CANADIAN NEWS.

(Special to THE SUN.)

TORONTO, Feb. 16.—A special despatch received here tonight states that the wheat sowing is in full blast between Maple Creek and Medicine Hat, Northwest territories.

Since the debate on the Northwest rebellion to the local legislature, the house has met daily for half an hour or so and then adjourned. On Thursday the budget speech will be made and then there will be a recess.

St. Catharines, Ont., Feb. 16.—A gang of counterfeiters who have been operating in this city for some time was broken up today, two of their number, John Hilton, a farmer's son, and Wm. Carroll, bookkeeper, being arrested.

Their operations were carried on in an unoccupied house on St. Paul street, where a large stock of half dollars and quarters, besides dies and appliances were found. It is believed the principals have not yet been caught. David S. Thomas, mechanical engineer, formerly partner of Hilton's, skipped out on hearing of the arrests.

Toronto, Feb. 16.—Provincial Treasurer Ross presented his financial statement to the local legislature this afternoon. He stated that the results of the year were more favorable than had been expected, as it was thought there would be a deficit of \$148,000. The actual excess was only \$41,000. He claimed there were assets over liabilities of \$148,000.

No reliance, however, can be placed on such a statement. He announced that another increase in the tax on liquor licenses in cities of over 20,000 people, from \$180 to \$200; cities under 20,000, \$160 to \$200; towns from \$120 to \$160; villages from \$80 to \$120; townships from \$72 to \$100. Saloons—cities from \$200 to \$300; towns from \$110 to \$200. Whole salers from \$20,000 and towns from \$200 to \$250 and vessels licensed on lakes from \$125 to \$175. In the cities which have been licenced the increase will be just one half. This year he expects an excess of expenditure over receipts of over four hundred thousand dollars.

Ottawa, Feb. 16.—The St. Columba meeting in St. Adolphus Caron's constituency was a grand success for the ministers who attended. There has not been so enthusiastic a reception given to St. Adolphus for many a year. The managers of the national party hired ten or a dozen rough men of whom had only been out of the penitentiary for a few weeks, and they were sent to the meeting to try and break it up. The meeting was so overwhelmingly for the government, that after enduring interruptions on several occasions, they turned upon the hired gang and summarily ejected them from the hall.

The attempt to break up the meeting was a complete failure. The hired men were sent through a window to cool themselves in the snow. The attempt to break up the meeting was a complete failure. The hired men were sent through a window to cool themselves in the snow.

Ottawa, Feb. 16.—Notice is given mariners of changes on the Prince Edward Island lights. The east point light house has been moved about one hundred and sixty feet east. The fog alarm established in October, gives a blast of half seconds every half minute. The core light has been changed in colour, from red to green.

Montreal, Feb. 16.—The ten mile skating race for the R. K. Fox champagne medal took place in the Prince of Wales rink tonight, in the presence of a large and fashionable crowd. The race was won by J. D. Dwyer, who was cheered by the conservatives. Five started, including Brown, Robt. Elliott, former champion, and J. D. Dwyer. The latter took the lead at the start and kept it until the end of the race.

At the start and kept it until the end of the race. The first mile, when he fell. He was up quickly and kept behind the leader until the end of the race. When he gave the lead, he fell and was up quickly and kept behind the leader until the end of the race.

THE WEEKLY SUN, ST. JOHN, N. B.

LONDON.

A Socialist Mass Meeting in Hyde Park—The Police Interfere.

LONDON, Feb. 17.—The hearing in the case of the socialist leaders Hyndman, Burns, Champion and Williams, who are charged with inciting to riot, continued this morning in connection with the recent demonstrations in London, was begun in Bow street police court this morning. The court room was well filled with spectators, but not crowded. Mr. Pollock, solicitor for the treasury, in presenting the case for the government, quoted from the speeches made by the defendants at the time of the riots. Several newspaper reports were called as witnesses and gave testimony regarding the actions of the prisoners previous to and during the disorders.

Mr. Pollock asked that the prisoners be committed for trial. He said the prosecution had nothing of a political nature in it and urged that the men be prosecuted for misdemeanor. The defense counsel, Mr. Williams, was assisted by the different defendants of expressions and sentiments with intent to provoke a breach of the peace. The court said: "There was no riot at Trafalgar square and Hyde park, on Monday last week. Burns, at the socialist mass meeting, said to the assembly, 'Unless we get bread they will get lead,' and 'next time we will sack the baker's shop.' These words were not intended to excite the mob to march through West End. When the mob arrived at Hyde park, Burns again addressed the assembly, saying: 'We show to what stones can do. We will try powder and shot if they don't succeed, and there will be a riot.' The court said: 'There was no riot on the same day, urged his hearing to influence the police and army to join the people.' Williams, in his address, urged the people to organize, saying he was unwilling to have starving men confront the soldiers unless the former were organized. Burns delivered an effective and firm front. If peaceable means fail, I will be the first to summon you."

The case adjourned for a week, and the prisoners were allowed to give bail.

LONDON, Feb. 21.—Today the socialist members of all parties met in a mass meeting of 50,000 strong in Hyde Park. The leaders agreed to reform the tree at 3 p. m. in wagon and to march to the Crystal Palace. The march of the park and strong reserves were held in readiness for an emergency. During the meeting 2,000 roughs of threatening appearance gathered in front of the Crystal Palace. They were vigorously charged and dispersed by the police. Speeches were made from three platforms and resolutions adopted. The resolutions were: 1. That the government be petitioned to release the prisoners; 2. That the government be petitioned to release the prisoners; 3. That the government be petitioned to release the prisoners.

At the start and kept it until the end of the race. The first mile, when he fell. He was up quickly and kept behind the leader until the end of the race. When he gave the lead, he fell and was up quickly and kept behind the leader until the end of the race.
