The Canadian Gazette announces the incorporation of the Canadian Consolidated Oil Company, with a capital of \$15,000,000. The companies merged in the new concern are the Grant Hamilton Oil Company, Toronto; the Canadian Oil Company, the Canadian Consolidated Oil Company and the Sun Oil Manufacturing Company, Hamilton. The absorption of other Canadian oil companies is contemplated.

For a copy of Vol. VI. of the Holstein-Friesian Herdbook of Canada, we are indebted to the Secretary, G. W. Clemons, St. George, Ont. In it are included all bulls from 2252 to 2733 and cows from 3518 to 4285. It is well printed, neatly bound, and contains a copy of the charter, constitution and by-laws of the Association.

At the Pan-American Congress, recently held in Washington, eighty-six bishops of the Protestant Episcopal church met in conclave. All these bishops ranged themselves in a neat group on the street one day, and a photographer made a picture of them. Bishop Potter stood in the rear of the group. Near him, looking on calmly, stood two newsboys. The prelate heard one of the newsboys say: "Hey, Jimmie, dis meetin' uv all dese parsons, wat's it fur?" The other boy replied: "Oh, dey gits togedder wunst a year like this to trade sermons."

TRADE NOTES.

TORONTO COMPANY LOCATES IN WINNIPEG.—Among the Eastern manufacturing concerns becoming established in Winnipeg, Westerners will be glad to welcome the Ontario Wind Engine and Pump Company. This old and reliable concern has purchased a lot on the corner of Logan and Nena streets, and a large warehouse will be erected as soon as possible. In the meantime, temporary quarters have been secured with the Manitoba Cream Separator Company, 187 Lombard St., where the interests of the trade will receive the fullest attention under the direction of Jas. M. Reid, the manager.

MANGE is rampant in some districts of the ranch country. Its victims dot the prairie, and the losses are already serious to some ranchmen. But the end is not yet. Unless vigorous measures are taken to stamp it out, the sad story from the cattle country is only beginning. Long and bitter experience has taught the United States veterinary authorities that dipping is the only effective method of stamping out this dread disease. The chief essentials in performing this work are a dipping tank and a good dip. In another column will be found the announcement of the West Disinfectant Company, 14 E. 39th St., New York City, concerning their Chloro-Naphtholeum dip and live-stock disinfectant. This dip is prepared in concentrated form; is easy of application; very effective, and cheap. It also destroys lice and the organisms of itch. If you need a good dip, try it.
