

A RAILWAY SUGGESTION.

We would suggest to Superintendent Laurie, if it is not against the rules of the Railway, that some idea of what the summer time table on the I. C. Railway is likely to be, should be submitted to the Mayor and Council of the town, so that they might suggest improvements, if any were needed, looking towards the interests of the town. We understand that a proof-sheet used to be submitted to the president of the Board of Trade, before that body ceased to exist. Now, since the Council is the only representative body in the town, we think they might take time enough to look into this matter, if the Railway authorities will only take them into their confidence a little. Time tables are often arranged much to the disadvantage of this town, and after they are once issued it is next to impossible to have them altered. Now is the time, when it is being made up, to look into this matter. The Board of Trade of Truro has several times lately looked to their interest in the running of trains, and by last Tuesday's *Truro News* we notice that a delegation waited on Superintendent Price and requested certain changes in the proposed summer time table. By this we understand that the proof sheets have been submitted to them for their consideration. We hope that Superintendent Laurie, with his usual desire to forward the interests of the town, will try and have the summer arrangement submitted to the Town Council for their consideration, before it is too late. We believe the Council will be very anxious to receive, and if any communications will then be received, a committee could be appointed to act on them.

"NATIONAL PROTECTION."

Taking as his text, Dent, xlii & Rev. Mr. Croft, last Sunday evening, showed how the rules and regulations laid down in the Mosaic Economy were wonderfully admirably suited to people like the children of Israel, a people that had been in bondage for over 430 years, then forty years in the wilderness, and after that taking possession of a land that had been promised to their fathers. In a climate like that of Syria, Palestine or Egypt, and amid customs and manners peculiar to Orientals, battlements or guards around the roofs of the houses were absolutely necessary to save lives and prevent accidents. In like manner nations and individuals required battlements. Facts and figures were given in regard to the havoc and destruction caused by strong drink in this Canada of ours. It would be better for the people of Canada, better socially, politically and morally, to have a battlement of national protection on all sides, that would prevent or help to prevent any further havoc or destruction being wrought amongst our people, while the millions that are now annually wasted—waste that would be saved and applied to better and more practical purposes.

Relief in Six Hours.—Distressing Kidney and Bladder diseases relieved in six hours by the "New Glasgow Society's" remedy. This new remedy is a great surprise and natural to physicians on account of its exceeding promptness in relieving pain in the bladder, kidneys, back and even in the urinary passages of male or female. It relieves retention of water and causes passing immediately. If you want quick relief and cure this is your remedy. Sold by A. C. Bell, drugist, New Glasgow—Oct. 9, 84.

HE DECEIVED THE PEOPLE.

AND IS IN THE PENITENTIARY FOR A YEAR. (From *The Lowell Morning Citizen*.) At Atlantic, Iowa, on May 7, C. M. Ailor, alias "Cip," Ailor was convicted of deceiving the people by selling worthless compounds, which he represented to be Hood's Sarsaparilla, and was sentenced by Judge Mayo to one year at hard labor in the Iowa State Penitentiary. Ailor's methods were those of a travelling fakir. He has been travelling through Missouri, Nebraska and Iowa, making stands of a day or more in each town, representing himself as an agent under salary from C. I. Hood & Co., and selling his concoction at one dollar or fifty cents per bottle, giving with each sale various other worthless articles. Citizens of Griswold, Iowa, became suspicious and ascertaining from a druggist that Ailor's compound was not Hood's Sarsaparilla but mere dyed colored water had him arrested. Three indictments were found against him, the jury convicted him after only thirty minutes deliberation, and he was sentenced as above. This incident suggests the wisdom of purchasing medicines only of reputable dealers whom you know. Hood's Sarsaparilla never sold by peddlers, and such offering it should be at once reported to the authorities or to C. I. Hood & Co., Lowell, Mass.

Fr. Phelan, of St. Louis, the famous priest who lately made such a hit, and a Christian charge against the society of Christian Endeavour, has been repudiated by a number of the R. C. clergy. Rev. James C. Byrne, president of St. Thomas' Catholic College, of St. Paul, Minn., says:—"It is high time that some one should repudiate Phelanism, and therefore, I say, I do not defend him or his utterance, nor his style, nor his manners, nor his spirit, nor am I aware of anybody in this neighborhood who has any sympathy with the whole or any fraction of his characteristic methods."

DECLINE IN NOVA SCOTIA IRON

On Tuesday last agents in Montreal for the Nova Scotia furnaces notified the trade that prices on Canadian pig iron were reduced. The decline is a radical one, being equal to 75c to \$1 per ton, and practically means that American iron is to be shut out of the Eastern Canadian markets if the Canadian iron masters can do so. Up to the time of this announcement Nova Scotia pig iron was selling in Montreal at \$16.90 to \$17 per ton, but now the range is \$15.75 to \$16.25. It is understood also that the Nova Scotia furnaces are not content with the Montreal market alone, but intend to make a strong effort to strengthen their foothold in Western Ontario, or as far west as Toronto at any rate.—*Hardware.*
