WEDDING BELLS.

A quiet but pretty wedding took place at the Church of the Assumption, Carleton, Wednesday evening, when Miss Margaret Kindred was united in marriage to David O'Keefe. The bride was attended by her sister, Miss Annie Kindred, and John Cronin, cousin of the groom, acted as best man. The young couple were the recipient of many beautiful presents. Mr. O'Keefe received a handsome sideboard from the wharf employees of A. Cushing & Co. and a carving set from A. O. H. Division, No. 3, of which he is president. The young couple will reside on Douglas avenue.

ALL THAT WAS NECESSARY.

"You must abandon all business cares for the future," says the physician. "But I fear that I have not yet accumulated sufficient money," protests the multimillionaire. "Sufficient?" repeats the doctor. "Why, my dear sir, you have enough money to pay physicians' fees for the rest of your life!"—Baltimore American.

BANANAS, ENGLISH STYLE.

At English tables spoons are served with bananas. If the bananas are served as a single fruit course, however, sherry is usually sent around with it. A few drops are poured upon the plate, and the banana, stripped little by little of its skin, is dipped into this and thus eaten.—New York Post.

MUNICIPAL UNION.

Mayor Howland speaks of the Results Achieved. Mayor Howland, one of Toronto's representatives to the meeting of the Union of Canadian Municipalities, speaking of the results of the convention, said: "The great result has been that the Executive Committee now feel that, having the backing of many fresh cities, towns, and municipalities, new strength has been given them to press for recognition of citizens' rights and interests. Of course the convention might have possibly been profitably prolonged by holding a final evening meeting devoted to discussing matters of municipal officials. This feature will be introduced into the next annual convention, which the executive at its last meeting decided would be held either in Ottawa or Toronto. But what was particularly noticeable during the entire convention and at the same time a feature that promises greatly to the greater success of the union was the perfect understanding that prevailed at all times between the delegates from other provinces and those of the province of Quebec."

At an early date as possible the Provincial Executive will meet and elect a fourth vice-president, a French secretary, and will discuss municipal interests of the province with the general support of the union.

NOT A WISE JUDGE.

He Used Gasoline to Light a Brush Fire.

BOSTON, Sept. 26.—A special to the Herald from Burlington, Vt., says: "Justice David A. Brewer, of the United States supreme court, was quite badly burned about the face and hands at his summer home at Thompson's Point, about seventeen miles from this city on the shore of Lake Champlain, last evening. Judge Brewer has lingered longer at the point than have the other cottagers and was cleaning up the brush about his cottage, Liberty Hall. He used a small amount of gasoline to make the brush burn and was in the act of lighting the pile with a match when the accident occurred."

TURK AND BULGARIAN.

A Sanguinary Fight and Heavy Losses on Both Sides.

CONSTANTINOPLE, Sept. 26.—Three hundred Bulgarian revolutionists, who were surrounded by Turkish troops in the Vilayet of Salonica, succeeded in forcing the cordon after a sanguinary fight, during which both sides suffered severe losses. Reinforcements of troops have been sent in pursuit of the Bulgarians. The Turkish government, it is said, has decided to call out 15 battalions of militia to deal with the revolutionary bands which are roaming in Macedonia.

SICILY SUFFERS.

A Tornado Does Great Damage—Volcanoes Active.

LONDON, Sept. 26.—A despatch from Rome today announces that a severe tornado has swept over Catania, a city on the east coast of Sicily. Catania is flooded and many houses, including the Villa Bellini, have been damaged. The railroads have suffered seriously. The tornado also wrought havoc at Modica, a town of Sicily, thirty miles from Syracuse, where several persons were killed. Mount Etna, a short distance from Catania, shows further signs of activity, and the volcano of Stromboli, off the north coast of Sicily, is still active.

A PORTLAND BAD BOY.

(Portland Press.) The youngest liquor dealer ever before a court and sentenced came up before Judge Hill in the municipal court Wednesday morning. He was Michael J. Ridge, 12 years old, who was arrested by Deputy Sheriff Sterling on Saturday night on Hampshire street, near Middle. He was found opening up bottled beer for a thirsty crowd. He told the court Monday whom he was working for and the officers are now looking for him. Ridge's mother asked that the boy be sent to the Reform school during his minority. He has been before this court six times in all, twice for larceny.

EDEN UP TO DATE.

