THE SPRING TONIC FOR PALE, THIN PEOPLE

If You Want to Gain in Weight and Recover Your Appetite, Energy and Ambition, Try This Well Known Remedy.

With the passing of winter many people feel weak, depressed and easily tired. The body lacks that vital force and energy which pure blood alone can give. In a word, while not exactly sick, the indoor life of winter has left its mark upon them, and a blood-building, nerve-storing tonic is needed to give renewed health and energy. Dr. Williams' Pink Pills are an all-year-round blood builder and nerve tonic, but they are especially useful in the spring. Every dose helps to make new, rich, red blood, and with this new blood returning strength, cheerfulness and good health quickly follows.

If you are pale and sallow, easily tired, or breathless at the least exertion; if your complexion is poor, or if you are troubled with pimples or eruptions, Dr. Williams' Pink Pills are just what you need to put you right. If you have twinges of rheumatism, are subject to headaches or backaches, if you are irritable or nervous, if your sleep does not refresh you, or your appetite is poor, you need the treatment which Dr. Williams' Pink Pills alone can give—you need the new blood, new health and new energy this medicine always brings.

A COMPLETE WRECK.

Mrs. C. Forsythe, R. R. No. 2, Fisherville, Ont., says: "At the age of fourteen my daughter Viola was feeling very much run down in the spring. Then she was attacked with whooping cough which left her a complete wreck. She had no appetite, could not sleep well nights and was subject to chills which sometimes kept her in bed for the day. She was doctoring steadily, but not apparently getting the least benefit, and I naturally grew very anxious. One of my neighbors suggested giving her Dr. Williams' Pink Pills, and I got a box. When she began using the pills she weighed only 87 pounds. Before the box was all gone I sent and got six more boxes, and under their use she constantly grew stronger. Her appetite improved, the color came back to her cheeks, she could sleep well, and feels and looks like a different person, and with all this while using the pills she gained 20 pounds in weight."

A SALLOW COMPLEXION.

Miss Gladys Marshall, Chatham, Ont., says: "I suffered from nervousness and my blood was in a very poor condition. My face broke out in pimples and my complexion was very sailow. I took doctors' medicine but without beneficial results. I was feeling much discouraged when a friend recommended Dr. Williams' Pink Pills. I used to find that my complexion had become quite clear, pimples had disappeared, my nerves were strengthened and my old-time health and ambition returned. I shall always have a good word to say for Dr. Williams' I shall always have a

Jesus Séts Men Free.—Mark 7, 1-37.
Commentary.—I. Jesus answers His critics (vs. 1-23). The scribes and Pharisees from Jerusalem were so eager to find occasion to discredit and condemn Jesus, that they came to Capernaum to seek an opportunity to do this. Tacy found His disciples disregarding Jewish traditions in not washing their hards before eating. The burdens which were imposed upon the Jews by these traditions were heavy, aid Jesus showed the scribes and Pharisees that while they were violating the law which God had given them. He dealt severely with them, characterizing them as hypocrites, of whom Isaiah had said, "This poople honoreth me with a failure to honor and provide for their parents. The traditious allowed them to dedicate themselves and their goods to sacred uses and in so doing find an excuse for not carring for their failure to teach the people the truth as set forth in the law, and further for their leading them whiched ways. Jesus used the word which designates the house dog, or pet dog, as distinguished from the world dogs that abounded in Syria. The woman was not to be repulsed even by being classical with dogs. She saw a ray of hone not to be repulsed even by being classed with dogs. She saw a ray of hope in the words of Jesus. "Let the children first be filled," for there might be something left for the dogs that were accustomed to run about the table. 28. yes, Lord—I admit all you say. The dogs were not denied this privilege, nor should she, Gentile dog as she was, be denied the crumb she craved. 29. for this saying—In what she said this Gentile woman expressed both desire and faith. Put his fingers into his ears— Fre quently Jesus touched those whom he healed, perhaps to strengthen their faith and to show that power came to them through himself. He touched the ear of the deaf man since his affliction was there, and he touched the tongue that it might be made to perform its proper function. 34. PRACTICAL SURVEY.

Topic.-Christian Liberty. I. Through faith.

II. Found in Christ. 1. Through faith. In this lesson we iearn that the most astonishing and acceptable faith may be exercised by the most unlikely persons. On this occasion Jesus had left his own country and people, and sought retirement among the Gentiles. The boundless compassion of the Son of God accounts for the fact that he could not be hid The heatnen woman in an il lustration of the great drawing that exists between the Savior soul that needs and seeks him. We may safely say that his sole purpose in going there was to minister to that sufferer, and to crown her faith and make her an example to those who stood by, as well as to future genera-tions. She had much against her in her c'rcumstances. In the eyes of the Jews she belonged to the most hated of all Gentle races. She received lit-tie countenance from Christ's disciples. They desired him to send her away, but it was not from them that she sought help. Though a heathen in religion and an alien in race she creditwhat she had heard of Jesus. Her faith overcame natural prejudice in herself and the fear of its influence in steam engine to the aeroplane.

others. There are many striking features in the character of this woman, her motherly care, her energy, humility and pleading. She had a deep sorrow spurring her on to make every exertion. She felt her need and the true character of her affliction. Jesus tried her fetth her perfect silence, by tried her faith by perfect silence, by seeming indifference and by apparent reproach, but she could not be defeated because she would not doubt. She turned that which seemed most against her into an argument in her favor. She granted to the Jews the dirst place, and counted herself next, thus exalting Jesus as the Savior of all. She most firmly believed Christ to be the Lord, able to work a miracle on her daughter. It meant a very great thing to have her daughter de-livered, though to Christ it was a mere rumb, as compared with his supply of power. Observe the growth of her faith.

faith.

II. Found in Ghrist. The faith of the Canaanitish woman triumphed over all disappointments and attained her desire. She asked for no change in the divine order of salvation, but a fulfilment of it. Her patience proved the greatness of her faith and her hu-mility was companion to her patience. Nothing conquers majesty like humanity. All that was apparently impossible to reason became facts to her faith in its persistent exercise. To a won-derful degree she entered into the meaning of Christianity. The earnestness of that heatehn woman rebuked ness of that neatenn woman results the ignorance and ingratitude of the flews. By it the disciples were educated for their missionary work, and made to see how valuable a soul is. She came asking a mercy for herself and went away carrying it to others. she had admitted that she could ask but little, yet believingly dared to pronounce that little certain. At he height of her faith he granted her full request. Her faith was owned, commended and honored by the author of it. Her humility had gone deep and her faith rose high. She dis-played the elements of prevailing prayer in her humility, importunity and faith.

Sores Fice Before It.—There are, many who have been afflicted with sores and have driven them away with Dr. Thomas' Eclectric Oil, which acts like magic. All similarly troubled should lose no time in applying this splendid remedy, as there is nothing like it to be had. It is cheap, but its power is in no way expressed by its low price. low price.

N the evening, when the day's work is done, men like to stroll over to the village store to discuss the war, politics, or whatever may be of local interest.

It is under these circumstances that the health of the family is referred to and experiences are interchangel in regard to medicines that have proven particularly effective.

After Dr. Chase had introduced his nedicines to the druggists he found that many who wrote to him for treatment lived many miles from doctor or druggist, and had to depend on the country store for their medicines. Thus it came about that Dr. Chase's medicines. cines were placed in general stores, and you can now obtain them wherever medicines are sold.
