**BELL BROS., Bradford, Ont.**

## GOSSIP.

Mr. John Boyes, Jr., Churchill Ont., in ordering a change of advertisement, writes: "Since your representative was here, I have added to my Berkshire herd, Ashgrove Lass, Maple Lodge Lizzie 10th, Concord Pride (second-prize sow, under a year, at Canadian National), and Castle Premier (first-prize boar, under six months old, Canadian National Exhibition). With what I had before and the above mentioned, my herd stands second to none. My herd never lost a red ribbon at the fairs this fall."

## GOOD JERSEY MILK YIELDS.

In a recent review of the Tring Park herd of Jerseys belonging to Lord Rothschild, published in the London Livestock Journal, is a statement that Joyful, one of his cows, had given an average of 9028 lbs. per year for six years, and now comes the statement of Mr. J. H. Smith-Barry, in the same paper, that his Jersey cow, Nellie Beresford, by Golden Lad, has yielded an average of 9039 lbs. in the last six years, her best record being made in 1902, when her yield for the year was 12,582 lbs.

Mr. J. A. Lattimer writes as follows regarding the Shorthorn part of the late sale, at Woodstock, held by Messrs. Innes & Lattimer, on Oct. 25th: "Of thirty animals catalogued, seventeen were sold; a few were not offered. Balance were withdrawn on unsatisfactory bids, but none of these had been priced at \$1,000 previously. The seventeen sold for \$1,425, an average of nearly \$84 per head, many of them being under twelve months old, and the best of our cattle not being catalogued, prices must be considered satisfactory. The cattle were bred by the proprietors, and offered in field condition, with no special fitting; but, notwithstanding this, they would commend themselves to anyone looking for good, clean stuff, not a reacted or frail-looking one in the lot. We note, with satisfaction, that breeders are careful what they buy, and that nice breeding coupled with an animal which is neither fish, flesh nor fowl from a Shorthorn point of view is not wanted at all."

AT THIS YEAR'S INTERNATIONAL LIVE-STOCK EXPOSITION, DECEMBER 1 TO 8, CHICAGO.

In addition to the practical demonstrations of the breeders' and feeders' art in cattle, horses, swine and sheep on exhibition in single groups and carload displays, we are to have this year meetings of breed associations, where the foremost breeders and feeders of our day are to discuss their work. Papers of practical value to the agriculturist and live-stock men of America, on subjects of immediate interest that now confront our people, will be read and discussed.

On Monday night, December 3rd, the annual meeting of the International Exposition Association is to be held.

On Tuesday night, the following breed associations meet:

Percheron Society of America; American Shire Horse Association; American Cotswold Sheep Society; American Oxford Down Association; American Suffolk Flock Registry; American Clydesdale Horse Association; American Southdown Breeders' Association.

On Wednesday evening: The American Shorthorn Breeders' Association; The American Aberdeen-Angus Association; The American Galloway Breeders' Association; The American Berkshire Association; and The Hampshire Down Breeders' Association, will hold their annual meetings.

On Thursday Afternoon the American Red Polled Cattle Club meets, and in the evening The American Poland-China Breeders' Association and the Yorkshire Swine Association meet.

The hour, room and other particulars concerning each of these meetings will be posted on the bulletin boards of the show grounds during the week. Everyone interested in live stock of any kind should make an effort to attend these meetings.

## Making Weight

The greatest weight at the least cost is the aim of the business farmer. It is a fact that the organs of digestion are accountable for every pound of weight and every ounce of milk produced. The question of increasing digestion was the aim of Dr. Hess when he formulated this famous prescription. From his experience, and such medical authorities as Professors Winslow, Quitman and Finlay Dun, he learned that bitter tonics improve digestion, that iron was the greatest blood and tissue builder, that the nitrates were essential to heavily fed animals in throwing off the poisonous material from the system.

## DR HESS STOCK FOOD

the prescription of Dr. Hess (M. D., D. V. S.) contains the above ingredients, and will prepare animals for market in sufficiently less time to pay for itself many times over, besides curing minor stock ailments. Sold on a written guarantee.

100 lbs. \$7.00 25 lb. pail, \$2.00  
Smaller quantities at a slight advance. Duty paid.

Where Dr. Hess Stock Food differs in particular is in the dose—it's small and fed but twice a day, which proves it has the most digestive strength to the pound. Our Government recognizes Dr. Hess Stock Food as a medicinal tonic, and this paper is back of the guarantee.

If your dealer cannot supply you, we will.

**DR. HESS & CLARK, Ashland, Ohio, U.S.A.**  
Also manufacturers of Dr. Hess Poultry Pan-a-c-e-a and Instant Loose Kitten.
