New Brunswick Telephone Company completed yesterday the erection of a direct copper wire between Newcastle commenced about five weeks ago, follows the post road from Fredericton to Chatham Junction. From the latter point a line extends through to Chatham and another through to Newcastle, connecting at both places with the local lines. Miramichi folks can now talk to St. John or Boston without fear of interruption. On the old long-distance ine there were nine instruments and as a consequence the service was unsatisfactory to the people of Newcasand Chatham. ow independent of intermediate points in their telephone connection with St. John.

ance service through to Campbellton. Mr. Hoyt replied that the matter was inder consideration, but that nothing definite had yet been decided upon. Dealers here report an absolute dearth of all kinds of fowl. One prominent dealer in conversation with the Sun's correspondent stated that he had so far, found it absolutely impossible to procure turkeys and geese in any quantities. He declared he had written to a large producer in the county f Kent and the reply he received was to the effect that all the geese, raised had been sold to St. John dealers at \$1 each, regardless of the weight.

"Fowl were never as scarce as they are at the present time, and the people here have no idea how they are going to manage for the Christmas trade

It seems as though the farmers of the Miramichi are losing a very substantial revenue by not raising fowl. when it closed for the night, anticipat- discussed the Anglo-French colonial timber properties in Newfoundland which will be utilized by that combe utilized by that company for pulp manufacturing purposes, arrived home from the ancient olony last week. Mr. Stewart informs the Sun's correspondent that the negotiations with Mr. Whitney and is associates-the former owners of e properties-have been practically completed. In a few weeks Mr. Stewart will return to Newfoundland to et the representatives of the English firm, who are coming out to close the deal and start operations. The pulp industry will be carried on in wfoundland on an extensive scale.

O. Turgeon, M. P., paid a visit to his

constituents in the lower end of Glouester county last week previous to his leparture for the west, where he goes spend Christmas with his son, Alnse, who is practicing law in Alerta, N. W. T. Mr. Turgeon will not in Gloucester again before the openng of the house. Mr. Turgeon inorms the Sun's correspondent that he as received a communication from Mr. efontaine, minister of marine and sheries, informing him that negotiations are pending with an American which has in view the operation of the glue factories. The concern ould use the dog fish taken under the w regulations governing their capture. Government support is expected. President Anderson of the new Anderson Furniture Company here states that the factory will be in operation and the goods ready for the market by the new year. During the winter months the company intends to ship to the British markets via St. John. The

npany will make the export trade a chief feature of their operations. They vill enter the Northwest field, and hope to send their goods clean through to the coast. The company's property consists of a saw mill and dimension 40x120, 4 stories; a machinery building, 64x120, 4 stories; boiler house or two boilers of 120 h. p. each, engine house for 150 h. p. engine and a modern dry kiln, 40x180, two stories. The company will employ 100 men and make a specialty of chairs.

Chief Game Warden Robinson expects to have the full returns for the big game season tomorrow. A number of the local guides will pre-

WHAT SULPHUK DUES FOR THE HUMAN BODY IN

HEALTH AND DISEASE.

The mention of sulphur will recall to many of us the early days when our mothers and grandmothers gave us our daily dose of sulphur and molasses every spring and fall.

It was the universal spring and fall "blood purifier," tonic and cure-all and mind you, this old-fashioned remedy

was not without merit. The idea was good, but the remedy was crude and unpalatable, and a large quantity had to be taken to get any ef-

fect. Nowadays we get all the beneficial effects of sulphur in a palatable, concentrated form, so that a single grain is far more effective than a table-

spoonful of the crude sulphur. In recent years, research and experiment have proven that the best sulphur for medicinal use is that obtain ed from Calcium (Calcium Sulphide) and sold in drug stores under the name counter-balancing any loss of prestige of Stuart's Calcium Wafers. They are small chocolate coated pellets and con-Russia may have suffered through the recent British expedition to Thibet. tain the active medicinal principle of sulphur in a highly concentrated, ef-

Few people are aware of the value of this form of sulphur in restoring and maintaining bodily vigor and health: sulphur acts directly on the liver, and excretory organs and purifies and enriches the blood by the prompt elimination of waste material. Our grandmothers knew this when

they dosed us with supplur and molasses every spring and fall, but the crudity and impurity of ordinary flowers of sulphur were worse than the disease, and cannot compare with the the border.
