SATURDAY EVENING, AUG. 1.
Sunday Sacredness.

St. John is a city of churches, but many of the sacred edifices are very poorly attended on Sunday. People, although denied railway trains, get out of town in large numbers, spending the day in the open air instead of in the churches. Some deplore this as wicked on the part of the people who do so, and against the good of the public generally, and others look upon it as a healthy, and physically and spiritually healthy. Some would have every street closed on Sunday, depriving all but the owners of horses of the privilege of driving out. We don't know but that there are people who look upon the running of the ferry boat as an unwholesome practice that ought to be stopped. And then there is another class, a steadily increasing class, that asks trains to run and steamboats to ply on the Sabbath, affording everybody the opportunity of spending the day of rest in the manner most agreeable to himself. It must come to this at last. The doctrine of the sanctity of the Sabbath is believed in, and every day is believed in. The fact of many of those who profess to believe it and live up to it show that they have much more respect for appearances than for the holiness of the day, and the masses are accordingly suspicious of their Sunday teachings. There are hundreds of teachers of men who deplore the Sabbath breaking of the masses, and yet devote a good portion of each Sabbath to pleasure or business themselves. There are men who would lift their hands with holy horror at the issue of a newspaper Sunday morning, who yet would work half the day Sunday morning. If this is not hypocrisy, hypocrisy as bad as that which has organized itself into a party calling itself Reform—what is? We might enumerate hundreds of other instances of similar inconsistencies between preaching and practice, and cite many proofs of the gradual grinding away of the old Sunday doctrines. Some lament over what they regard as the increasing wickedness of the world, and others rejoice that the fetters of a superstitious doctrine are giving way before the God-given instincts of humanity. We record the facts simply as a matter of news.

The Quebec Government is sinking fast, and the party that supports it will sink with it unless new men are placed in the Cabinet at once. The Government deserves to be impeached Monday morning. Calvin Church Meeting.
A large congregation assembled in Calvin Church last evening. The meeting was opened by Dr. Maclellan, after which J. G. Forbes, Esq., was called to the chair. The first speaker was the church clerk, the Rev. Dr. Irvine. He spoke of the necessity of increased exertion in the cause of religion, and the necessity for each to do his share. He referred to the debt which burdens the church, and urged that at once a liberal subscription be made to pay it off. The next speaker was Rev. Dr. Burchard of New York. He spoke of the beauty of the city, and congratulated Dr. Maclellan on being settled over so fine a church and congregation. The only drawback was the debt of \$14,000 which hung over the church. It would be a uphill work for pastor and people until it was paid. The Rev. Mr. Tulley also congratulated the pastor and people of Calvin Church. In closing he asked if any present would do a liberal example by giving \$1000 to assist in clearing off the debt. James Logan, Esq., of Logan, Lindsay & Co., rose and offered to give that amount. Mr. Alex. Stewart subscribed \$1000, Mr. Tufts \$500, Dr. Irvine \$100, Mr. R. McLoughlin \$100, John Boyd, Esq., enclosed in a letter \$100, with regrets at not being able to present, J. G. Forbes, Esq., gave \$100, R. T. Finlay \$100, and a number of others subscribed various amounts. The entire subscription last night footed up \$4910 40. Dr. Maclellan announced that a gentleman in the city had promised to give the last \$500 of the debt. It was proposed to raise \$100 and make Dr. Irvine a life member of the church, on account of his generous subscription. The matter was left in the hands of the ladies. A committee was appointed to solicit still further subscriptions, and the meeting closed with appropriate exercises.

Review in Camp Dufferin—Artillery Competition.
Yesterday afternoon the men encamped on the Barrack Square were reviewed by Lt. Governor and Infantry, presented a fine appearance and performed the various movements very correctly. The 62nd regiment is especially to be commended for its soldierly appearance and marked attention to drill. The men so far as they were the first day that they all came together for battalion drill. Col. Macpherson may be justly proud of the men under his command. After several field movements had been gone through the men were drilled in the Band of the right, the Infantry on the left, with the Governor and field officers in front, Mr. Notman took a photograph of the scene. After inspection the Artillery commenced their competition. The first contest was for Col. Thurgar's Silver Cup and several money prizes, all to become the property of the winning batteries, three rounds to be fired by each battery, time six minutes. In the evening the Band of the 62nd played, and the men had an athletic, literary and musical entertainment in the large hall above the cauteen.

Portland Police.
A case of assault was before the Magistrate this morning. John Wilson charged William Dixon with assaulting him, and Dixon made a counter-charge of the same kind. About a dozen witnesses were examined, and it was proved that Dixon first shook his fist in Wilson's face. The latter, a young and active man, struck out and knocked his opponent down. When on the ground he kicked him about the face and body, and otherwise unnecessarily abused him. The Magistrate, after a patient hearing of the case, and listening to some tall parties, explained the law to the two contending parties. Dixon, as he had provoked the quarrel by shaking his fist in Wilson's face, was fined \$30, and the latter for so seriously beating Dixon was fined \$4. Neither party seemed satisfied with the decision.

Academy of Music Theatre.
Mr. Chas. Loveday took the house by storm last evening in his great role of Sir Anthony Absolute, personating Sheridan's choleric creation in a masterly manner. This is the first change Mr. Loveday has had to show his real strength. He was warmly applauded throughout, and called before the curtain. In the first Miss Noah, Mr. McDowell and Mr. Owen made everybody laugh. Miss Noah's original local scenery, will be given as an afterpiece. Carlotta Le Clercq opens on Monday in "East Lynne."

