on Wednesday, was a short distance this side of Rothesay.

Three Halifax-to-Vancouver hikers started yesterday afternoon on the long voyage to Boston via East Port and Portland. They expect to reach Boston by October. The boat's crew now consists of J. H. Engle, J. Morrison and Arthur Spragg, the latter from this city. These pictures arrived from Halifax yesterday and they decided to leave at once. Engle, the leader of the party, said yesterday that he considered that they had completed the hardest part of their journey, that of crossing the Bay of Fundy, which they accomplished in fourteen hours.

MARS AGAIN

Wireless Waves of Great Length Picked Up by Marconi.

New York, Sept. 2.—Wireless waves 150,000 metres long, which he believed may have come from Mars, were picked up several months ago by Guglielmo Marconi, during experiments aboard his yacht Electra, in the Mediterranean. J. C. MacBeth, London manager of the Marconi Wireless Telegraph Co., Ltd., made this statement yesterday at a luncheon of the Rotary Club.

The maximum wave length produced in the world today is 14,000 metres, Mr. MacBeth said, and the regularity of the waves detected by Mr. Marconi and other experts led them to believe that they were not electrical disturbances, but efforts of Mars to get into communication with the earth. The only resemblance of the waves to any code used on the earth was a similarity to the letter "V" in the international code.
