Literary Notes.

The *Review of Reviews* for November publishes several important and interesting articles on the latest phases of the Eastern Question, especially from the British point of view. Mr. T. Staines survey of the subject, entitled "The Eastern Ogre; or, St. George to the Rescue," is extremely characteristic and suggestive; the *Review* also offers a remarkable symposium of current thought on "What should be done with Turkey?" as the pressing problem of the hour.

Magazine articles about the late George Du Maurier are likely to be quite numerous during the coming months. The first noteworthy attempt to form an estimate of Du Maurier's qualities as an artist and illustrator, rather than his more recently developed gifts as a writer of fiction, Mr. Knuff's has for years followed Du Maurier's work in *Punch*, and his article is illustrated with many evidences of his artistic success as an enthusiastic collector of Du Mauriers. There are also several interesting portraits of the author of "Trilby."

Once a Year Only Just Out

The Dodd's Kidney Pill Calendar for the Year 1897.

SUPPORTED THE WORLD

On His Heroic Shoulders—Atlas Must Have Healthy Kidneys.

As the first to be laid on our table for the year 1897, we welcome the reappearance of the Dodd's Kidney Pill calendar, published by Dodd's Medicine Company, Limited, Toronto.

Pressing, beyond anything of its class hitherto published in America, though its purpose is at once obvious it has been made exceedingly pleasing by the artistic choice of a design for the cover, which has been charmingly worked out by the artist in red and blue lithograph, the classic subject being Atlas supporting the world.

It seems that these clever and persistent advertisers, not content with decorating the grassy hill-slopes and rugged mountain sides with their mammoth lettering, seek also adroitly to seize upon the imagination and assist it to account for the superhuman strength of the hero Atlas, suggesting the secret of his power by representing him as being himself supported and relying upon a box of Dodd's Kidney Pills.

On the back of cover, in a few pithy words those previously convinced of the urgent need of kidney treatment are warned against substitutes, imitations and counterfeits of the genuine Dodd's Kidney Pills.

This much as to the cover of the book itself, we have to say—the arguments all seem unanswerable, the proof ample and undeniable, the whole unique, admirable and useful, not only for the coming year, but for always.

We are assured by the publishers that sufficient are being printed to go around that in due time every family in Canada will get one to their present and lifelong advantage. And, as usual, adding: "Dodd's Kidney Pills Always Cure."
