The Return INTERNATIONAL S. S. CO. Of the Pendelum.

In 1892 the prosperity of the commercial schools was at its flood. Desiring to find some expedient that would reader them still more prosperous, the proprietors of many of these school's abandoned methods that had produced excellent results and adopted others which were wholly experimental. It may safely be said that in most cases the change was not made with the expectation that the schools would be strengthened educationally, but that the
