I wonder if that Black Diamond express is a coal train.

The school children put on a thrilling number that was not on the program.

I wonder if there are any men in Chatham who would sooner die than saw wood?

He calls the baby "Sweetheart," because it always keeps him up at night.

I guess the reason for that accident was that the Black Diamond express wouldn't carry Nation.

I believe the Grit machine is making a noble effort to capture the council of this good old Tory town.

That Young Men's club house ought to be a success financially, seeing that it is going to be built on a bank.

I think I will make the coal dealers and the municipal wood dealers feel good by predicting a mild winter.

It is not true that a life insurance company refused to insure a successful fire insurance agent "because he took too many risks."

The School Board are a special industrial committee. They have secured a new business for Chatham. It is a canning factory.

Citizens are excited that the Y. M. C. Club has nothing to do with painting, although Y. M. C. does stand for young men artists.

Every champion yet has met one better. The Black Diamond express did for Currie Nation what a hundred saloon keepers couldn't do.

I suppose that the School Board think that since they have secured that apple canning factory that they will be able to sauce the council.

Those New Yorkers know how to get rid of their surplus population. They kill them off by allowing their election fireworks to prematurely explode.

There are a few useless residents of this city who would have been better off had they had a course in manual training when they went to school.

The fanatic Doukhobors are seeking a warmer climate. Some people I know, aren't seeking a warmer climate, but they will get there just the same.

I have heard about people treading on thin ice but, for coyness, I consider the march of the Doukhobors over the frosty prairie the more unpleasant experience.

That was a handsome collection of children exhibited at the Opera House last evening. Mr. Parent man, was your child there and aren't you glad that nothing happened?

Seeing the site selected by the Young Men's Association for their club house, I think I am quite safe when I say I will bank on its being built, or rather that it will be built on the bank.

I presume that the great improvement in the odors in the vicinity of the G. T. R. track on Queen street is due to the cold weather as much as to the cessation in live hog shipments.

According to the press reports, there must be something of the coupe about the School Board's canning factory. The papers state that the factory has a hundred hands.

Mr. Gayboy chose a pretty fast clip, so when he went out the other day to locate his gate which the boys had Halloweened, his friends said that Mr. Gayboy was "finding his gait."

As soon as it is time to announce the name of the next Mayor I will do so and there won't be any chicken strut about the announcement either, as Ald. Andrew Thomson would put it.

Mr. Leake says that the Central school is the best in the province. We had a similar idea all the time and kept quiet, because we didn't want to make other places jealous, but these things will leak out.

No, Dear Cousin Mubx, you were misinformed. It was a tanning factory, not a tanning factory which the School Board secured. The Maple City school children, are 'the best that is.' That don't need tanning.

With the School Board going after canning factories, the Board of Trade going after Chaplin wheel works and the Industrial committee going after the credit, this city ought certainly to go ahead.

The best sight of the season was that car of anthracite which arrived in the city this week. I won't tell what dealer got it, as I don't want him to have to order out the 24th Regiment to guard the car.

My friend John Primeau has a good story he tells about the wreck on the G. T. R. at Komoka, in which John figured gallantly and got a black eye. John, who was fireman on the engine, did not see the wreck coming as his back was turned, but the other trainmen did

and all jumped but John, who even when he saw the danger was too excited to move. That isn't the way the hero tells it, however. His version is, "The engine jumped, the brakeman jumped and the conductor jumped, but the old dog, John Hobson Primeau, stuck to his post."

Dr. Sharp was in Detroit yesterday.

AN ENGLISH AUTHOR WROTE:

"No shade, no shine, no fruit, no flowers, no leaves,—November! Many Americans would add, 'no freedom from catarrh,' which is so aggravated during this month that it becomes a constantly troublesome. There is abundant proof that catarrh is a constitutional disease. It is related to serofula and consumption, being one of the wasting diseases. It is capable of eradicating serofula, completely cures catarrh and taken in time prevents consumption. We cannot see how any sufferer can put off taking this medicine in view of its widely published record of its radical and permanent cures. It is undoubtedly America's Greatest Medicine for America's Greatest Disease—Catarrh."

WORLD OF SPORT

FOOTBALL

The league game of foot ball announced to be played at Chatham on Saturday afternoon last failed to materialize, at the eleventh hour the Wallaceburg management found it impossible to get the team out, and a decision to default the game to Chatham was quickly arrived at.

In view of the fact that Chatham had played their scheduled game here, at considerable expense to themselves and had also incurred considerable expense in advertising and preparation for Saturday's game, it is to be regretted that Wallaceburg did not play the return game even if they had to play men that never saw a football.

Chatham kickers feel very sore over the matter, and talk of Wallaceburg's suspension for a term of years is indulged in. The statement the management were unable to get their players off, is, however, a fact.

A number of them are holding positions from which it was impossible to get away on Saturday, and the remainder of the team naturally felt that there was little pleasure to be gained from a late arrival and the certain defeat that the weakened condition made certain.—Wallaceburg Herald-Record.

PRACTICE GAME.

The original scrub team and the city regular team have arranged to play again on Monday afternoon at 4:30 sharp. This city line-up will be the strongest possible, and will be picked from the following players:—Smith, Courtney, Wilson, Piggott, Sissons, Parrot, Angus, Brackin, Fettery, Grant, Killington, and Messer.

In view of the fact that Chatham goes to Dresden next Saturday and will have the hardest game of the season to play, Captain Phil B. Fettery wants all the above mentioned players to turn out in uniform for the game on Monday evening, which will be a good one for practice.

Captain Fettery says that if the players don't turn out there will be some changes in one or two positions.

AT THE BURN.

Darrell went to Wallaceburg to-day as per schedule and took their strongest team with them. Wallaceburg have had plenty of time lately to get in some good practices and have been strengthened up since Chatham was here, so that the toughest kind of a game may be expected.

President Frank D. Laurie appointed and sent Dr. Alger, of Dover Centre, out to referee the game.

A scrub team consisting of a number of college boys and others defeated the model school team yesterday afternoon in a close game, the score being one to nothing, although the game seemed to be in favor of the school most of the time, but the scrubs did all the scoring that was done. The college team and the C. Model school will meet for a game on Tuesday next.

Captain J. W. Courne, of the London Association football team, was in the city last night and made arrangements with Secretary Percy Piggott, of the local league team, for an exhibition game here, probably next week.

Capt. C. B. Sissons, of the Collegiate Institute football team, took his team of promising young footballists to Ridgetown to play the Collegiate Institute of that place. Mr. Sissons took the strongest team possible from the school.

At the other end of the League Windsor and Essex are playing at Windsor to-day.

BLOOD DISEASED MEN

If you ever contracted any blood disease you are never safe unless the virus has been eradicated from the system. Have you any of the following symptoms? Sore throat, ulcers on the tongue or in the mouth, hair falling out, itching pains, itching of the skin, sores or blotches on the body, eyes red and smart, dyspeptic stomach, sexual weakness—indications of the secondary stage. Don't raise your system with the old fogey treatment—mercury and potash—which only suppresses the symptoms for a time only to break out again when happy in domestic life. Don't let quacks experiment on you. Our New Method Treatment is guaranteed to cure you. Our guarantees are backed by bank bonds, that the disease will never return. Thousands of patients have been already cured by our New Method Treatment for over 20 years. No names used without written consent.

Mr. E. A. C. writes: "Your remedies have done me more good than Hot Springs and all the doctors and medicines I had previously tried. I have not felt any of those pains or seen any ulcers or blotches for over seven years and the throat symptoms of the leucoderm disease have entirely disappeared. My hair has grown in fully again and I am married and happy."
