OFFICE OF  
THE VICE PRESIDENT

June 4, 1935.

Dear Senator Meighen:

On my return to Toronto this morning, I desire to express to you my very sincere appreciation for the kindness which you extended to me while in Ottawa.

I very much appreciate the opportunity of reviewing various matters of interest with you. The luncheon at which Dr. Webster was present, also Mr. Evans, was particularly delightful. It was very interesting to have your reflections on certain aspects of literature.

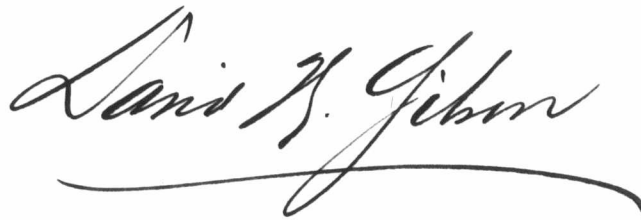

I asked our Book Department to mail to me at Ottawa the two volumes of "Life and Letters of Viscount Esher". Unfortunately these did not arrive in time for me to leave them at your office. I am giving instructions, however, to have these sent up to you. Kindly accept them with my compliments. I trust you will find these letters interesting. To me they were exceptionally so.

Before leaving Ottawa, I received from Toronto some fresh pages; this led me to leave with you a complete new memorandum. I can assure you your reflections were much appreciated, and I will hope for further opportunity to enlarge upon points in connection with this document which covers considerable ground, and particularly that portion which we discussed together rather fully.

With very kind regards,

Yours sincerely,

Senator Arthur Meighen,  
OTTAWA, Ontario.
