8.00 p. m.—Song Service and address by Rev. W. B. Williston.  
Remember the dates, August 9, 10 and 11.  
Why not plan to spend one day at least at the conference.  
For further particulars, Phone Main 362 between 9.30 and 12 o'clock.

## TOBACCO HABIT DANGEROUS

says Doctor Connor, formerly of Johns Hopkins hospital. Thousands of men suffering from fatal diseases would be in perfect health today were it not for the deadly drug nicotine. Stop the habit now before it's too late. It's a simple process to rid yourself of the tobacco habit in any form. Just go to any up-to-date drug store and get some Nicotol tablets; take them as directed and lo! the pernicious habit quickly vanishes. Druggists refund the money if they fail. Be sure to read large and interesting announcement by Doctor Connor soon to appear in this paper. It tells of the danger of nicotine poisoning and how to avoid it. In the meantime try Nicotol tablets; you will be surprised at the result.

## CANADIAN NATIONAL RAILWAYS

### EASTERN LINES.

St. John River Bridge Substructure. SEALED TENDERS, addressed to C. B. Brown, Chief Engineer, Montreal, N. B., and marked on the outside, "Tenders for St. John River Bridge," will be received up to 12 o'clock noon on Saturday, August 21st, 1920, for the construction and completion of the substructure for a single track Railway Bridge over the St. John River at Fredericton, N. B.

Plans, specifications and blank form of contract may be seen and tender forms obtained at the following offices: The Chief Engineer, Canadian National Railways, Montreal, N. B. The Division Engineer, Can. National Railways, Tunnel Station, Montreal, Que.

The Station Agent, Canadian National Railways, Fredericton, N. B.

Tenders must be submitted in duplicate on the tender forms supplied for that purpose.

Each Contractor tendering must submit with his tender a security deposit in the form of an accepted cheque on a chartered Bank of Canada and made payable to the "Canadian National Railways" for an amount of Twenty Thousand Dollars (\$20,000.00).

Security deposits will be returned to all unsuccessful tenderers. Security deposit of successful tenderer will be forfeited to the Railway if Contractor refuses to enter into a contract based on his tender when called upon to do so. Contractor's security deposit will be returned on the satisfactory completion of the work.

Plans and specifications will be loaned to bona fide Contractors on the deposit of security amounting to Fifty (\$50.00) Dollars. This security deposit to be in the form of an accepted cheque on any chartered Bank of Canada, made payable to the Canadian National Railways. Security deposit will be refunded on the return of the plans and specifications.

No revision of any tender will be considered if received by the Chief Engineer at Montreal at a date later than 12 o'clock noon, Saturday, August 21st, 1920.

All conditions of the Specifications must be complied with.

The lowest or any tender will not necessarily be accepted.

F. P. BRADY,  
General Manager,  
Eastern Lines.

Montreal, P. Q., July 30th, 1920.

## Common Council Met In Committee

Authority Given Yesterday to Pay a Deficit on Hawthorne Avenue Work—Overhead Crossing Discussed—Taxes from Automobiles.

At the committee meeting of the Common Council held yesterday morning the Commissioner of Water and Sewerage was given authority to pay a deficit of \$600 on the work of installing the Hawthorne avenue work from water maintenance. It was ordered that all bills must be presented on the 6th, 16th and 26th of the month for payment on the 7th, 17th and 27th.

The matter of an overhead or under crossing was discussed, but it was decided to let the matter rest until the City Engineer had prepared an estimate of the cost. The Viasart street matter was again taken up, but laid over for further information.

Commissioner Frink asked for authority to construct three retaining walls, two on City Road and one on Wright street, which was granted. The request of the Union Foundry and Machine Company for permission to erect two cranes was referred back.

Mayor Schofield reported that the amount received in taxes from automobiles owned in the city was \$11,489.99. That from motion picture houses was \$3,668.82.

Commissioner Thornton referred to the condition of the Market Square, and suggested that Commissioners Frink and Jones get together and have the debris removed.

New York has something new in the way of clubs; the Pioneer Women's Athletic Club with a membership of six hundred to start with. The club

## Physician Explains Why He Prescribes Nuxated Iron for Run-Down, Anaemic People

Says It Quickly Increases the Strength and Energy of Men and Brings Roses to the Cheeks of Nervous, Run-down Women

Ask the first hundred strong, healthy looking people you meet to what they owe their strength and energy and see how many reply "Nuxated Iron."

Dr. James Francis Sullivan, formerly Physician of Bellevue Hospital (Outdoor Dept.), of New York and the Westchester County Hospital says "Thousands of nervous, run-down, anaemic people, suffer from iron deficiency but do not know what to take. There is nothing like organic iron—Nuxated Iron—to quickly enrich the blood, and thereby put roses in the cheeks of women and give men increased strength and energy."

Unlike the older forms of iron, Nuxated Iron does not injure the teeth nor upset the stomach, but is readily assimilated and you can quickly recognize its action by a renewed feeling of buoyant health.

