Deadline: Monday 5pm

Sink or swim - we'll save you

Early Friday, Feb. 27th, the UNB Lifeguard Team, the Red Eyes, left for Quebec City to compete in the Quebec Provincial Lifeguard Championship which started on Friday and lasted all day Saturday. The events were Endurance Swim, Tow, First Aid, CPR, Pool Situations, and a One on One First Aid Rescue.

The Red eyes came in 3rd place in the Tow which was the only placing that was known when the team left. The unofficial placing was 8th out of 30 teams and the team should be receiving a letter of the official standings. Also, both teams, the Red Eyes and the Black Eyes, competed in Halifax for the Nova Scotia Championship, and the Red Eyes are the Nova Scotia Champions in the First Aid event.

Enthusiasm is running high this week, as UNB prepares to host the 2nd Annual UNB Invitational Lifeguard Competition. These events will get underway Friday evening as teams from the Maritimes and possibly Quebec and Ontario compete. The public is invited to come to the Sir Max Aitken (SMA) Pool to watch these lifeguards in action who do

more than "just swim" and "watch". Also, come and participate in a free swim on Saturday 12:30 pm to 5:00 pm. Come and cheer on your two teams - the Red Eyes and the Black Eyes.

The competition is being held throughout the Lady Beaverbrook Gym during the whole day. The different types of events that are being judged are:

- Priority Assessment
- First Aid
- Water Situation
- Deep Water Recovery
- Shallow Water Spinal
- Team Endurance Swim

Come out, join in the fun, see lifeguards in action and cheer on the two teams that are representing UNB.

At the pool, tonight (Friday), there will be a free swim from 8:00 - 9:30, and it will be a fun night for all ages. There will be different activities being organized plus a scuba demonstration, and possibly a diving demonstration. The UNB Lifeguard Team will be on hand to demonstrate some of their skills.

All afternoon, the different

L-R Front Row -
Ian MacKenzie,
Laura McMahon,
Steve Power,
Kim Crossman,
Peter Nixon,
Daryl Thompson.

Back Row -
Andrea Gaudet,
Francois Bedard,
Jill Reader

teams will be in charge of the pool and may clear the pool if such need arises. This means that you may have to get in and out of the pool for most teams. If you have ever wondered what the UNB Lifeguard Team, or lifeguards in general do, or what kind of training they have, come out and watch and participate. This would be the perfect chance to see lifeguards in action.

Do not miss out on the 50-50 draw which is being held on

Sunday, March 15th, to support the local teams. There are still a few tickets available - watch for a booth today in the SUB lobby or pick some up at the pool office all day Saturday. The prize is money, up to \$200. The proceeds are going to help send the team to the National Lifeguard Competition being held in Burlington, Ontario on May 6-10. We are planning to show the rest of the country the kind of professionals that attend and work at UNB.

The teams consist of The Black Eyes - François Bedard, Andrea Gaudet, Ian MacKenzie, and Jill Reader. The Red Eyes - Kim Crossman, Laura McMahon, Peter Nixon, and Daryl Thompson. The coach for both teams is Steve Power.

The teams would like to thank everyone for their support throughout the year and are looking forward to seeing and serving you at the Sir Max Aitken Pool or at the LBR Pool.

MOOSEHEAD

INTRAMURAL PERSONNEL FOR 1987-88

As the 1986-87 intramural season rapidly draws to a close, it is time to begin planning for next year. The last several years have seen a tremendous growth in the structured intramural program. This growth has been possible only because of the dedicated work of many student volunteers each year. These students, serving as coordinators, convenors, referees-in-chief, officials, and sport representatives, have been instrumental in providing a large, diversified program of activities in men's, women's, and co-ed events. The success of the past has necessitated some changes for the future. In order to ensure the continued growth and development of the intramural program and to accommodate

changes in the student body, some revisions are planned with respect to the student personnel in the intramural program.

The Intramural Program is looking for a few individuals who are interested in becoming very involved in the organization and administration of the program next year. Working as a team, these students will be responsible for the management of all intramural sports activities. Their duties will include such activities as promotion, scheduling, communication, supervision, evaluation, and record keeping. This is an excellent opportunity for interested students to gain some valuable contribution to their fellow students. Referees-in-chief and officials will also be hired to handle particular sports.

Anyone interested in becoming involved in the Intramural Program should complete an application form in the Recreation Office, Room A121 LB Gym. The office is open between 10:00 am and 2:00 pm. If you wish further information or have any comments or suggestions, please contact the Physical Recreation and Intramural Coordinator, Shirley Cleave.

The Fredericton/UNB Squash Club has been a vital and influential force in the development of Squash at UNB and in New Brunswick generally. However, it is now time to consider reorganizing the club to more directly serve the needs and interests of Squash enthusiasts in the university community. A general organizational meeting will be held on Monday, March 23 at

7:00 pm in the Lounge of the LB Gym to discuss the future of the club on campus. All interested individuals are invited to attend. There will be an opportunity to play squash after the meeting.

Scuba Club

The UNB/ StU Scuba Club regrets to announce it's first (sort of) diving accident. This past week-end on a very successful Black Rock Boat Dive, we lost our mascot, Scuba Gumby. He was last seen surrounded by a pack of vicious killer scallops in about 40 feet of water.

When his loss was discovered back on the boat, a massive search by the divers who went, was sent off but to no avail. They checked everywhere, but in the end,

with air running low, all hope was lost. The search was called off and Scuba Gumby was presumed lost.

But seriously folks, it was a great day, and a fantastic dive. With 20 people going and all enjoying the beautiful weather, warm (?) water, and great dive site. I mean, where else can you on one dive play in caves, tunnels, ledges and soon see real live cannons in 30 feet of water, and see some of the most abundant and colorful sea life in the Bay of Fundy (the North Atlantic Coast even!!) Then pull up anchor, and cruise over to the nearest scallop bed and voila, instant seafood supper. Not to mention catching a few rays on deck between dives. I can hardly wait until the next time we go, which may be sometime in May.
