His Many Duties Caused His Health to

From the Republican, Columbus, Ind.
The Hartsville College, situated at
Hartsville, Indiana, was founded years ago
in the interest of the United Brethren
Church, when the state was mostly a
wilderness, and colleges were scarce. The
college is well known throughout the
country, former students having gone into
all parts of the world.

PROF. ALVIN P. BARNABY

PROF. ALVIN P. BARNABY.

A reporter recently called at this famous seat of learning and was shown into the room of the president, Prof. Alvin P. Barnaby. When last seen by the reporter Prof. Barnaby was in delicate health. Today he was apparently in the best of health. In response to an inquiry the professor said:

"Oh, yes, I am much better than for some time. I am now in perfect health, but my recovery was brought about in rather a peculiar way."

"Tell me about it," said the reporter. "Well, to begin at the beginning," said the professor, "I studied too hard when at school, endeavoring to educate myself for the profession. After completing the common course I came here and graduating from the theological course, I entered the ministry and accepted the charge of a United Brethren church at a small place in Kent County, Mich. Being of an ambitious nature. I applied myself diligently to my work and studies. In time I noticed that my health was failing. My trouble was indigestion, and this with other troubles brought on nervousness.

"My physician prescribed for me for sometime, and advised me to try a change of climate. I did as he requested and was some improved. Soon after I came here as professor in physics and chemistry, and later was financial agent of this college. The change agreed with me and for a while my health was better, but my duties were heavy and again I found my trouble returning. This time it was more severe and in the winter I became completely prostrated. I tried various medicines and different physicians. Finally I was able to return to my duties. If he pring of 1861 I was elected president of the college. Again I had considerable work and the trouble, which had not been entirely cured, began to affect me, and last fall I collapsed, I had different doctors, but none did me any good. Professor Bowman, who is professor of natural science, told me of his experience with Dr. Williams? Pink Pills for Pale People and urged me to give them a trial, because they had benefitted him in a similar case

this is a same carry them.

"The first box helped me, and the second gave great relief, such as I had never experienced from the treatment of any physician. After using six boxes of the medicine I was entirely cured. Today I am perfectly well. I feel better and stronger than for Years. I certainly recommend Dr. Williams' Pink Pills to similar sufferers and over-worked people.

The Missionary Review of The World for November contains extremely valuable and interesting articles. Dr. Pierson, the editor-in-chief, gives the remarkable history of the "World-wide Uprising of Christian Students" as one of the marked spiritual movements of the century. This movement, which is still young in years, has made remarkable progress among the young men of all lands, and bids fair to occupy a foremost place in the regenerating forces of the future.

ing forces of the future.

Apart from the momentary interest in the mayoralty campaign of the Greater New York, the character-sketch of Henry George by Arthur McEwen in the American Monthly Review of Reviews for November will attract general attention. Whatever may be thought of the single-tax doctrine in economies, the politicians have found that Mr. George is a personal force to be reckoned with, and his personality has fascination for many who are far from sharing his beliefs.

A reorganization of the New Brunswick

A re-organization of the New Brunswick government took place last week. The resignation of Hon. James Mitchell having been accepted by the Governor, Hon. Mr. Emmerson was entrusted with the task of forming a government. This he has succeeded in doing, and the personnel of the new administration has been announced as follows: Hon. Henry R. Emmerson, Premier and Chief Commissioner of Public Works; Hon. Lenuel J. Tweedie, Provincial Secretary and President of Executive Council; Hon. Albert S. White. Attorney General; Hon. James Mitchell, Solicitor General; Hon Charles H. Labillois, Commissioner for Agriculture; Hon. L. P. Perris, without portfolio. The present government, like that which preceded it, is of composite character, both political parties being represented in it.

Rev: E. O. Taylor, M. A., of Chicago,

is of composite character, both political parties being represented in it.

Rev: E. O. Taylor, M. A., of Chicago, has just visited Halifax in his lecturing tour, and he made an excellent impression. He preached ou Sunday morning, Oct. 17, in the First Baptist church, and in the evening in the Brunswick Street Methodist church. On the afternoon of the same day he spoke to a very large audience in the Academy of Music upon Christian Citizenship. On the following evening he spoke in the vestry of the Brunswick Street Methodist church, and on Tuesday evening the last address in the course was given in the lecture room of the First Baptist church. These lectures were of a very informing character and were received with marked appreciation. Those who may have thought before that temperance addresses are all alike, and that nothing new can be said upon a theme so well-worn, had their views changed upon listening to these scientific discussions. The relation between alcohol and crime, as traced in the last of the lectures, cannot fail to leave a lasting impression and to move all who desire the welfare of their fellow-men to a stouter warfare against the traffic of ardent spirits. Mr. Taylor is worthy of a hearty welcome wherever he goes.
