MOTOR BOAT RACES ON SATURDAY

There were two good motor boat races Saturday afternoon under the auspices of the St. John Power Boat Club. The course for the two races was from a buoy off Indiantown to a buoy off Green Head.

The first race was for the Wanamaker Cup, and the boats were obliged to go over the course three times. The second race was for the Thorne Trophy, and the boats were obliged to go over the course twice.

In the race for the Wanamaker Cup the following boats started: The Glenoid, owned by Cecil McLean, Stella Marie, John Hurley, Helen B., owned by Harry Black Star, owned by Capt. Porter, Christiana, owned by Fred Howes, Ava Maria, owned by J. D. Brown.

Spray, owned by Malcolm Logan. The boats started at 2:28 and they finished in the following order: H. M. S. Spray, 4:50; Stella Marie, 4:50; Helen B., 4:50; Christiana, 4:50; Ava Maria, 4:50.

The Spray was disqualified for having crossed the starting line on the wrong side of the flag buoy.

The Glenoid and the Star were also disqualified for having left the flag buoy in Kelley's eddy on the boat instead of the starboard side. The race has been protested by Mr. Logan, on the grounds that the racing rules were not followed out.

In the race for the Thorne Trophy there were two boats to start, viz: the White Heather, owned by C. N. Huggard and the Marjorie, owned by Jas. D. Taylor. These boats started at 3:37 and finished as follows: H. M. S. White Heather, 4:50; Marjorie, 4:50.

The officials of the day were: Commodore S. P. Gervoy, starter; George Wanamaker, Mays Davis, Judges, and Leo J. Gallagher, timer.

ABLE DEFENCE OF RITUALISM

Rev. W. H. Van Allen, of Boston Occupies Pulpit of Mission Church—Change in Attitude of English Church.

That it is not the ritualist churches but the others which have forgotten the commandments of the mother church is the contention of Rev. W. H. Van Allen, who occupied the pulpit of the Mission Church, Paradise Row, last evening. He took his text from the story of Ahab and Elijah, which, according to the old Jewish regulation, the king and his rulers had forsaken the true religion, and followed Baal.

The story was an illustration of how people sometimes put things round about and shifted the blame from their own to others shoulders. Sometimes one heard the statement that the Church of England would get along better if it was not for the ritualists. Some years ago people discussed these questions with brick bats in their hands; now they adopt a tolerant attitude, saying their opponents were sincere but not quite right in their minds.

In the race for the Covenant only he borne on consecrated shoulders. David, following the Philistines, had borne on a cart, and God gave a visible manifestation of His anger.

Came into its Own.

When after the English rebellion the church came into its own the efforts of the church were set at naught by the preachers who refused to take any notice, saying their opponents were practised against the rubric and the forms of worship prescribed in the Book of Common Prayer. But God did not intend to have the Church of England stamped out; hence arose the catholic revival of the 19th century.

Now they have stopped calling the ritualists lovers of outward show, materialism. Now they say the ritualists are teaching too much; they say the ritualist teach that Christ is to be worshipped in the sacrament service. But the Book of Common Prayer taught the doctrine of the real presence.

The speaker said there were good people who frothed at the mouth at the mention of confession. The devil prescribes the Book of Common Prayer in the fight against evil.

Up to the time of the Catholic revival the English church had forgotten how to preach the gospel to the poor. If the poor got any gospel, it was from the dissenters or Romanists; they were the ones who preached the church down among the poor.

At the morning service in the Mission Church Dr. Allen occupied the pulpit and spoke of the importance of the ritualistic movement in turning the church to its true mission of saving the lowly of the world.

Jack Frost's Master McClary's "Sunshine" Furnace

Jack Frost had the time of his life last winter. He warred against all elements and froze them stiff. Lakes and rivers he turned into solids; he also put a razor-like edge on the wind. He even bit into steel rails making them as brittle as burned glass. Outside, Jack reigned supreme, but his chilly majesty was licked to a frazzle inside by "The Understudy of the Sun"—McClary's "Sunshine" Furnace.

Think of the past winter when the mercury swung timidly below the freezing point—not for a day or a week, but for months at a time. How you shivered and how you talked about the appetite of that poor old furnace in the cellar. It simply ate up coal and then fell down when it came to heating the house evenly and comfortably.

McClary's "Sunshine" Furnace makes the most of very little fuel, and distributes a much greater percentage of heat throughout house than the ordinary furnace.

Askes cannot bank up between the stove fire and the walls of the firepot in the "Sunshine" Furnace. It is an absolute guarantee of balmy June weather in the home, when Jack Frost's incursions are jingling in the Arctic cold without. That's why the "Sunshine" is called "The Ice King's Master." The "Sunshine" Furnace is an excellent investment—it will last a life-time with ordinary care—and return you a handsome interest on the investment every year by the actual saving it effects. Now, we want you to do us a favor—we want you to call on the McClary agent and ask him to prove every claim we make for the "Sunshine" Furnace—ask him to prove every claim true.

Ask him to show you—The fuel-saving features of the "Sunshine"—The mechanical reasons which make balmy healthy June weather possible in the home when Jack Frost is in his element without—Why the "Sunshine" saves money which other furnaces burn up, and—Why the largest makers of furnaces in the British Empire so amply and so fearlessly guarantee the "Sunshine"—The Understudy of the Sun. Your decision will please us and pay you. If you don't know the McClary agent, write us at our nearest address.

Pure Beer Will Not make you Bilious

We go to Bohemia for hops; one of our partners selects the barley; water is brought from rock 1400 feet under the ground.

Not only is Schlitz—every drop of it—filtered through white wood pulp, but even the air in which it is cooled is filtered.

Before it is offered to you it is aged for months in glass enameled tanks. It will not, it cannot cause biliousness. It will not ferment in your stomach.

Light starts decay even in pure beer. Dark glass gives the best protection against light. The Brown Bottle protects Schlitz purity from the brewery to your glass.

More and more people every year are demanding Schlitz. Why don't you demand this pure beer?
