RAILWAY BOARD HERE TO-DAY

An Array of Counsel Present, and Enough Railway Maps

To Pave Colborne Street-Chairman Drayton Announces

that Private Interests will be Considered First-

Some Hot Clashes Between Opposing Counsel.

The Court Honse was the scene to-day of a crowd of deeply-interested and, in some cases

excited people. Lawyers and representatives of railroad interests, and civic interests, and private

interests, and engineers and sub-engineers, crowded round Chairman Drayton and his two asso-

ciates, until they looked as if they were the centre of a suffragette attack, although the demonstra-

tors were not dressed after that manner. As for maps and profiles, there were enough of them on

interesting statements, both for and against the proposed route, were adduced.

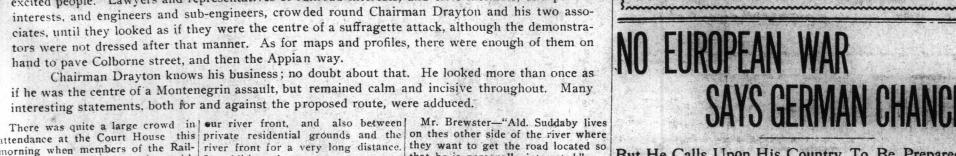

Chairman Drayton knows his business; no doubt about that. He looked more than once as

BRANTFORD, CANADA, MONDAY, APRIL 7, 1913

1100 Men Will Get Jobs on New Railway

Secord & Son, who have the contract for all the concrete work in connection with the Lake Erie & Northern Railway, expect to employ 200 men. The moment the route difficulty is settled, contractors will put some 900 men at work, making a total of 1,100 in all. Then there will be in addition contractors, sub-contractors, engineers, foremen, clerks of work, and so on. This, together with the large number of men to be employed on the new public building, should make Brantford still further boom, all right.

It might be mentioned that it is the intention to build the road simultaneously in sections, so that it will be all completed at the same time, from Port Dover, via Brantford, to Galt. The total outlay will be enormous, as the plans call for
