I HAVE submitted to analysis the Water from the Bource of St. Leon, and find it to be strongly saline. It contains chloride of sodium in large quantity, with magnesis and lime, partly as actionates, dissolved by the excess of carbonic acid, and partly as chlorids. Lake most of the other saline waters of the country, it contains bromine and iodine; in addition to which, I have detect-ed, in small quantities, salis of barytes and strong varea-nes. In its general characters, Al is alided to the Bources of Caxton, Plantagenet, and the Intermittent of Cale-donia. We are about to write a volunitary statement of a cure recently ef-fected by Dr. Whatrs Baiaan of Wild Cherry, which the Editor of this paper is willing to give under his own sig-nature. We make it no bono publico, as we have never sens the proprietor of this invasionable medicine, and know nothing at all about him. About four weeksames one of the compositors in this office was suffering so hadly from a cough, that he was unable to age on pinks, and to weak to stand at his case. He became very paise and this, and gave symptomes of alling a victim to guick consemption. We recommended to him various medicines which had no effect. Fundly we gave him one bottls of WISTAR® BALSAM OF WILD CHERRY; it afforded bin imme-diate relief, and he is now a well man, gaining in firsh-with a ruddy complexion, and not the slightest symptom of a cough. These are fasts, and further particulars may be learued at this office. We should add that the cough was accompanied by profuse spitting of blood. y, New JOF posite the Steamboat Landing Place.) P.
