COAKER ENGINES

are THE BEST Motor Engines for Fishermen

W. F. Coaker, Esq., M.H.A.,
President Fishermen's Union
Trading Company Limited.

Dear Sir,—

Last Spring I purchased a 6 h.p. COAKER Engine which has given me every satisfaction.

I certainly consider it the best Motor Engine for fishermen to-day on the local market.

With my trap boat I am able to make seven knots an hour. Last Summer I had my trap set four miles away and I made two trips daily with three dories in tow, and never had the slightest mishap.

I would advise any fisherman who requires an Engine that can be operated easily and give good results to buy a 6 h.p. COAKER Engine.

Yours truly,

WALTER HILLIER.

Point-aux-Gaul, Lamaline,
April 1915.

LeMoine Bros., Sydney, Get \$15,248 from the Agricultural Board for Pigs, Bulls & Sheep

Scrub Animals Bought in Nova Scotia at Butcher's Figures Sold to Newfoundland Government for Breeders—What People Believed was Pure Breed Stock Now Shown to be Cheap Scrub Animals

The people believed that Morris was sincere in his action re Agricultural Improvement and when he started this farce six years ago, a speech made by Morris in the House which promised an agricultural policy that would reach to every home in the Colony, was scattered broadcast and some people believed something never before heard of would be attempted. Those that doubted such were not deceived for \$250,000 has been wasted, thrown away during the past six years and there is not a copper penny's worth remaining to show for what this \$250,000 was spent. The bulls perished or were shot. The rams were worn out in most cases and perished without leaving much increase. The pigs were inferior and have made but little improvement on the old stock; and potatoes that cost the Colony \$6 per barrel are considered unsuitable for our soil and manure and have been discarded for the native potatoes that thrive in the Country 50 years ago.

Below we publish an account of LeMoine Bros. of Sydney who scooped up nearly \$16,000 for scrub cattle, sheep and pigs during the fall of the elections. The account proves that this \$16,000 was spent at Sydney for cattle, sheep and pigs that were distributed throughout the Colony as pure-bred, and people believed that the Societies were endeavoring to improve the breed. They were deliberately deceived, for all the stock had at Sydney were no better than the commonest in the Colony, for the animals were purchased from anyone at any price, and most of the purchases were animals intended for the butcher.

It is no wonder the animals were useless for breeding purposes. It is no wonder they have all passed through the butcher's hands since. One item is 418 rams at \$7.65. Why any fool would know that \$7.65 was only a butcher's price and such a figure could not secure animals that were fit for breeding purposes.

The Government did import a few good animals the first year, they started this farce, but in 1913 they simply bought the worse scrub animals available in Cape Breton in order to secure as many votes as possible as they believed every ram and pig meant a vote or two and they sacrificed every other object to that of securing votes for so called breeding animals to improve the stock in Newfoundland.

Joe Downey was the man who went to Sydney and purchased those animals. He is the villain that the people must hold responsible for this huge outrage and deception. He knows about as much about live stock as he does about telling the truth. Every one knows how true his utterances are, and every one will now know what sort of a live stock expert he is. It would have been better for the Colony had Morris given Downey and Devereaux \$2000 a year to smoke their pipes, and do nothing, than to employ them at work they were absolutely ignorant of and give them \$250,000 to waste in six years while not one copper has been expended to encourage the fishermen in any way as fishermen.

Every lamb cost \$7.65. Every old sheep cost \$7.65. Why \$7.65.

Bulls were purchased at \$68 and \$90. Why any sort of a good animal would be worth \$150, if imported as pure bred. Read the items fishermen friends and realize what a hoax was perpetrated upon the Colony in 1913 to buy up votes and bluff the people. Fancy \$250,000 thrown away for such an outrage, while every fishing harbor in the Colony is crying out for bait depots. Had this \$250,000 been spent erecting bait depots, the Colony would now be deriving an income of \$1,000,000 from the expenditure. This is an index of how your money has gone under Morris misrule. Your eyes are open now, after the rascals' deeds have become visible and exposed, but how was it, you men of Bay de Verde, Carbonear, Hr. Grace, Fortune, Burgeo, Burin and St. George's that you did not see more plainly in 1913, when the Liberal-Union Party sought your support to assassinate Graballism in our land. You have opened your eyes when too late, for all of value in the Colony has been given away and those who deceived you in 1913, have well filled bags of gold securely hidden and when you drive them to Hong Kong in 1917, they will laugh you to scorn, for they will say to H— with you all, we have had our 8 years' grabbing and are well provided for, while you are beggars and serfs and ain't it good enough for you, for how was it you were caught asleep; did you not have a taste of Toryism and Graballism in days past and what did those days bring you but starvation and the curse of God.

God pity poor Terra Nova, for within her borders there remains very few patriots who are ready to toil for her uplifting or to emancipate her army of toilers. Let Morris finish his work said Patsy in 1913. Who will now doubt the meaning of Patsy's words, for every mother's son of us well know to-day how Morris is finishing his work. Is there 1000 men out of the 62,000 electors who do anything now but curse him and his villainous brood.

Finish his work. Yes, Patsy, well you and the badly taken in electors of Hr. Grace, Carbonear, Bay de Verde, St. John's East, Burin, Fortune, Burgeo and Placentia know to-day that Morris is finishing his work and very few would be sorry to-day if he was finished himself. Never was a people so deceived before, and never did a Country suffer so severely for such a deception.

\$250,000 in six years for what? Ask yourselves. Who have benefited but Downey and Devereaux, who have been enabled to scoop in some \$10,000 during the six years because Morris had to provide jobs for them—but it can't happen again. Just read the items of this \$16,000 grab for butcher animals.