They will go by special train, leaving about 5 o'clock, and will picnic on Keegan's grounds for the day, returning in the evening. The fare for the trip has been fixed at \$1, which is certainly very low. As usual, no doubt an immense number will avail themselves of this chance to visit the Celestial City.

Henry Lyons was arrested drunk in Union street, Carleton, and also charged with cursing and swearing. "Pay \$6," said the Magistrate, "or 14 days in the cage. The youth will remain for two months in the penitentiary.

Shipping News.
Freights—There is no material change in the freight market this week—business continuing very quiet. The following deal charters are reported: Semantia, 1,000, at \$85, deals, 400, birch, 400, Main-street, India-street, 400, and 400; John Wilbom, 684, at \$85, 3d, and 42s. 6d.—all for Liverpool; Hypatia, 300, Barrow, 85s. deals, 88s. birch; new ship, 600, Glasgow, 85s.; John Good, 342, Wexford, 57s. 6d.; Traveller, 320, La. West India, 50s., cargo delivered.
West India freights very quiet.
Point Lepreau, 9 a. m., Aug. 1.—Wind S. E., strong breeze, with hazy clouds; 1 schooner outward; 3 schooners inward. Dark Bessy arrived at New River yesterday.
Breaking out of the Police Station.
Yesterday a man named Steele was arrested for drunkenness and placed in a cell in the Station. He remained passive for some time, quietly sleeping off the effects of his deep drinking. Awakening he manifested an intention to break out of the cell, and at length determined to make an effort to escape. The windows of his cell were barred with iron, which looked solid enough to resist any attempt at escape. Steele tried and succeeded in wrenching off one of the bars, crawled through the opening, and was free. On an examination this morning it was found that the bar which was supposed to be imbedded some distance in the brick work was inserted just one quarter of an inch, and only required a very slight wrench to displace it. The Magistrate at once sent word to the chairman of the Police Committee of the insecure condition of the Station, in order that this window might be repaired and the others examined. Many who have paid fines will no doubt regret that they did not take French leave in the same way as Steele did. It is necessary that the place should be at once thoroughly examined, and sometimes criminals are confined there charged with very serious offences.

County Court.
The case of Fowler vs. Fowler closed today. The jury, after a short absence, returned a verdict for the plaintiff for \$50. The law points of the case will be argued before Judge Watterson at his Chambers.
Robert Fair vs. James Kirkpatrick, an assessment case, was disposed of yesterday. Verdict, by default, for plaintiff, \$156.35. Harrison & Burbridge for plaintiff.
Auction Sales.
At Chubb's corner, at noon to-day, several lots of land, belonging to the Vanhorn estate, were sold at public auction. A lot in Brittain street was sold to S. Burke for \$450; one in Main street to Elizabeth Vanhorn for \$400; and another, a lot, half an acre more or less, in Fredericton, was sold to Mrs. Vanhorn for \$300, after some lively bidding.
Mills Shut Down.
Several mills round St. John, that have been sawing for Alexander Gibson, have shut down for want of logs. There are plenty of logs above Indiantown for sale, but the owners ask so much for them that manufacturers cannot afford to purchase, owing to the low price of deals and other lumber. Several mill owners, who have good supplies of logs, have expressed themselves as quite careless whether they saw or not.

Another case of burglary was discovered yesterday, the scene being the office of A. L. Palmer, Esq., in Ritchie's Building. Mr. Palmer has been absent for about two weeks, and until yesterday, for over a week, the safe had not been opened. Mr. Philip Palmer, who had charge of the office, had occasion yesterday morning to open the safe, and in looking for the key where it was usually kept, in a small drawer in a desk in the inner office, found it missing. A thorough search was made and no key could be found. A duplicate was procured from Mr. Palmer's house and the safe opened. The loss of the key was then easily understood. Burglars had entered the office, it is supposed with a key of the door, and securing the key, had opened the safe. It was filled with books and papers and contained no money. Inside the safe was a small wrought iron cash box, bound with heavy iron bands and surrounded by the wood work of the safe. Here the robbers expected to find money, so the wood work was torn away and the iron box removed. They were well supplied with good tools, as this iron box, the sides of which are about a quarter of an inch thick, was cut open. It must have been very annoying to them, after the labor expended to open the box, to find no money in it. The box was then thrown back into the safe, several small drawers were forced open, and the contents thrown round. The only thing taken away was a blank check signed by Mr. Palmer. All the papers, broken pieces of wood, &c., were put back, the safe locked, and the key carried away. When the robbery occurred it was not known, but it is supposed to have been a week ago, as the key was then missed from its usual place; but was not searched for. It is also supposed that whoever did the work had been there before, as some small sums of money had been previously missed, and the lock of this inside box was once put out of order in some unknown way. On the last occasion the robbers went prepared to get into the strong box, expecting, no doubt to make a good haul. Mr. Palmer offers a reward for the recovery of the key.

New Building.
D. J. McLaughlin, Esq., has decided to tear down the old building on the corner of German and Princess streets, and erect a handsome brick one instead. The new building will be 45 feet on German and 40 feet on Princess street. Three stories high, with two fine stores, with plate glass fronts, on German street. The plans and specifications were prepared by D. E. Dunham, Esq., architect, and the house will be constructed under his supervision. The contract has been awarded to Mr. C. H. Watson, carpenter, and Mr. P. Halpin, mason. On Monday the work of demolishing the old building will begin.