No matter what other iron remedies you have used without success if you are not strong or well you owe it to yourself to make the following test:

See how long you can work or how far you can walk without becoming tired; next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained.

To be absolutely sure of getting real

Over Four Million People Annually Are Taking Nuxated Iron

organic iron and not some form of the metallic iron always ask for nuxated iron in its original package. Nuxated Iron will increase the strength, power and endurance of delicate, nervous, run-down people in two weeks in many instances.

Manufacturers' Note: Nuxated Iron, which is recommended above is not a secret remedy but one which is well known to druggists everywhere. Unlike the old inorganic iron products it is easily assimilated and does not injure the teeth, make them black, nor upset the stomach. Each tablet of genuine Nuxated Iron is stamped and the words, Nuxated Iron, are stamped into each bottle, so that the public may be led into accepting inferior substitutes. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed by all good druggists in tablet form only.

## Long Expected Report Presented

Cutting of Lumber on City Lands—No Authority Had Been Given by Council—Number of Recommendations Made.

The long expected report on the cutting of lumber on the city lands was presented to the committee meeting of the common council yesterday. After setting forth that no authority had been given by the council for cutting it makes the following recommendations:

"First—That Messrs. Boyle and Mosher be required to make immediate payment of the value of the lumber cut and that bills be sent to them demanding payment of same, the charge to be \$6 a thousand superficial feet, and, if necessary, that the collection of the amounts named shall be conducted through the office of the city solicitor.

"Second—That all slash and tops left on the ground, the result of this cutting, be disposed of according to legislation enacted by the province of New Brunswick for the prevention of forest fires and the conservation of forest wealth, and that the minister of lands and mines for the province be officially notified that a menace to forest lands and adjoining property exists by reason of the acts of Messrs. Mosher and Boyle.

"Third—That each lot or parcel of land owned by the city of St. John which is in any way an auxiliary to the increase or purity of the water supplied to the inhabitants, shall be playcarded in a conspicuous place giving notice of the area contained and that trespass upon such lots or lands is prohibited.

"Fourth—That as it is clear from the evidence that no patrol or supervision is exercised over the lands owned by the city in the parishes of Simonds and Lancaster, which lands have been acquired for the preservation of the water supply and to prevent the pollution of the same; that the duties of the caretakers at all the reservoirs be extended so that they may personally view these lands and sources of supply at least once in each month and report upon the same to the commissioner of water and sewerage, or such officer as he may appoint to receive the same.

"Fifth—That no wood or lumber shall be cut upon the city's lands for commercial purposes, except in such instances where it is clearly shown by contour plan that the inclination of the land is away from the watershed, or where it is plain that the lumber is being despoiled by the ravages of insectivorous pests, or that in any emergency which may arise from fuel shortage or where the city may desire for the use of its own public services; and all these conditions to be subject to the approval of the common council."

On motion the report was ordered received.

## Provincial Red Cross Meeting

Members Yesterday Heard Addresses Delivered by Dr. James W. Robertson, Prof. J. C. Fitzgerald and Hon. W. F. Roberts.

A meeting of the Provincial Red Cross was held yesterday afternoon at 2.30 o'clock at the Red Cross Depot to meet with Dr. James W. Robertson, the new chairman of the executive of the Canadian Red Cross Society and successor to Lieut. Col. Noel Marshall.

Dr. Robertson told in brief and concise outline, the story of how the Red Cross came to have a peace time policy. During the war the Red Cross did noble work in assisting the government to look after the sick and wounded. In France alone over three thousand hospitals were supplemented by the Red Cross. The government could not have done this work of caring for the sick and wounded without the Red Cross. The lesson of the war is the fact that we are in a run down state as far as public health is concerned. In the last year of the war two million four hundred and twenty-five thousand men were examined and in groups of nine only three were found fit, therefore as the government was responsible for the health of the nation in the times of peace as well as war, why should not the Red Cross assist in the work of restoring public health. The argument is: It is the government's work to look after the public health with the assistance of the Red Cross.

In May, 1919, the League of Red Cross Societies was formed. It consisted of twenty-seven nations, practically all of the civilized world. Their objective is to prevent disease, to meet emergencies in epidemics and conflagration and to assist and strengthen already organized bodies in mental hygiene, child welfare and tubercular diseases.

In Canada a peace time programme consists of continuing of all war service and assisting the public health in schools, sanitation and prevention of all diseases. The great handicap of health campaigns is ignorance and poverty. These can be largely overcome by education through the agency of the Red Cross.

Professor J. C. Fitzgerald of the University of Toronto was then introduced to the meeting and spoke of the necessary apportionment that should be made in each country for the very important matter of public health, which affected each and every individual.

The Hon. W. F. Roberts, M. D. then spoke of the public health work which is now being done in this province and hoped that the Red Cross would be of very material assistance.

Dr. MacLennan then moved, and Mrs. M. B. Edwards seconded, a hearty vote of thanks to the three distinguished speakers and asked that copies of the peace time policy programme outlined by Dr. Robertson be sent to all the branches. He also re-
