

B 16. Received.....At.....

Dear Sir.

In regards to the evidence given by Chief Harry Joe to the Reserve at N. Westminster I am to state that while my father was living he was going to build or settle on the place. He had every thing ready to put up a building & got sick & died on the place at Poplar Island that's where he is buried therefore it shows an evidence there, that the said Reserve is entirely in our hands, because my father is buried at the place. My father was well known among white people & I can get some them to prove it. & as well as among Indians.

Yours truly,
George Swanaset