The conclusion arrived at by reason of association, environment, and personal experience was illustrated a few days ago during a conversation between Johnnie Scarabini, an east side urchin, and Miss Knight, a young Philadelphia woman, who has recently been engaged in settlement work in New York. The subject of Adam and Eve was under discussion. "Say, I know de story 'bout dat lady and her feller," vouchsafed the youngster. "Day lived in a beautiful garden and they was chucked out for swinpin' de fruit." "And who made dem leave?" was the innocent query. Just a moment's pause, then Johnnie answered: "Huh, I guess it was de cop!"

NO SENTENCE

To Be Imposed on Higgins Until October Seventh.

At His Counsel's Request Argument Was Not Heard This Morning and Court Adjourned.

Frank Higgins has been given another lease of time from sentence. At the request of his counsel the Gate for hearing the argument for a reserve and imposing the sentence, was adjourned and fixed at October 7th.

When court opened this morning, there was but a small number of spectators in the building. After a short consultation with Hon. H. A. McKewen, his honor Judge Landry took up the civil case of Murphy v. Kelly, but as one of the counsel was absent it was deemed necessary to postpone this matter. Daniel Mullin, K. C., appearing for the prisoner Higgins, stated that he had had no opportunity of looking into the legal aspects of the case, since he had received word from his honor, that a hearing would be given him this morning. There were four points on which he would base his argument for a reserve, but these he would not be able to go into today because of his inability to look up the legal authorities on the matter. One of the points, too, was taken from his honor's charge, and the transcription of that he had not yet received. However, if Judge Landry so desired he would proceed to a statement of the points. His honor said that as the matter was one of great importance to Mr. Mullin's client he thought it would be better to fix a later date for hearing the argument, and he named Tuesday, October 7th, at ten o'clock in the morning as the time.

Mr. McKewen and Mr. Mullin expressed themselves as perfectly satisfied. "Passing of sentence," continued Judge Landry, "is deferred because of the desire of the prisoner's counsel that it should not be passed until after argument was heard. As no harm can be done by this delay I have agreed with the counsel."

Court was then adjourned until Tuesday, October 7th, at ten o'clock in the morning, when argument will be heard in the Higgins case, sentence will be imposed and the counsel of Murphy v. Kelly will be taken up.

In the meantime Higgins passes his time much the same as before the trial and shows little concern as to the outcome. Throughout the day he whistles and amuses himself in his cell, exercises in the corridor, eats and sleeps heartily, just as any other boy of his age outside of the shadow he lives in. Goodspeed's daily occupation is somewhat quieter and he is seldom heard about his cell. Both boys retire at dark and are up bright and early in the morning. Prison life has not apparently afflicted their health, although each was accustomed to be wrenched out of doors. They are slightly paler but otherwise unchanged.

I. C. R. SMASH-UP.

Fifteen Cars Derailed and Traffic Impeded—Track Badly Torn Up.

(Special to the Star.) MONCTON, N. B., Sept. 26.—A bad wreck occurred on the I. C. R. last night, causing a temporary suspension of traffic. The accident occurred to the freight train leaving here about midnight and was due to a broken wheel on a heavily loaded box car, the sixth from the engine. Fifteen cars are off and the track was badly torn up for a distance of two or three hundred yards or more. Fortunately no one was injured, the derailed cars all being in the middle of the train. One or two cars were badly smashed up, while several heavily loaded cars had the trucks torn from under them and are badly off.

Mr. Arans described the roadbed as being badly torn up and some of the freight cars badly damaged. Traffic was suspended as a result of the accident. The maritime express, which was two hours behind time leaving here, was detained until nine this morning. A crew worked all night clearing up the road.

A revolver was lying by his side, a bullet hole over the heart, and a note saying: "I have just found what an ass I am," indicated that self-destruction was premeditated. Tibbets had recently become financially embarrassed and this, coupled with the fact that his love for a Duluth woman had been spurned, is believed to have been the cause of the deed.

LAURIER'S VISIT TO ROMA.

NEW YORK, Sept. 25.—Much comment has been heard, says a Rome despatch to the Tribune, over the fact that Sir Wilfrid Laurier, premier of Canada, after having manifested his intention to come to some agreement with the Italian government on the question of the Italian emigration to Canada, and of the importation of Canadian goods into Italy, went away suddenly after a private audience with the pope, seeing none of the Italian authorities. From the studies Sir Wilfrid Laurier has made it appears to be his intention, the despatch adds, to complete with the United States in the Italian market as there are products which Canada can offer at cheaper rates than they are now imported from the United States.
